WAR ESTIMATES TO BE DELAYED

New Preparedness Policy Leads to Technical Violation of Law.

Washington, Oct. 12.—So sweeping is the change in the policy and organization of the United States army contemplated by Secretary Garrison that it will be a physical impossibility to complete the estimates for submission to the Treasury Department next Friday, as required by statute.

Secretary Garrison is not in Washington, but the War Department is working night and day under instructions which he left here two weeks ago.

"It will be a violation of the law," an official of the department admitted to-day, "but there is no help for it. We have had to make a thorough overhaul of the whole army system, and despite our best efforts the estimate cannot be completed before Secretary Garrison returns next Monday."

BANK CASHIER SENT TO PRISON

1915 GREATEST SUFFRAGE YEAR

National Association Says It Is Significant of Early Triumph.

HUNDREDS EXPECTED AT CONVENTION

Call Is Issued for Big Delegations to December Meeting in Washington.

Washington, Oct. 12.—The official call for the forty-seventh annual convention of the National American Woman Suffrage Association, issued to-day, lays emphasis on the progress of the cause, the great campaigns now drawing to a close and the victorious efforts being made or to be made.

"In the long years of work for equal suffrage no year has been so crowded with self-sacrificing labor for the cause as this, and no year so significant of the early ultimate triumph of woman suffrage," says the call.

"As we issue this call four great campaigns for equal suffrage are in progress in four Eastern States. Thousands of women are working indefatigably with voice and pen and tens of thousands are contributing in time and money to win political freedom for women in these States."

"We shall come together at this, our forty-seventh annual convention, larger in numbers, more united in spirit and effort and more assured of early success for nation-wide suffrage than ever before. We urge our affiliated member associations to send full delegations to the convention, that we may learn from each others' experiences, be inspired by the courage, sympathy and counsel of fellow workers and that our mutual plans and work may be guided by conclusions reached in full and free conference as to their wisdom and efficiency."

"The National American Woman Suffrage Association is a democratic body, governed by the vote of the representatives of all its affiliated associations. At its annual convention the work of the last year will be fully reported, the airplane to the world, is far behind the smallest of the European belligerents in this arm to-day. Conservative estimates of the amount Mr. Garrison will ask this year place it at \$3,000,000.

"The artillery for the mobile army is another known feature of the Secretary's programme. At present the largest field piece in use carries a 6-inch projectile, and most of the guns are smaller. The Bureau of Ordnance is perfecting plans for huge rifles and howitzers to be mounted on railway flat cars. Their principal use, according to strategists, will be to provide a secondary line of defence for the coast."

While Secretary Daniel's plans are much further advanced than those of the War Department and have been approved in the main by President Wilson, the Bureau of Ordnance is perfecting plans for huge rifles and howitzers to be mounted on railway flat cars. Their principal use, according to strategists, will be to provide a secondary line of defence for the coast."

PAY ENVELOPE MAGIC BARED Giving Wife Wages and Borrowing Them Away Stopped by Judge.

Passaic, N. J., Oct. 12.—A plan to turn over to "friend wife" an unopened salary envelope on Saturday at noon and in possession of the contents by 3 o'clock the same night was explained to City Court Judge T. P. Costello this morning by Michael Lesko, of 80 Third Street.

Lesko was arraigned on complaint of non-support made by his wife. She admitted her husband always took over his envelope on Saturday, but admitted that he invariably got away with money later.

"How is that?" the judge asked Lesko.

"Why," he answered, "I give her the envelope when I get home from work. That makes her happy. Then, while she is happy, I begin to borrow. Pretty soon I have it all back."

Mrs. Lesko explained that when she refused the "loans" her husband would beat her.

Judge Costello put Lesko under bond to pay his wife \$5.00 a week.

CANAL SLIDE BLOCKS ORE Upsets Schwartz's Plans for Obtaining Chilian Product.

Bethlehem, Penn., Oct. 12.—The closing of the Panama Canal for an indefinite time is likely to cause considerable delay in the plans of Charles M. Schwab for obtaining Chilian ore for the blast furnaces at Bethlehem.

