

WAR SPIRIT FLAMES OUT

Heyburn and Williams Wrangle Over Bill for Monument.

NO RECIPROCITY DEBATE

Senate Takes Early Adjournment Because No One Is Ready to Speak on Agreement.

Washington, July 18.—After an outburst of warlike debate over a bill appropriating \$25,000 for the erection of a monument at Vicksburg to the memory of the sailors of the Confederate navy, the Senate today, in marked contrast with the prolonged tariff discussion of last week, adjourned after a brief session because there was nothing else to do.

The reciprocity bill, which is the unfinished business, was advanced from the committee of the whole to the Senate. Although there are half a dozen speeches on it in prospect no Senator was ready to take the floor to-day. Action on the measure could not be taken because of the unanimous agreement to vote on the tariff bill.

SMOOT'S NEW TARIFF BILL

Retains Higher Woollen Duties than La Follette Bill.

Washington, July 18.—Senator Smoot, of the Senate Committee on Finance, will introduce to-morrow his wool tariff revision bill. It will be presented as a substitute for the House measure, and will receive the support of the regular Republicans and of the administration.

THE DAVIN WASHINGTON

PLANS ARE "SLIPPING."—The plans of the insurgent-Democratic coalition to pass a bill revising the wool schedule, with a view to forcing the President to veto it, are slowly "slipping." It was remarked in this column, apropos of these plans, a day or two ago that "there is many a slip between the cup and the lip" and especially when there is an insurgent in the saucer.

It may be that the ally won't prove sufficiently serious to upset the contents of the cup, but there are a number of indications that it will. The insurgent plan, which contemplated a favorable vote by the Democrats on a motion to substitute the La Follette bill for the one passed by the House, has already gone glimmering. The Democrats in their anxiety to bring this session to a close, thought "it might be feasible." On a sober second thought, however, they realize that it is not, that they vote to substitute the insurgent bill before their own measure has been actually introduced and make them ridiculous.

Mr. Taft Will Decide in a Few Days After Reading All Papers in Case.

Washington, July 18.—Dr. Harvey W. Wiley, chief of the Bureau of Chemistry, will probably not be requested by President Taft to resign, but will be reprimanded, according to the consensus of opinion of those who talked with Mr. Taft to-day. The recommendation of Attorney General Wickersham that Dr. Wiley be permitted to resign was barely touched upon at the Cabinet meeting, but the above named impression was strengthened in the minds of callers at the White House.
