

TAFT HEARS GOOD NEWS

Representative McKinley Says Republicans Will Hold House.

ALSO REGAIN LOST SEATS

President and Mrs. Montt Informally Entertained by Mr. and Mrs. Taft.

Beverly, Mass., Aug. 6.—Representative W. E. McKinley, of Illinois, chairman of the Republican Congressional Campaign Committee, came to Beverly this afternoon filled with optimism of the rosiest hue and gave President Taft an enthusiastic forecast of the coming Congressional elections.

As to the possibility of McKinley's being surprised at the mention of such a thing, the Congressman declared that he had no intention of doing with primaries, but would support every Republican candidate that supports the President.

"He is the head of the party," said McKinley, "and his success is our success."

"Will the next House be Republican?" Mr. McKinley was asked.

"Yes, absolutely no doubt that we will get it," he replied.

"Why," he replied, "I am just as sure of it as I am of the fact that we have, and we will get back a number that we lost two years ago. In Indiana we ought to get back two or three seats alone."

"How about the Lovinger district, in Massachusetts, which Mr. Foss won in the special election?"

"We will get that back sure," he said.

"And the Perkins district, in New York, recently won by Mr. Haven?"

"There is absolutely no doubt that we will get it."

Every question put to Mr. McKinley elicited a response equally if not more optimistic.

He hesitated at nothing, however, when asked to go into details, however, the committee will maintain headquarters in New York and Chicago.

"What will the campaign be fought on?"

"On the glorious achievements of the great Republican party."

"Including the tariff?"

"Yes, including the tariff."

Representative M. E. Driscoll, of New York, also saw the President this afternoon. He came to urge Mr. Taft to reconsider his decision not to attend the state fair in Syracuse on September 12.

The President took the matter under advisement, but there is said to be little chance that he will go.

His determination to cut short his travels appears to be fixed. Mr. Taft was not so optimistic as Mr. McKinley, and he thinks the campaign is going to be a hard one.

Secretary Norton left Beverly for Boston this afternoon about the time Senator Crane was reported to have reached there from Dalton.

Other than to say he would be gone over Sunday, Mr. Norton left no word as to his plans. It was reported here tonight that he may have met Senator Crane for a conference regarding the latter's recent trip to the West.

President Montt's Visit.

President Taft received President Montt cordially, but without the formalities usual between heads of states. The only suggestion of a military ceremony came from the saluting guns of the yacht Mayflower, which conveyed President and Mrs. Montt and several members of their suite from Boston to Beverly and paid them due honors.

President and Mrs. Taft entertained the Chilean chief executive and his wife at luncheon. The other guests included the Secretary of State, Mr. Knox, who came to Beverly especially to assist in the welcome; Governor Draper and Mrs. Draper, Miss Boardman, of the American Red Cross; the Chilean chargé d'affaires, Mr. Yocum; Brigadier General Carter and Secretary Charles D. Norton.

President Taft placed the yacht Mayflower at the disposal of the South American visitors. The yacht sailed into Boston early this morning. The President's military aide, Captain Butt, and one of his naval aids, Lieutenant Rowlett, of the Mayflower, escorted President and Mrs. Montt from their hotel in Boston to the Presidential yacht. Chandler Hale, Assistant Secretary of State, also assisted. Commander Logan of the Mayflower received the visitors at the starboard gangway.

The sail from Boston to Beverly was made at a leisurely pace and it was after 10 o'clock when the Mayflower anchored in Beverly harbor. The visitors soon were landed at the President's dock and walked to the front veranda of the Taft cottage.

While the luncheon at the Taft house was in progress several members of the Montt suite were entertained aboard the Mayflower.

President and Mrs. Montt returned to Boston this afternoon and took an automobile ride about the city this evening. With the party he will return to New York tomorrow.

FAIRBANKS TO STUMP INDIANA.

