FLOWER SHOW A SUCCESS

Much Interest in the Exhibits at Southampton.

[By Telegraph to The Tribune.] Southampton, Long Island, July 20.—The fourth annual floral show of the Southampton Flower Society was held under a tent on the grounds of Samuel L. Parrish to-day, and turned out to be a big success. Society was out in full force from the summer colony, and unusual interest was shown. The keenest competition was in the luncheon and dinner table decorations. In luncheon table decoration Miss Amy Ellis won first prize, with a beautiful table of wild flowers, using butterfly weed and Queen Anne's lace. Second prize went to Mrs. T. H. Barber.

TO INSURE CLEAN MILK

G. H. F. Schrader Advocates a Travelling Dairy School.

To the Editor of The Tribune. Sir: As doctors and scientists all agree that clean milk breeds disease and that had milk is largely responsible for the high infant mortality, the reformer should direct his efforts to remove dirt, the fundamental cause of all milk trouble, at its source—the farm.

The farmer who sells unclean milk does so through ignorance, carelessness or laziness. Therefore he needs education and stirring up.

Model demonstration dairy farms and district dairy schools, as well as agricultural colleges, are the educational channels through which some reformers want to reach the farmer. The farm scheme is a good one, for nothing teaches like demonstration; but the large capital required to establish the number of model farms that are needed to reach all farmers makes this plan too costly.

SEEKS ROOSEVELT'S AID

Priest Tries to Get Money from Him for Work at Nazareth.

Oyster Bay, July 20.—Seeking a contribution from ex-President Roosevelt, Archdeacon George Nathaniel, an American Protestant, went to Nazareth, a hospital and orphanage at Nazareth, Galilee, came to-night. He was unable to reach Mr. Roosevelt, at Sagamore Hill, and had a hard time to find a place to sleep.

The priest gives his address as No. 1012 Locust street, Philadelphia. He came here on a late train to-night and the local cabmen didn't care to take him up, classing him as "one of them foreigners."

Then he sought a sleeping place, but was unable to find accommodations at a couple of hotels. Finally, he got a room in an out-of-the-way place. He explained to-night that he hoped to get a contribution from Mr. Roosevelt to-morrow, if no money, a letter expressing sympathy with the work at Nazareth. There are one hundred and thirty orphan boys in Nazareth who need care, he says, and \$5,000 various letters accrediting him. One is from the Rev. William J. Wilkinson, pastor of the First Presbyterian Church, of Pottsville, Penn. This says that the writer generally knows the necessity for the work undertaken by Archdeacon Nathaniel. Another letter, signed "Manojlovits, acting consul general, Austria-Hungary, New York," said that the writer knew conditions in Nazareth and that the work undertaken by the Archdeacon was "necessary and most commendable."

The farm scheme is a good one, for nothing teaches like demonstration; but the large capital required to establish the number of model farms that are needed to reach all farmers makes this plan too costly.

The district dairy school and agricultural college are slow and uncertain to solve the milk question, and they are certainly not the most practical methods of covering so large a territory as that of the dairying industry.

But let us assume that such schools and colleges were the farmer's only hope for education. Would and could he go to school on a farm?

We are dealing with an educational problem, in which we must not lose sight of the farmer's business interest while he is learning. We must make his education so simple, easy, attractive and comprehensive, in the shortest space of time, that he can and will learn while he is attending to his business.
