

TAKE UP FINAL DETAILS

Subway Conference on Queens and West End Routes.

FOR ELEVATED EXTENSIONS

Indicated Interborough Must Hurry if It Is to Get Lines Allotted to It.

Members of the Public Service Commission and the conference committee of the Board of Estimate met yesterday morning to settle, if possible, the open questions of the routing of the Brooklyn Rapid Transit Company's South Brooklyn lines and the proposed lines in Queens. These matters were left open in the McAneny-Willcox report, and the committee was asked to take up the consideration of the problems and report before August 1. As it is hoped that the Board of Estimate will adjourn on Thursday for the summer, it is desired to get these matters cleared up by that time. The conference will meet again tomorrow afternoon.

The original proposition of the Brooklyn Rapid Transit to elevate the so-called Sea Beach, Culver and West End lines from Coney Island, and connect them with the Fourth Avenue subway at its present terminus at 45th street, and to build an extension of the present Third Avenue elevated line to Fort Hamilton. The company estimated that the cost of this work, together with the incidental improvements in terminal facilities at Coney Island, would be about \$12,000,000.

In the supplemental proposition of the Brooklyn Rapid Transit on April 25 it submitted the following alternatives: Either that any or all of the South Brooklyn extensions, when elevated, be treated as extensions of the Fourth Avenue subway, under franchises revocable after ten years, or that the city construct the original extensions of the Fourth Avenue subway embodied in the plan of the triborough route, and that these be included in the lines to be equipped and operated by the company under its general proposal.

If the latter proposition should be adopted the company would apply the \$12,000,000 that it would have spent on its own lines to the city lines, preferably the Broadway subway.

The conference yesterday decided that it would be better to take the first alternative of the Brooklyn Rapid Transit; in other words, to have it elevate its present lines. It was argued that it would be better to use the money of the city in the Broadway line and to have the beach lines elevated, as it was argued that persons going to the shore would not care to travel all the way in a subway train. The conference is also in favor of adopting a proposal for a joint tunnel to Staten Island for the use of subway trains, the pipes of the Catskill water system and a marginal railroad of the Dock Department to be used in shifting freight cars from Staten Island to Brooklyn.

The proposed tunnel to Staten Island would start from 6th street. This would necessitate the carrying of the Fourth Avenue subway to that point.

In regard to the Queens lines the conference has decided on elevated extensions both south and north of the Long Island Railroad. The latter line, it is suggested, should be a loop line running from Jamaica over to Bayshore and back to the Queensboro Bridge plaza by way of Flushing.

From the present temper of the members of the Board of Estimate the Interborough Rapid Transit Company will have to act quickly this week. If it has any idea of coming in and taking the lines allotted to it, several members of the board said yesterday that they would favor closing the deal for all the lines with the Brooklyn Rapid Transit on Tuesday if the Interborough did not make a move to-morrow.

STATE TO EXPORT A WITNESS

Appellate Division Decides Coal Operator Must Testify in Boston.

A novel precedent in this state was established by the Appellate Division of the Supreme Court yesterday, when it ordered Rembrandt Peale, head of a coal mining company, of No. 1 Broadway, to go to Boston and testify in a criminal action brought by that municipality against Maurice H. Klaus, following an investigation into the city's coal contracts. It is the first ruling by a higher court in this state on the constitutional power of the state to export witnesses in a criminal action.

The statute under which application for Peale's attendance at Boston was asked by District Attorney Whitman, at the request of the Boston authorities, was declared unconstitutional in the Supreme Court, on the ground that the enforcement of the act would deprive the witness of his liberty without due process of law. Justice South, however, in presenting the opinion of the Appellate Division, said that since it was the clear duty of a citizen to give evidence when called upon to do so in a court of justice it was beyond question that the state had the correlative power to compel him to perform that duty.

KUHNE NOW POLICE CAPTAIN

Man Who Served Jail Term for Contempt Promoted by Waldo.

When it was announced at Police Headquarters yesterday that Lieutenant August Kuhne had been made a captain by Commissioner Waldo there was some surprise. It was recalled that he was in hot water several months ago for failing to obey a Supreme Court order. Kuhne was fined \$50, and he also spent thirty days in Raymond street jail. This was under Bingham's regime.