Indianapolis, Aug. 6.—Ex-Vice-President Charles W. Fairbanks will stump Indiana during the fall campaign for the Republican Congress and state tickets. It was announced last night. Mr. Fairbanks said that his time would be at the disposal of the state committee after he had filled several engagements made for him in other states by the National Republican Campaign Committee.

SCRUTINIZE YOUR MONEY

116 Arrests Were Made Last Year on Charge of Counterfeiting.

Washington, Aug. 6.—Reduce the "life of counterfeit" money one-half by educating the public to scrutinize more carefully the paper and coin it handles, is the slogan of the United States Secret Service, whose report for the fiscal year became public today. Chief Wilkie announces a decreased activity among criminals who make the fabrication of currency and coin their specialty.

There is still trouble in some districts over "false" notes, when the detection of one and two dollar bills are given to give the appearance of tens or twenties.

The greatest menace to the integrity of the currency ever conceived, important as counterfeiting is, is the fact that many people are not concerned with public safety, as the report describes the operations of the Illinois State Bank, which is now in the hands of the United States Secret Service, whose arrest and conviction have been reported in the United States.

There were 216 arrests by the Secret Service during the fiscal year of 1909. Of these 152 were made in the United States, 11 in Italy, 10 in Russia and the rest scattered. New York furnished most of the cases.

BABY ABANDONED IN PARK.

One baby boy, apparently abandoned, was found in Central Park, opposite the Metropolitan Museum of Art, last evening. The child was found in a basket, which was carried to the station and later to Bellevue Hospital. The child had light hair and blue eyes and wore a white cap, white dress, white socks and shoes. There were no marks on the clothing.

PATRICK AND OTHERS DROPPED.

The names of the lawyers, previously disclosed, were ordered stricken from the rolls today. Heading the list was the name of Albert P. Patrick. Others were William F. Deane, Gear J. Hochstetler, Herbert F. Andrews and Frank W. Hardenbrook.

WATSON AND HARDWICK

They Exchange Broadides in the Georgia Campaign.

Thomson, Ga., Aug. 6.—Congressman Hardwick speaking under guard in this city, the home of Thomas Watson, today, launched a sensational broadside against the Populist leader, declaring that Watson some years ago had offered to aid the Republicans in South Dakota for a financial consideration.

He entertained an offer, Hardwick charged, to put out a middle-of-the-road Populist ticket in South Dakota. The charge Hardwick supported by a letter purporting to have been written to Congressman W. M. Howard by Congressman Charles P. Burke, now chairman of the Georgia bribery investigation, in which it was stated that Mr. Watson, in company with two other prominent Georgia Populists, met Congressman Burke, the late Senator Mark Hanna and other prominent Republicans in Chicago to consider the proposition.

Mr. Watson and Mr. Hardwick spoke in different parts of Thomson under strong guard. The fight between Hardwick and Watson, who is supporting Judge Ely for Governor, has become a bitter contest.

Mr. Hardwick announced he would speak in Thomson, Watson sent out a call for his friends to come to Thomson today, declaring his life to be in danger.

Hardwick declared today that if Watson would swear to his charge of burglary he would put stripes on his back, shackles on his legs and work him on the road as a common felon.

Watson declared that if Hardwick had present he would not have touched him, not even have slapped his face, but "I would have lashed him with righteous indignation," he said.

Watson declared that if Hardwick had present he would not have touched him, not even have slapped his face, but "I would have lashed him with righteous indignation," he said.

SAYS CITY WON'T PAY FEE

Frank Hendrick Is Running for Congress and Needs the \$2,000.

The city owes Frank Hendrick, the young Republican free lance, \$2,000, and he wants it right away. He is making a fight to get the nomination for Congress to succeed Congressman Parsons, and does not want to take money from the city.

So Mr. Hendrick yesterday served on Acting Controller Mathewson an order to show cause on Wednesday why he should not pay to Mr. Hendrick and Cambridge Livingston the warrants which Mr. Hendrick verily believes are made out for them in the Controller's office.

