CHARLES L. TROUT COMPANY
170 BROADWAY NEW YORK CORNER MAIDEN LANE

Why I Design Furs

RED FOX
(Style is Illustrated)
The delicate, soft effect and the wonderful depth and richness of color make the Red Fox one of the most strikingly beautiful of all furs. Both muff and scarf are the full natural animal shape, trimmed with head, paws and tails. Red Fox Muff, \$50.00; Red Fox Scarf, \$50.00; Red Fox Hat, \$50.00.

THE idea of designing furs was suggested to me by one of New York's most exquisitely dressed women who was already coming to me for gowns and hats. Associated with the old established John Ruszits Fur Company, whose fur workers since 1851 have had a reputation for splendid quality and honest workmanship, I am doing some remarkably interesting things—showing what ideas can accomplish—even in the moderate priced sets as low as \$30 and \$40.

"Be Kind to the Tiny Foot"

COMFORT—QUALITY—SERVICE—three vitally important points to consider when buying your children's shoes. Our children's models are built to fit properly yet give room for the growth of the five tiny toes and are comfortable. They are none the less good looking for being foot-fitting and very serviceable.

Prices, \$2.50 to \$5.00.

FOR THE OLD FOLKS

Illustration of an elderly couple sitting at a table with a Thermos.

THE problem of the handsomest and most useful Christmas gift is most happily solved by Thermos

Every member of the family, every one on the list of friendship, from infancy to old age—either in the hours spent at or away from home—have innumerable daily uses for Thermos. Thermos brings to them in the hot Summer months all of the comforts produced by ice, and in the cold winter season all of the joys to be obtained by fire—for

FOR THE AUTOMOBILE
FOR THE OFFICE
FOR THE CHILDREN

THERMOS

Serves them right—Food or drink—Hot or cold—when, where and as they like

Thermos is the ideal portable fireless stove, performing the service of keeping its contents piping hot for twenty-four hours, and the most efficient portable iceless refrigerator, keeping its contents frigid for three days and nights. The same Thermos receptacle keeps hot without fire, or cold without ice. To keep cold, use the contents over in Thermos cold, and to keep hot contents should be placed in Thermos at a high temperature.

Archdeacon Stuck, in the use of Thermos for hot coffee on the Arctic Train, the atmosphere registering sixty degrees below zero, says that he never can get over the wonder of it, and that a Thermos Bottle would have made the fortune of a wizard in olden times, and probably have brought him to the stake.

Richard Harding Davis proved that Thermos produced the exact opposite results expected by the Archdeacon by taking to the African Congo at the equator a Thermos Bottle filled with broken ice. The first introduction of ice into that hottest part of the world.

The late Albert Hubbard, in an appreciation of Thermos wrote: "This Seventh Modern Wonder of the World should be known and utilized by every family, rich or poor, the round world over; it means happiness and length of days."

We supply Thermos to the Allies from our American plant, and to the Teutons from Berlin, for use in the hospitals and trenches—as a life-saving device.

In buying Thermos for "him" or "her" for your Christmas gift, you are selecting the invention honored with the Grand Prix by the Panama-Pacific Exposition, and by the Exposition at Berlin, Paris, Antwerp, Madrid, Berlin, Vienna and London.

The high honors mentioned accruing to Thermos are because it is the original temperature retaining vessel and as achieved the distinction of being a boon to humanity—originally designed, Thermos vessels are now sold by all leading dealers throughout the world at from \$1.00 up. Send for catalogue.