Captain Kuhne was ordered to take charge of the Canarsie police station. Captain James E. Hussey, who has been in command there, was sent to the new West 25th street station.

At the time of the financial panic in 1867 Kuhne got in trouble with the Supreme Court when he ordered the "mugging" of a Brooklyn banker. A Supreme Court order was served on Kuhne, and he ignored it. His punishment followed.

THREE 'JOY RIDERS' CAUGHT

Charged With Taking Brooklyn Man's Car from Larchmont Club Garage.

Peter O'Connor, William J. Daily and Patrick Gorman, charged with having appropriated an automobile from the Larchmont Club Garage Thursday night and going "joy riding," were arrested by Patrolman Cochran, of Larchmont, yesterday and arraigned before Judge Collins. The three prisoners waived examination and were held in \$1,000 bail each for further examination.

The machine taken from the garage was owned by W. J. Turner Lynch, of No. 25 Court street, Brooklyn.

Dress and Street Hats which formerly sold up to \$28.

WESSELS ATTACKS HOSPITAL

Insists Son's Death was Caused by Refusal to Receive Him.

Montclair, N. J., July 8 (Special).—Edward J. Wessels, the New York advertising man, who, in a public statement, attributed the death of his son to the refusal of the Mountsinclair Hospital to receive him when an operation for appendicitis was urgent, denied to-day that he was a Christian Scientist. It had been reported to Dr. James Spencer Brown, chief surgeon of the Mountsinclair Hospital, that Mr. Wessels and the members of his family were Christian Scientists. "I am not a Christian Scientist, nor is any member of my family," said Mr. Wessels. "I am a member of the Watchtower Avenue Congregational Church. A physician was called as soon as we knew our boy was sick. "I believe," continued Mr. Wessels, "that the jolting of the automobile over the stones in the long ride to the Passaic Hospital so aggravated the disease that it was too late to do anything for him." Mr. Wessels' intimation that because homoeopathic physicians treated his son, the hospital would not receive him caused a sensation here, and made the breach between the homoeopathic and allopathic factions wider.

HURT BY STOLEN DYNAMITE

Young Men Cause Explosion in Woods and Lose Eyesight.

Two young men were seriously injured yesterday afternoon when several dynamite cartridges, which they are said to have stolen, exploded in the woods near Park Hill avenue, Yonkers. The explosion uprooted trees and caused a panic among the women and children who had gone there to spend the day. The injured are Walter McInyre, of No. 115 Beach street, and Nathan Lake, of No. 12 Poplar street. At St. Joseph's Hospital, where they were taken, it was said that both had lost their eyes and that their recovery was doubtful. According to the police, the men caused the explosion by trying to extract the copper wire from a bag of dynamite which had been stolen. Persons living in the neighborhood heard the explosion and at once communicated with Police Headquarters. On investigation it was found that the young men had been thrown several feet and were unconscious. Drs. Paul and Miller, of St. Joseph's Hospital, took them to that institution.

NON-SMOKERS LOSE AGAIN

Certificate of Incorporation Denied Because Date Is Left Out.

The Non-Smokers' Protective League of America, which has as its avowed determination the enforcement of all laws prohibiting or restricting tobacco smoking in public and semi-public places, and which even threatens to sue any public opinion that the poor slave of nicotine will have to go out behind the barn, as he did in his schoolboy days, met with its second defeat yesterday when Justice Grosvenor, of the Supreme Court, again refused to approve its articles of incorporation. The application was first denied because the incorporators forgot to state, as the law requires, that no previous application had been made to another justice. It was again denied because the notary who witnessed the signature to the new affidavit forgot to put in the date.

BOY WARRIOR CAPTURED

Runaway First Offered His Sword to Mexican Consul.

Tired out by riding the bumpers on a freight car from Boston to New York, Edward Flanagan, aged fifteen years, of Devon, N. H., was remanded in Children's Court yesterday to the care of the Children's Society until his parents come for him. To Chief Justice Russell he told a pathetic story of wandering about the country for three months after leaving home.

"I heard of the war in Mexico," said the boy, "and that they needed American officers. So I decided to go to the front. I sneaked upstairs and kissed my mother goodnight as she slept. I had a couple of dollars with me and started for Boston, where I hoped to get in touch with the Mexican Consul and tender my services. I only got as far as Lynn when my money gave out and I was obliged to walk the remainder of the distance. When I visited the consulate the secretary of the consul told me I might get a job as a drummer boy, but he wouldn't even advance my railroad fare."