Mr. Hendrick and Mr. Livingston, with Gilbert Montague, who does not appear in this proceeding, were commissioners of estimate and appraisal in the matter of condemning some easements at Broom and Cleveland streets for the purposes of the Brooklyn loop subway. They made awards to the amount of \$2,000 in their report, which was made in April. At the same time the court fixed the fee of Mr. Hendrick at \$2,000 and that of Mr. Livingston at \$2,000.

He has reason to believe, Mr. Hendrick declares, that the warrants for the fees of himself and Mr. Livingston have been duly drawn and passed through every stage except the actual delivery and payment.

Mr. Hendrick, who several years ago made an unsuccessful attempt to get the Republican leadership of the 23rd Assembly District and later was a candidate for Congress against Congressman Parsons, is out for the regular nomination this year. He said yesterday:

"I expect to fight at the primaries for delegates. If I do not get the regular nomination I shall probably run independently. But I have got to have money, and I want that \$2,000 from the city. Of course, the fact that Acting Controller Mathewson is a great friend of Mr. Parsons has nothing to do with the fact that my warrant is being held up. I would not think that for a moment."

WADSWORTH FOR SENATOR

Friends Are Grooming Him to Succeed Chauncey M. Depew.

Buffalo, Aug. 6.—The announcement that James W. Wadsworth, Jr., Speaker of the Assembly, will enter the field to succeed Chauncey M. Depew in the United States Senate, is said to have been made by John A. Merritt, Collector of Customs at Niagara Falls at the Niagara County Republican Committee picnic on Thursday.

The report is in circulation throughout Niagara, Genesee and Orleans counties—the old Wadsworth territory. Mr. Wadsworth, Chairman Woodruff, William Barnes, of Albany, and Fred Greiner, of Buffalo, will support the Speaker.

The Wadsworth contingent planned to run the Speaker for his father's old place in Congress, but that idea has been abandoned. Mr. Wadsworth is a good Wadsworth man and is serving his first term, were put aside.

Mr. Wadsworth places his greatest faith in the support of the Republican Assemblymen.

BROTHER NAILED HIM IN ATTIC

Boy Hungry Four Days—Story of a Princely Ancestor.

Milwaukee, Aug. 6.—Huddled on a heap of rags in the attic of a cottage, where he had been nailed in by his brother and forced to remain four days and nights without a morsel of food, George Glaser, nineteen years old, was found yesterday by patrolmen who had been sent to serve a vagrancy warrant on him and his brother Henry, who had trouble in the law and no work. It is said, because they say they are descendants of a German prince.

HELD FOR SMUGGLING

Waiter on Ship Had Arms and Ammunition in Baggage.

Charged with the attempted smuggling of arms and ammunition, Jacob Lauffer, a waiter recently employed by the Steward of the steamship Seminole, of the Clyde Line, was held in \$10,000 bail yesterday by United States Commissioner Morie, in Brooklyn. Lauffer was arrested at Pier 25, Atlantic Basin.

With many Manhattan and Brooklyn passengers aboard, the Seminole was about to sail from the basin yesterday at noon for Santo Domingo, when she was delayed several hours by the arrest. A watchman ordered Lauffer's baggage to be inspected. The waiter refused to submit to this, and David Whitmond, purchasing agent of the line, sent for a United States marshal.

In Lauffer's baggage were found three and three hundred rounds of ammunition were found. It was thought that he had intended to sell these to the natives of Santo Domingo, who are willing, it is said, to pay fancy prices for such things.

PIERCED FINGER WITH PENCIL

As a Result Tin Plate Official May Lose His Arm.

Pittsburg, Aug. 6.—A. G. Young, traffic manager of the American Tin Plate Company, is in a serious condition from blood poisoning. Amputation of his right arm may be necessary.

