PARTY MAY EXPEL SOCIALIST MAYOR

Leaders Resent Schenectady Head's Refusal To Be Run by Organization.

JOB DISTRIBUTION PROVOKES ULTIMATUM

State Committee Stands on Right of Machine to Control All Acts of Men It Elects.

The New York State Committee of the Socialist party is ready to expel Mayor Lunn of Schenectady for refusing to let it and the Schenectady local organization of the party dictate to him in matters of appointments and other duties...

The statement is notable in its frankness in declaring that an elected official cannot act and speak for himself, if a Socialist, unless he wants to incur the party's displeasure and run the risk of being expelled.

Major Lunn's attitude has been that the Socialists wanted him to sacrifice efficiency to socialism in his appointments. He also thought the state party had usurped its functions in "sitting in judgment upon the Mayor."

Insist on Party Control. "This is not a question of jobs, so far as the committee is concerned. We are not that a vital organization principle is involved in the committee work...

FORGOTTEN CORNER FOUND

Century-Old Stone in Park Reveals Seventh Avenue and 77th Street. Father Knickerbocker's plan of a century ago to have the New Yorkers of to-day eating, working and sleeping in the middle of Central Park has been dug up at what was intended to be the corner of Seventh Avenue and Seventy-seventh Street.

In one of his rambles in the park Alexander Wollagen, assistant librarian of the New York Historical Society, has found a granite block four and one-half feet long on which are cut the figures "77" and "77." It was placed there before the War of 1812 by Commissioners Gouverneur Morris, Simon De Witt and John Rutherford, who were appointed in 1807 to make a survey of Manhattan Island.

The stone was found near the big bowlder in the center of the park, at the point where the two streets would have met if they had been permitted to go their way. It is similar to one in the Historical Museum which was intended to mark Fourth Avenue and Twenty-sixth Street.

SUNDAY BURGLARS BUSY IN BROOKLYN

Raid Three Homes and Escape with \$3,500 in Jewelry and Cash.

Detectives from the 6th Branch are looking for a gang of burglars who entered three houses in Brooklyn early yesterday and got away with loot estimated worth \$3,500.

They first visited the home of David H. G. Penny, a lawyer, of 174 Ruyd Road, Flatbush, who had gone with his family to spend the week end in Lakewood, N. J. Here they took valuables estimated at \$2,000.

Colonel James D. Bell, Corporation Counsel for Brooklyn, and Colonel Alexander S. Bacon live on the same block.

When Alexander Benjamin returned home from a theatre party he found that his house, at 1655 Forty-eighth Street, Borough Park, had been entered. A window on the ground floor and another window in the library on the second floor had been jimmied. A gold watch, studded with diamonds, worth \$500, and an equal amount in other jewelry were missing.

Under the dining room table, however, wrapped up in a blanket, Mr. Benjamin found a large quantity of cut glass and silverware. He thinks that the burglars were scared away before they had completed their work.

The third victim was Daniel R. Singleton, a dentist, who had \$500 in jewelry and cash stolen from his home, 1369 Seventy-fifth Street, South Brooklyn.

BOY BOMB SETTERS OUST DRIVE RESIDENTS

Smoke Surges from Mysterious Toy They Test with Match.

A smoke bomb that found its way into the Riverside Mansion apartments, Riverside Drive and 113th Street, last week in the guise of a toy, furnished smoke and excitement for the entire neighborhood yesterday afternoon.

Francis and William Campbell, sons of Harry E. Campbell, occupant of an apartment on the ninth floor, were playing with the mysterious object they had found in the woods near Jersey City when one of them conceived the idea of setting a match to it.

The result was a burst of dense black smoke that filled the apartment and floated out into the hallway.

Somebody turned in an alarm of fire. Within a few minutes several fraternal houses in the district had emptied of their members to earn their money as volunteer firemen. By the time the firemen, professional and amateur, were ready to get into action the smoke had disappeared.

"I believe," said Major Moton in his address, "that the work of Booker Washington is finished as much as the work of Moses is finished, and it is for me to carry on the work of the memory of this man, who gave his life to his race."

One of the first duties, he said, was to put negro folk songs properly before America by extending musical settlements.

Bishops Lambuth, O'Connell, Hulse and Shepard will sail to-day, and on Wednesday about a dozen American clergymen will leave. Promoters of the congress said there were many Protestant missionaries in South America who felt that the only way to extend Protestantism in Latin America is to denounce the Roman Catholic form of Christianity now there.

HARRIMAN NATIONAL BANK FIFTH AVENUE AND 44TH ST., NEW YORK. PATRIOTISM VERSUS POLITICS. Irrespective of the policies and politics of any party, the opportunity is present for the enactment of a real protective tariff based upon intelligent knowledge of the country's needs and with its best interests at heart. The signs of the times point to a tariff commission, composed of our great railroads, insurance companies, manufacturing industries, banks, department stores—in brief, organized efficiency.—HARRIMAN NATIONAL BANK, Saturday, January 22, 1916. Since the publication of this expression of its attitude, and the Harriman National Bank believes it spoke for the more substantial and conservative business men of this country, President Wilson has set in motion machinery for the creation of an independent Tariff Commission. Here is further promise that at no distant date the United States shall be governed by patriotism instead of by politics. Perhaps the first great step toward this consummation was the creation of the Federal Reserve Banking System; a Tariff Board will be the second, and in these two strides we shall have moved far forward toward becoming a great nation, not merely in area of territory and number of population, but in character. This is the preparedness advocated by the Harriman National Bank. In this day men are no longer willing to follow like sheep. It is the day of independence of thought and action based upon reason and judgment. BANKING HOURS FROM 9 A. M. TO 5 P. M. SAFE DEPOSIT VAULTS 9 A. M. TO MIDNIGHT.