Flanagan was arrested as he was about to jump a freight train in the Central yards at 25th street in his endeavor to get to Mexico.

COMET REPORTED VISIBLE

Can Be Seen with Opera Glasses, Professor Aitken Announces.

Cambridge, Mass., July 8.—A comet with a visible tail that may be observed with opera glasses is reported to be hovering over the city, according to Professor R. G. Aitken, of the Lowell Observatory, who says that the comet was observed by his discoverer, Astronomer Kless, of the Kiel, Germany, Observatory, on the night of July 5.

The comet was seen in right ascension 4 hours 3 minutes and 21.8 seconds; declination plus 25 degrees 15 minutes 2 seconds, and was moving in a southerly direction.

TO DISCUSS COURTHOUSE SITES.

The Mayor and a number of organizations of the city have been invited to attend a dinner of the City Club, to be held either July 11 or July 13, to discuss courthouse sites other than City Hall Park. The sub-committee of the Board of Estimate on courthouse site, the courthouse board, the Bar Association, the American Institute of Architects, the Chamber of Commerce and the Citizens Union will be represented.

FOR STATE FIRE MARSHAL

Understood Thomas J. Ahearn Is Slated for the Job.

It is understood that Thomas J. Ahearn, who was retired from his place as deputy chief in the Fire Department on full pay last week, of \$4,500 a year, is slated for appointment as State Fire Marshal. This is a new place, created under a law passed on the recommendation of the special legislative investigating committee of which Assemblyman Merritt was chairman.

The place, which requires no special examinations, has been much sought for by various fire experts all over the state. At one time Edward F. Croker, former chief of the Fire Department in this city, was said to be slated for the place, which is to pay \$7,000 a year.

Former Deputy Chief Ahearn is a brother of John F. Ahearn, one of the Sullivan leaders in Tammany Hall and former Borough President of Manhattan. He has the backing of Charles F. Murphy, leader of Tammany Hall, for the state job and his friends said yesterday that he was sure to get it.

Mr. Ahearn has been in the city Fire Department since May 3, 1873. He was known as one of the best fire fighters on the force, and was considered a formidable candidate for chief to succeed Mr. Croker until James Croftman, president of the Municipal Civil Service Commission, wrote the Mayor to say that a defect in Mr. Ahearn's hearing would render him ineligible for the examinations. Mr. Croftman pointed out that Mr. Ahearn's hearing had been made defective through a brave deed many years ago when, at the risk of his life, he entered a burning building looking for a child.

TO ENFORCE FRUIT LAWS

Commissioner Defines Measurements for Quinces, Pears and Apples.

For the benefit of persons interested in potatoes, quinces, pears or apples, Commissioner Walsh of the Bureau of Weights and Measures announced yesterday that on and after August 1 he would strictly enforce the ordinance in regard to such measures. This ordinance provides that a barrel of quinces, potatoes or pears shall represent a quantity equal to one hundred quarts of grain, or dry measure, and that a barrel of apples shall be of the following dimensions: Head diameter, 17 1/2 inches; length of stave, 28 1/2 inches; circumference of bulge, not less than 21 inches, outside measurement.

Not only is it against the law to use "short" barrels, but the law forbids the buying or selling of them in the city. Commissioner Walsh recently has made several raids on the farmers bringing produce into the markets from New Jersey and Long Island in short barrels and barrels.

CRIME INVESTIGATOR FREE

Appellate Division Reverses Conviction of Edgar A. Whitney.

The Appellate Division of the Supreme Court reversed yesterday the conviction of Edgar A. Whitney, former agent for the Parkhurst Society for the Prevention of Crime, who was sentenced to three months in prison for conspiracy in 1908 to spend not less than three years and six months in Sing Sing for grand larceny in the second degree. The court ordered the indictment against him dismissed.

Whitney was indicted for obtaining curtains and bedding from Moskowitz Brothers on an alleged misrepresentation, but the court now holds that a purchase of property by means of false pretenses is not criminal where the pretence relates to the purchaser's ability to pay, unless it is made in writing and signed by the one to be charged. In this case it was found that no such representation had been made.