While in camp in Canada a week ago Mr. Young placed a pencil in his mouth and bit it. He treated the wound with first aid remedies, but it did not heal, and he was forced to return to his home here, when he went to a hospital.

YOUTH HELD FOR FORGERY

Charged with Signing Physician's Name to Check for \$700.

Ray Jacob, who lives with an aunt at 112 West 125th street, it is alleged, admitted in the West 125th street station yesterday that he had forged the signature of Dr. Lawrence McEvoy and the indorsement of J. W. Harriman, Jr., to a \$700 check. He was locked up to await arraignment in the Jefferson Market police court this morning.

When asked where he got eight opium pellets that were found on him he said he stole them from the desk of Dr. McEvoy, who occupies the first floor of his aunt's home. He added that he had been taking them for several months.

The youth presented the check to the paying teller at a bank at West 125th street and Fourth avenue, and was asked where he got it. "I am J. W. Harriman, Jr.," he replied, "my father is vice-president of the American Express Company."

Dr. McEvoy was telephoned to, and he said at once that the check was a forgery. He ordered Jacob to be arrested and placed Jacob under arrest.

When he arrived at the station house he was placed in a cell. The youth had taken the check from Dr. McEvoy's check-book while he was absent from his office on Friday. He is charged with forgery in the first degree.

JACK BARRYMORE TO WED

He and Miss Katherine Harris Announce Engagement.

FATHER SAID TO OPPOSE IMPORTERS SAVE \$25,000

Actor's Bride-To-Be Is Young Daughter of Lawyer Now Living in Paris.

Confirmation of the rumors that have been flying about in theatrical circles that Miss Katherine Corri Harris, daughter of Mr. and Mrs. Sidney Harris, of New York and Paris, was to marry "Jack" Barrymore, the actor, was obtained yesterday from three authoritative sources—the young woman herself, her mother and Mr. Barrymore.

Miss Harris, when seen yesterday at the Hotel Brayton, Madison avenue and 23d street, said that she and Mr. Barrymore were to be married some time, just when she either could not or would not say.

Miss Harris, who is a very attractive young woman, said that she and Mr. Barrymore had known each other for years and that their engagement was the natural culmination of that friendship.

"Mother is perfectly in sympathy with our engagement," said Miss Harris, smiling. "She considers Mr. Barrymore a very fine young man and has known him for a long time."

"I expect to fight at the primaries for delegates. If I do not get the regular nomination I shall probably run independently. But I have got to have money, and I want that \$2,000 from the city. Of course, the fact that Acting Controller Mathewson is a great friend of Mr. Parsons has nothing to do with the fact that my warrant is being held up. I would not think that for a moment."

"No," was the quiet reply. "It is true that he isn't in sympathy with it, but I don't believe he feels as strongly against it as some rumors have it. Anyhow," and the smile left her face for the moment, "it's my future, not his."

Miss Harris said that she didn't know just where her father was, but thought he might be on his way to New York.

When Mr. Barrymore was seen at his bachelor apartments, at Murray's, in West 42d street, he confirmed the news of his engagement, but would not say that any immediate date had been set for the marriage.

"The whole thing is this," said Mr. Barrymore; "we're engaged, but the wedding will not come off for a long time. It's just a regular engagement resulting from a long friendship with Miss Harris."

Mr. Barrymore said he did not wish to discuss the attitude of Mr. Harris toward the engagement. In answer to a question concerning the reported divorce of Mr. and Mrs. Harris, he said that he knew they were separated, but was not positive about the divorce.

Friends of Miss Harris and Mr. Barrymore intimate that the wedding is being postponed until the father of the young woman arrives from Paris, when an attempt will be made to gain his consent. It is said that his only objection to the marriage is because of his daughter's age. She is only nineteen years old.

Mr. and Mrs. Harris were divorced in 1901, and since then Mr. Harris has been practicing law in Paris, where he has a home. When the reported engagement of his daughter first came to his ears, some weeks ago, he was opposed to it. Miss Harris is said to have informed him that she would be married despite his objections, and the next day she and her mother sailed for New York.

