

"Give me a nip of White Rock" Unsurpassed Mineral Water

as the increasing danger of clashes with the Mexican population as the scattered chase moved southward, which led General Funston to suggest redistribution of the troops.

MEXICANS RAID ARIZONA CAMP

Continued from page 1

Roads Problem May Recur. Further withdrawal northward also was necessary, it was said, also being Pershing's advance bases closer to the railroads.

border and in Mexico have assumed an attitude of ill-concealed resentment against Americans. Conservative men, who still hope for peace, think it extremely doubtful that the Mexicans will refrain from hours from an outbreak. Conviction has become rooted among Mexicans that the only way to get American troops out of Mexico is to drive them out.

There has been nothing more than suspicion, it is stated, on which to base fears that Carranza garrisons may turn on General Pershing's forces. As a matter of military precaution General Funston and General Pershing have shaped all their plans to guard against any such eventuality, but officials here do not believe that it is a probability.

Secretary Amador explained that the questions involved in a protocol governing the mutual agreement for the crossing of troops into one and the other countries must be the basis of these negotiations, although withdrawal of the Mexican troops, stipulated in Carranza's note of April 12, must also be considered.

TORREON CONDEMNS RAID

Holds United States Should Not Condemn Mexican People. Torreon, Mexico, May 12 (via El Paso Junction, May 12)—Public opinion in Torreon, following receipt of news of the Glenn Springs raid, to-day is that Mexico as a nation should not be held responsible for the action of bandits.

General Obregon's army in Sonora will remain there for the present, according to Mr. Amador, although he said a request probably would be made later for the passage of a portion of the troops from Sonora eastward, either through American territory or through the American line of communications.

RYDER REPLIES TO CRITICS

Says Lack of Support Made Cripples' Welfare League Insolvent. George Washington Ryder, secretary, treasurer and general manager of the Cripples' Welfare League, replied yesterday to allegations made by Charles Noel Douglas and Julius F. Witmark, former president and secretary, respectively, of the league, in a demand that he be compelled to account for the property of the organization.

Before leaving to-night for his headquarters at Fort Sam Houston, San Antonio, General Pershing, eastward, to Fort Bliss Hospital and personally commended the four wounded soldiers brought there from Glenn Springs for their resistance to Mexican raiders.

WIRELESS ON HEADQUARTERS

Installation Begun as Part of Woods' Preparedness Campaign. The installation of a wireless apparatus on the cupola of Police Headquarters was begun yesterday, as an important part of Commissioner Woods' preparedness plan for the protection of the city in time of war.

One of the Mexicans believed to have been in the killing last night, when Curtis Bayles was shot, was inquired of a neighbor last night whether Curtis Bayles was at home, saying he was going to assist in irrigation work at the Bayles farm. A short time after that Bayles was assassinated. His assailants escaped by running to Llano Grande Lake, where they forced a Mexican to row them across, later making their way to the international boundary, where they entered Mexico. United States soldiers followed their trail to the point where they crossed the border.

TEXAS IS FORMING NEW STATE GUARD

Force to Replace the One Called by Wilson to Number 7,180.

MILITIA MOBILIZING FOR SERVICE RAPIDLY. Two Artillery Companies Ordered to Plattsburg for "Special Duty."

(By Telegram to the Tribune.) Austin, Tex., May 12.—Adjutant General Hutchings expects to have another fully equipped organization of state militia ready for service within the next few weeks to replace the national guard that has been mobilized at Fort Sam Houston for border service. He said to-day that the new state militia would have a war strength of about 7,000 men and 180 officers. Many applications have already been received from men who want to form companies for the new organization.

SCHLATTER, D.D., HELD AFTER HEALING WOMAN

"Miracle Man" Says His Treatment Never Fails.

Spectators in the men's night court sat up with a start last night when the case of the "miracle man" was called. He wore a tall silk hat and a purple robe of silk. His long white beard flowed down to his knees, while an abundance of black hair fell over his shoulders. Francis Schlatter, D. D., president of the Baptist Church and king of "all healers," read a card before Magistrate Nolan.

BERLIN WILL NOT REPLY TO WILSON

To Make Known in Conference with Gerard Attitude Toward Latest Note.

Copenhagen, May 12.—According to the Berlin "Tageblatt," Germany will not send a reply to the last American note, but the German government will confer with Ambassador Gerard in regard to it.

FUSE ORDER NETS MILLION 'VELVET'

B. F. Yoakum Says This Sum Went to Three Concerned in Contract.

Ottawa, Ontario, May 12.—Benjamin Franklin Yoakum, of New York, railroad official and financier, testified yesterday before a committee of the Senate which is investigating charges of favoritism in the awarding of contracts for fuses. He was a partner in the American Ammunition Company, which obtained an order from the Canadian shell committee.

TEXAS A VICTIM OF DEFENCE LACK

Continued from page 1

the army, could he afford it, his automobile to send dispatches to our benefit and just government. I wish they could travel through this Brewster County. That part south of the Southern Pacific Railroad, still larger than Rhode Island, contains now not one child or woman.

EARTHQUAKE ALARMS TOWNS IN IDAHO

Shock Wrecks Chimneys in Boise and People Flee to Streets.

Boise, Idaho, May 12.—This city experienced an earthquake shock at 7:26 to-night which lasted about three seconds. Many persons rushed into the streets. Several brick chimneys were wrecked.

IN CELL PLANS BURIAL OF HUSBAND SHE SHOT

Bridgeport Woman Says Love Led Her to Kill.

(By Telegram to the Tribune.) Bridgeport, Conn., May 12.—Mrs. Mary Papp, the Canadian woman who yesterday in the Bridgeport Metal Goods factory shot her husband, Nicholas, to death and tried to kill herself, killed Nick because I loved him. If I had thought that I could not kill myself I would not have killed him.