Before the slide the Bethlehem-Chilian ore had landed two cargoes of Chilian ore at new docks which the Lehigh Valley Railroad is constructing for the handling of this business at Bayonne. These docks, now 300 feet long, are about half finished.

While the Chilian deposit is said to be the richest known, it is stated that it will not pay to ship the ore around Cape Horn, and that transportation of this ore must cease until the canal has been reopened.

It is understood that mining will not be interrupted, the plan being to store the ore until it can be sent through the canal.

OKUMA CALLS PEACE FANTASY

Tells San Francisco Congress That It Will Never Come.

ANOTHER DENOUNCES JAPAN'S AMBITION

Calls Her Disturber of Orient—Women Plead for Cessation of Preparedness in U. S.

San Francisco, Oct. 12.—Count Okuma, Japanese Premier, and Dr. Ne Peen Chew, a Chinese editor of San Francisco, told delegates to the International Peace Congress here to-day that world peace was a fantasy, and would be until the militaristic order of things was changed. In a message to the Congress Count Okuma said there was no hope for peace as long as there exist nations or individuals who exert themselves an absolute superiority to others and who, to assert that superiority, do not hesitate to appeal to material forces.

On the floor of the Congress to-night Dr. Ne Peen Chew added to Count Okuma's statement, "There will be war and more war just so long as there are two codes of laws and two standards of morality, one governing nations, the other individuals," he said.

War, the doctor said, was going to keep rising in one place or another. He blamed Western militarism, which, he said, had not only parcelled China, but had destroyed her ideals of peace, and called Japan the disturber of the peace of the Orient.

China Preparing for War. "If the United States were as unprepared, it would fare no better than China at the hands of the world powers," he said. "China has learned her bitter lesson, and now is proceeding to abandon its obsolete justice and is taking up the practice of brute force."

"Japan is the disturber of the peace in the Orient. She is essentially a military nation, and she has in herself the perfect machinery of the militarism of Germany and the navyism of England. Her ambition is boundless. Selfishness, jingoism, yellow journalism and politicians are partly responsible for this. The United States, as stated between the United States and Japan. Mr. Kiyo Sue Inui, a lecturer of the Japan Society of America, told the congress delegates.

Women Urge World Peace. Women had complete charge of the afternoon meeting of the Peace Congress. With Mrs. John F. Merrill presiding, the programme included addresses by Mrs. Lucia Ames Mead, of Boston; Miss Eva Marshall, of Chicago, the organizer of the Women's Peace Party, and Mrs. Robert J. Burdette, widow of the noted American humorist and author.

America faces to-day a decision as to whether she will settle the question, whether the safest nation in the world will set the example for South America and Asia of sole reliance on preparedness for war, or whether it will inaugurate a new policy, assume world leadership and save the Orient, the Latin republics and exhausted Europe from a policy that will lead to world war.

"All patriots urge world preparedness, but real preparedness for real foes. What the military expert demands, if granted, will tip the scales of civilization downward, and mean the end of America's moral leadership."

Miss Shontz Speaks. Miss Shontz, Vice-Presidential candidate of the Prohibition party, delivered an address on "The Call of Old Glory for Heroism." She said:

"All the world waits to see whether our nation deserves the tribute paid to her by President Wilson—'America is proud to fight.' For forty years Europe has been preparing for war, and war she has. Still there are those who insist that the one safety of America lies in following her example. I would like to see the world prepared to leave for a heritage for future years but a veritable cataclysm of death and destruction to the world?"

A world religion, including the truth of all religions and excluding all patriotic, national and racial bias, was declared to be a prime requisite for world peace by Mirza Ali Kuli Khan, charge d'affaires of the Persian Legation at Washington, in an address before the Peace Congress. He said:

"As our aim to-day is the creation of a world civilization, based on a world unity, we must enlarge our conceptions of religion to reach the dimensions of a world religion—the religion of humanity. Such religion should include the truth of all religions, and exclude all patriotic, national and racial bias.

America is certainly the field in which the seeds of the world religion are given an opportunity to germinate and which will extend to the people of all climes the bounties of the religion of humanity. May we not, therefore, look upon America as the nation which is specially chosen by the Almighty to be in the main's progress upward and to bless humanity with the fruits of universal peace?"