"Jack" Barrymore is a son of the late Maurice Barrymore and a brother of Ethel and Lionel Barrymore. John Drew is an uncle. He is a popular figure on the New York stage, and is twenty-seven years old.

HELD FOR SMUGGLING

Waiter on Ship Had Arms and Ammunition in Baggage.

Charged with the attempted smuggling of arms and ammunition, Jacob Lauffer, a waiter recently employed by the Steward of the steamship Seminole, of the Clyde Line, was held in \$10,000 bail yesterday by United States Commissioner Morie, in Brooklyn. Lauffer was arrested at Pier 25, Atlantic Basin.

With many Manhattan and Brooklyn passengers aboard, the Seminole was about to sail from the basin yesterday at noon for Santo Domingo, when she was delayed several hours by the arrest. A watchman ordered Lauffer's baggage to be inspected. The waiter refused to submit to this, and David Whitmond, purchasing agent of the line, sent for a United States marshal.

In Lauffer's baggage were found three and three hundred rounds of ammunition were found. It was thought that he had intended to sell these to the natives of Santo Domingo, who are willing, it is said, to pay fancy prices for such things.

FIVE HUNDRED SEE SUICIDE

Missing Railroad Auditor Kills Himself on Baseball Grounds.

St. Louis, Aug. 6.—A man identified from papers in his pockets as Henry E. Wasson, formerly traveling auditor of the Missouri Pacific Railroad, who had been missing from his home in Leavenworth, Kan., shot and killed himself on the baseball grounds of Carondelet Park this afternoon. Wasson's brother-in-law had asked the police to assist him in searching for Wasson. Five hundred spectators saw the man kill himself.

WINES POUR INTO PORT

Italian Vessels Arrive Before Old Treaty Expires.

IMPORTERS SAVE \$25,000

New Tariff Goes Into Effect Tomorrow—Custom House Closed To-day.

Three vessels from Italian ports came in Friday and yesterday with cargoes of still and sparkling wines which were entered under the old tariff, the reciprocity treaty with Italy, Spain, Portugal and the Netherlands expiring to-day. There were numerous brokers at the Custom House the greater part of yesterday, expecting scenes similar to those on October 31 last, when the French reciprocity agreement closed, but the entries that were made were unaccompanied by excitement, as these were permitted pending the arrival of the last steamship with a cargo affected by the change, the Louisiana, of the Italian Lloyds. She came in in the afternoon.

On Friday the steamships Sicania, of the Italian Line, and the Venezia, of the Fabre Line, brought a considerable amount of still wines, on the arrival of which the expiration of the agreement. In all about \$25,000 was saved in the last few days by the importers.

One importer furnished a diversion at the Custom House soon after business was opened. He had forgotten that the agreement with Italy would expire to-day and intended to pay the duty on 5,000 gallons in bond as it was sold. He was at breakfast when he saw in The Tribune that importers were kept working in anticipation of the lapse of the agreement. As by paying yesterday 10 cents a gallon duty would be saved, the importer lost little time in getting his papers and saving \$500 on his stock.

There were ten entries from the Louisiana—500 cases and 3,000 gallons in all. This represented a saving of about \$3,000. Several brokers urged that the Custom House be kept open to-day to accommodate possible arrivals, but Collector Loeb, before leaving for a visit in the upper part of the state, left word that there should be no Sunday opening. The Collector remembered his experience on October 31 of last year, which fell on a Sunday. The Custom House was kept open and there was a rush of French importations of champagne and other wines into the port.

Throughout the week the Collector's mail contained numerous letters of criticism from ministers of the gospel, temperance society officers and members, and remembering this experience it was decided not to invite a repetition of complaint. But the offices were kept open until 4:30 o'clock, as on the other days in the week.