SEES MILLION MORE ALIENS AFTER WAR

Commissioner Says U. S. Should Prepare to Receive Them.

Indianapolis, May 12.—The tide of immigration will flow so strongly after the conclusion of the European war that 1,000,000 foreigners will pour into America in the first twelve months of peace, according to a statement made at the general session of the National Conference of Charities and Corrections here to-night by Anthony Caminetti, Commissioner General of Immigration.

WILL FIGHT MOVE TO SHUNT CUMMINGS FROM LYNCH AS CHAIRMAN

Democratic politicians held yesterday that friends of William F. McCombs, chairman of the Democratic National Committee, were putting up a fight to prevent the selection of Fred B. Lynch, of Minnesota, as his successor, when the new committee meets at St. Louis.

Mr. Cummings is one of the oldest members of the committee, and although he insists he is not a candidate, many of his friends on the committee see the chairmanship should go to St. Louis. It is said ten National Committees who have been in Washington recently have called at the White House to express their opposition to Mr. Lynch.

TO-DAY'S PARADE

A Magnificent Sight, for a Good Purpose—From Which a Lesson May Be Learned

New York is to see to-day one of the largest parades in history. Thousands upon thousands of men, women and children will march from early morning until late at night—all massed for a common purpose.

They will stir up New York as it has seldom been stirred and they will do more,—for the "noise" of it will echo in Washington—in every city in the country, from coast to coast.

The force of their example will have its effect. These thousands who will come out openly for preparedness will influence thousands more who have been doubting—and so this great movement will grow.

And in it a striking lesson may be learned. For you who believe in preparedness and realize the necessity of a great army and navy to protect us from the foe that is without should realize, too, the need of protection from the foe that is within.

This foe is immorality, crime, vice and lack of a clean, straightforward, godly life. It is always with us—always ready to break forth.

And there is a great army that is your protection against this foe—the army of Church-goers—the Church itself.

It, too, should have your enthusiastic support. In war or in peace you—we, as a people—need the Church and its power for good, its wonderful influence as thoroughly as we need protection from invaders.

The army of the Church may be swelled by the same method thousands of people are using to-day to swell the other army—by the power of example.

If the effect of thousands upon thousands of citizens earnestly marching for a purpose will echo through this country—will bring many to the ranks of military preparedness—so will your example and the example of others in earnestly and believingly going to Church bring thousands into its fold and swell the great rank of Church-goers throughout the entire nation.

But you must first realize and appreciate the importance of protection against the foe within—then—make up your mind and act—

Join in the cause against the foe within—

Start now and

Go to Church To-morrow

OSCAR WILL SEE HIS GRANDSON ONCE A WEEK

Tschirky Domestic Difficulties Arranged to Permit Visit.

Oscar Tschirky, manager of the Waldorf-Astoria, will see his grandson, Leopold, aged fifteen months, to-morrow for the first time since July.

The child's father and mother are in the throes of a divorce suit. As a result of the legal steps already passed, Leopold Tschirky was to see his small son once a week. The child was to stay with his mother, formerly Miss Florence Gerken.

But little Leopold's father contended that he was often unable to see the boy when he went to the Gerken home. The father then obtained a writ of habeas corpus compelling Mrs. Florence Tschirky to produce the child in court, and as a result of the hearing before Justice Stephen Callaghan, of the Supreme Court, in Kings County, it was decided that Leopold should be given into the custody of his mother until he was four years old. Further, the father was to see the child whenever it became ill, and he was to contribute to his support.

Best of all, so thinks Grandfather Oscar, who has, incidentally, been much distressed over the divorce, the child is to be brought each Sunday afternoon to Oscar's home, 118 Lexington Avenue, that the father may see it there.

30 NAVY YARD MEN LOSE JOBS

The official axe will be wielded this afternoon at the navy yard and about thirty boiler-makers and their helpers will lose their jobs for an indefinite period. Lack of work is the reason given by navy yard officials. The completed work on the boilers of the hospital ship Solace and private construction of the boilers for the New Mexico and the Tennessee make the discharges necessary, the officers declared last night. The orders were posted yesterday, causing much surprise, as two weeks ago the officials announced there would be no decrease.

SACRED CHINESE COINS STRAY INTO 'PHONE BOX

New Use Accounts for Throgs at Mott St. Joss House.

Any suspicion that a revival of activity at the Chinese Joss house, at 20 Mott Street, indicated interest in religion and affairs Chinese was dispelled yesterday when a detective from Inspector Dwyer's office completed a brief investigation. He had noted the numerous visitors at the house, their interest in the religious customs, and finally that each visitor received a Chinese penny before leaving.

Perfectly innocent, the detective had decided. Then he discovered that Chinese pennies, identical in size with the American five-cent piece, were finding their way into telephone coin boxes. The detective decided that the Chinese and their American visitors were making greater use of the telephone since the discovery that the joss house penny would serve the purpose of a nickel.

LIBERTY NATIONAL BANK in the Equitable Building 120 Broadway, at Cedar St. How can you account for the remarkable growth of The Liberty Bank in 25 years to \$60,000,000 deposits? This growth is remarkable, because no other national bank in the United States ever grew, without consolidations, to this size in a period of 25 years from its organization. There must be good reasons for such a growth. The good service we render undoubtedly accounts in part for this rapid upbuilding and we could not have attained our present position without it. But there are other circumstances and conditions, peculiar to THE LIBERTY, which have from the start tended to draw business to us and which must be considered in accounting for our growth. A little booklet relating the history of the bank will prove interesting to you; ask for a copy.
