

People and Social Incidents

NEW YORK SOCIETY.

Among those who have sailed from Europe and are due to arrive in New York this week are Mr. and Mrs. Charles B. Alexander, who will spend the autumn at their villa at Tuxedo, Mrs. O. H. P. Bell...

DOES MAYOR GAYNOR KNOW?

A Correspondent Fails to Find Police-men on Streets in Early Hours.

The Hon. Champ Clark says that if Mayor Gaynor were to see the questions of municipal government which he has been forced by his illness to leave for solution to others, but does he know what a change has come over the police force of this city since his retirement from his desk in City Hall?

It is not nominated for Governor. The Hon. William Sulzer will take it out in making faces at the bosses.

The suggestion that General Estrada may postpone the Presidential election in Nicaragua for a year, and meantime keep himself in office as President, having no support at all, is conceivably a full and free constitutional election could not be held within the six months at first set, and that a year's postponement is really desirable if not necessary.

A general decline in China's import trade might be interpreted as an indication of her growing domestic industries and her consequently increasing ability to supply her own needs.

"THE WOMAN HANDICAP." To the Editor of The Tribune.

Sir: In the article in behalf of the "womanettes," as the anti-suffragists have lately been called, Molly E. Seawell, in "The Atlantic" for September, differs with Mr. Howells's statement that "there are many arguments against woman suffrage but no compelling reasons against it, and here is one of them."

Is this an insidious attempt to popularize the hobble skirt atrocity by advertising it as an aid and incitement to matrimony?

The hand of "Populism" spares none. It has even ventured to attack Barnes, the defender of the Constitution and the sole support of business, in his own balliwick of Albany.

THE TALK OF THE DAY. Premier Briand's ruling against wearing ribbons and decorations pertaining to orders except such as are recognized by the French Republic brings to mind an occurrence at a German watering place some years ago.

STREET NOISES "SUPPRESSED." To the Editor of The Tribune.

Sir: The writer of your editorial in this morning's paper on "street noises" must be entirely unacquainted with the conditions existing on the upper West Side.

CORD MEYER GOES YACHTING. Has Been Quite Ill, but Now Takes Open Air Exercise Daily.

Great Neck, Long Island, Sept. 12.—While Cord Meyer has been quite ill, he was enjoying a sail on his yacht to-day. According to a member of his household, he takes daily rides in his automobile or else goes for a walk, is getting a great deal of relief from application of ointments.

STRICT IMMIGRATION LAWS. Secretary Nagel Expected to Continue Rigid Enforcement.

Washington, Sept. 12.—It is predicted that when Secretary Nagel returns to his desk at the Department of Commerce and Labor the change of immigration policy already started will be made complete.

CARDINALS VISIT MONASTERY. Montreal, Sept. 12.—Cardinals Vannutelli, Gibbons and Logue, accompanied by Archbishop Brochu and half a dozen bishops, spent to-day at Okla, the Trappist monastery, thirty miles from Montreal.

Twombly have gone to Lenox, where they are the guests of Mr. and Mrs. William D. Sloan. Mr. and Mrs. J. Mitchell Clark, who spent the summer camping in Maine, have returned here and are guests at the Munchie King cottage.

IN THE BERKSHIRES. [By Telegraph to The Tribune.] Lenox, Sept. 12.—Frau von Reichenau, wife of the first secretary of the German Embassy, lost a diamond brooch in the garden at Hotel Aspinwall this afternoon.

SOCIAL NOTES FROM NEWPORT. [By Telegraph to The Tribune.] Newport, Sept. 12.—Mr. and Mrs. Clarence W. Dolan will close their season next week at Hot Springs, N. H.

Excavations for August 2,813,462 Cubic Yards, Against 2,406,283 in July. [From The Tribune Bureau.] Washington, Sept. 12.—According to a cable dispatch received to-day from the chief engineer at Panama, the total excavation on the Panama Canal last month was 2,813,462 cubic yards, against 2,406,283 cubic yards in July.

THE NEWS THIS MORNING.

FOREIGN.—General Estrada's plans for a stable Nicaraguan government and an American loan were made public at Washington. Pablo Arosemena, according to a dispatch from Panama, probably will be elected to the second term of the late President Obaldia.

THE RAILROAD RATE HEARINGS.

The heavy impression that the increases proposed by the railroads applied to almost all freight rates was dispelled by yesterday's testimony of Vice-President Thayer of the Pennsylvania Railroad at the hearing before the examiner for the Interstate Commerce Commission.

DOMESTIC.

Byron Boyd, chairman of the Maine Republican State Committee, announced that he had been nominated for Governor by the Democratic caucus.

CITY.

Acting Mayor Mitchell again wrote to the Police Commissioner to prevent fraud at the opening of the schools. The public schools opened with more than seven hundred thousand pupils.

BRITISH SOCIALIST DISTURBANCES.

The leaven, or perhaps we should say the venom, of socialism is potently working in British industrialism. That is the explanation of the disturbances which have thrown tens of thousands of men out of work and which threaten to make a million idle and paralyze the chief industries of the kingdom.

UPSTATE GROWTH.

Census returns from various upstate cities indicate that New York outside the metropolitan district made a little better average gain in population between 1890 and 1910 than between 1850 and 1900. There has been a slackening of growth in a few cities, but the gains overbalance the losses.

THE HUDSON RIVER VALLEY TOWNS ABOVE.

The Hudson River Valley towns above Yonkers have been nearly at a standstill for the last thirty years. But all except Newburg and Kingston are going ahead a little now. In the Mohawk Valley and west as far as Rochester growth has been sustained and vigorous.

remains to be seen. But the city returns already noted bear out the general forecast of the state census of 1905, which clearly pointed to a larger percentage of gain upstate between 1890 and 1910 than between 1850 and 1900.

A CONTRAST IN PRIMARIES.

Our neighbor "The Mail" makes an effective point against the primary system in this state when it contrasts the apathy with which the primaries in all the big cities of the state to-day are approached with the interest in the primaries in Iowa, Kansas, Wisconsin and the other states where the direct system prevails.

ANOTHER ELIMINATION.

The forced withdrawal of Governor Malcolm R. Patterson as a candidate for re-election in Tennessee is a notable tribute to the increased power in politics of public opinion. Governor Patterson had persistently defied the moral sentiment of his state. He committed a gross breach of public trust when he pardoned his intimate personal and political friend, Duncan B. Cooper, after the latter's conviction on the charge of complicity in the murder of ex-Senator Carmack had been affirmed by the State Supreme Court.

LIBERIA'S THANKS ARE WELCOME TO THIS COUNTRY.

Liberia's thanks are welcome to this country as an indication of appreciation of what America did for her. It seems probable that the action of this country did have a beneficial effect upon Liberia affairs, though it may be an exaggeration to say that it saved the little republic from destruction.

British spirit of fair play and good faith will certainly assert itself. But there may be enough wayward minds to cause much trouble for a time. Meanwhile Britons who are concerned over the stoppage of the shipbuilding industry may perhaps console themselves with the thought that there is an equally complete paralysis of the rival shipyards of Germany, though from a somewhat different cause.

obtained through a system of rural police, which would impose a considerable cost upon the farmers for maintenance, through a stiffening of the provisions and penalties and against trespass, breaking and stealing, or through greater vigilance and sternness on the part of the farmers themselves, is a question worthy of consideration. In some way, however, the rights of property in henroost and orchard should be as surely vindicated as those in store and bank.