The steamship Louisiana arrived at Quarantine at about 1:30 o'clock and was due at her pier soon after 3 o'clock, there was an expectation that her captain would enter the steamship himself, which is the customary proceeding. But the company provided for every contingency by sending the papers up on the revenue cutter, so that the entry was made long before the closing time.

When the cargo of the steamship had been entered the force of deputies and clerks was kept on duty to await the registered mail from abroad, so that the importers might have every opportunity to get their entries in and that there might be no possible objection. Deputy Collector Baker was in charge after 2 o'clock. The mail brought little work for the men and promptly at 4:30 o'clock the doors were closed.

EXPIRATION OF TREATIES

Reciprocity Agreements Under Dingley Law Terminated.

Washington, Aug. 6.—All of the reciprocity treaties made by the United States under the provisions of the Dingley tariff act have been terminated, and beginning on Monday all articles entering American ports will be subject to the rates of duty provided in the Payne law. When the Payne law was enacted a year ago the Secretary of State gave formal notice to the governments with which commercial agreements had been concluded of the intended termination of these agreements.

Under this notice the agreements with France, Switzerland and Bulgaria were terminated on October 31, 1909, and with Germany and Great Britain on February 7, 1910. The agreements with Portugal, Italy, Spain and the Netherlands provided that a notice of a year should be given prior to their termination. This notice was given by Secretary Knox on August 7, 1909. It is probable that the Treasury officials will have to pass on the question of whether merchandise reaching American ports tomorrow from Portugal, Italy, Spain and the Netherlands is dutiable under the Payne rates or the rates prescribed in the trade agreements.

The date on which the agreements with France, Switzerland and Bulgaria were terminated fell on Sunday, and the Department held the merchandise from those countries imported after the close of business on Saturday could not be admitted under the rates provided in the agreements. There is little doubt that this ruling will be followed if protests are filed by importers whose merchandise is a day late in reaching American ports.

For the last few weeks imports have been coming in heavily from Portugal, Spain, Italy and the Netherlands. There was a grand rush to take advantage of the concessionary rates provided in the trade agreements. It is said that some of the wine and liquor importers have been forced to acquire additional storeroom to take care of the heavy shipments which have been received.

WHITCOMB METALLIC BEDSTEAD CO.

450 FIFTH AVENUE, NEW YORK

We are pleased to inform our many Patrons and the Public that we shall remove on September 1st to our new store at MADISON AVENUE & 34TH STREET

WHERE we will present a large and choice assortment of BRASS AND ENAMEL BEDSTEADS, QUEEN ANNE COUCH BEDS, LUXURIOUS BEDDING, LACE SPREADS, ETC., in new and selected designs.

Until we move we shall continue to dispose of our present stock at prices from 10 to 30% off former values.

TROPICAL HEAT TESTS

Experiment Being Made in Color and Composition of Eyeglasses.

Washington, Aug. 6.—The naval medical officers believe they are on the track of a means of overcoming the effects of tropical heat. Since the military naval personnel has so much duty in the tropics—notably the army in the Philippines and Cuba and the navy in West Indian and Central American waters—this problem has engaged the attention of the experts. In the hope that they would be able to reduce the amount of disability on shipboard and in the military force, Special Investigations have been conducted from time to time and army and navy surgeons have taken courses of instruction at the European schools for the study of tropical diseases.

For some time the army surgeons have been investigating the theory that certain colors used in underclothing would be a protection against the effects of the sun's rays. This inquiry proved that no such influence was exerted. Other devices have been tested with a view to determining what is the best apparel for those on duty in the tropics.

The surgeon general of the navy has now provided for an investigation which may be of much importance to science in its attempt to solve the problem. A naval medical officer, Passed Assistant Surgeon Harold W. Smith, U. S. N., on duty at the Naval Academy, is now engaged on work which will take some weeks, and which aims to ascertain the proper tint and chemical composition of eyeglasses. It has been held by some of the European experts that the effect of tropical light is felt not through the skin, but through the eye. If the intense heat and light of the tropics can be excluded by a particular tint of eyeglasses there will be a diminution of sickness. The report of Surgeon Smith is awaited with much interest, as possibly affording relief and protection by a simple and inexpensive process.

SEEK CADDIE FOR MURDER

Continued from first page.

place just prior to the discovery of the body the police confess that they have nothing tangible to guide them. The body was found close to a powerful arc light, and although Mr. Rice carried a large sum in currency on his person, in addition to several valuable articles of jewelry, nothing was missing.

Cromwell Going to Cleveland.

Interest in the case was heightened tonight when word was received from New York that William Nelson Cromwell, who had been associated with Mr. Rice in several business deals, was coming to Cleveland as a result of the tragedy. It is not known what information Mr. Cromwell may have, if any, in respect to the possible motive of the murderers, but the police hope that he may be able to inform them whether Mr. Rice had any enemies whose animosity would have drawn them so far as to commit murder.

Two persons have reported to the police that they saw two foreigners near the place where Rice was murdered. John C. Chandler passed them shortly before Rice was killed. A few minutes after he saw the strangers Mr. Chandler met Mr. Rice, who was walking toward the foreigners. R. P. Ranney, an attorney, saw the two men shortly after the shots that killed Rice were fired.

The supposition is that if the two men committed the crime for robbery they were frightened away by the approach of an automobile which contained Drs. W. H. Phillips and T. H. George and their wives. The automobile picked Mr. Rice up and conveyed him to a hospital, but he died on the way.

Outside of the caddie theory Rice was not known to have had any enemies. T. C. Castock, caretaker of the Euclid Heights home, told the police that some time ago dynamite was discovered under the porch of the Rice home, but the police do not believe it had any connection with the present case.

Marshal Brockway and Rice's law partners, Judge E. J. Blandin and Frank H. Ginn, searched his private papers today in hopes of discovering a clue, but without avail.

Deputy Coroner Droege, who examined the body to-day, scouts the robbery theory. He believes from the cuts on Mr. Rice's hands, made by a sharp knife or razor, that the lawyer fought off his assailants for a time, until one fired his revolver. A bullet entered the lawyer's right eye, probably killing him instantly. Another bullet grazed the lawyer's temple. The deputy coroner thinks both shots were fired after the lawyer had been thrown to the ground or had fallen. He says marks on the head indicate that a blackjack or club was used to strike Mr. Rice before he was shot. Mr. Rice's right coat sleeve was cut in two places. The face was full of powder marks.

Mr. Rice, who was fifty years old, seldom appeared in court. He was noted by setting the Axworthy case, so-called, in the early 80's. Axworthy, who was city treasurer of Cleveland, absconded to England with \$400,000. His bondsmen sent Rice after him, and much of the money was recovered. Rice's fee was \$25,000. He was a member of the Euclid Yacht Club and Cleveland Yacht clubs and a director in many big companies. He was an ardent golfer and a lover of horses.

Boston, Aug. 6.—That William L. Rice, the Cleveland banker, was murdered by robbers is the belief of his widow and her brother, Alfred Granger, who, with Mrs. Rice's four children, passed through Boston late to-day on their way to Cleveland from their summer home at Wixson, on Cape Cod.

"My husband did not have an enemy in the world," said Mrs. Rice. "He was murdered by robbers I am sure."

Mrs. Rice was leaning heavily on the arm of her brother when seen at the South station and appeared to be nearly prostrated. The party hope to reach Cleveland at noon to-morrow.

THE ANNUAL RENARD CLEARANCE SALE OF ALL MID-SUMMER MILLINERY, SUITS, DRESSES, COATS, WAISTS, ETC. opens to-morrow, Monday morning, at nine, continuing until every line is sold— OWING TO LIMITED QUANTITIES, AND EXTRAORDINARY VALUES.
