

Defence Made by Baker Before Senate Committee

Continued from preceding page. this side much of that has had to be done, and, in addition to it, all the things we have done; and I ask you to remember among the achievements on this side is the building of this army, not of 10,000 or 100,000 or 500,000, but of substantially a million and one-half men.

Moral Welfare of Men Is Protected

"We have got those young men in camp, and they are surrounded from the day they left home until the day they come back to it—in God's providence they can come back—with more agencies for their protection and comfort and health and happiness, physical, spiritual and mental, than any army that ever went out on a field."

Gerard Wants All Chauffeurs Put At Shipbuilding

"And then, with your aid, the army has been able to practically stamp out extravagance and vice among the soldiers by the establishment of zones, by the establishment of patrol systems of one kind and another, by the training of these young officers in these 'raining camps,' young men of experience and fine feeling and all that. We have gotten into this great army the idea that it can be a strong and effective military army and still be free from things which have hitherto weakened and sapped the vitality and virility of armies."

Declares Discipline Is Nearly Perfect

"Old men in the army, men whose lives have been spent in it, from their boyhood, and who have been all over the continental United States and through its insular possessions, who know our armies and who know the life of the soldier and the camp and the post, all say with one accord, and no exception, that they have never seen anything like this; that the disciplinary problem of the army is reduced to a negligible quantity, and instead of the melancholy and pathetic parade through the Secretary of War's office of court martial after court martial, of men who have fallen down and yielded to temptation under these unusual circumstances, which used to obtain, I have an infrequent case now of court martial, by reason of such weakness."

Even Berlin Knew U.S. Was Rushing Plans

"He was then in a confidential position to have a copy of an English instruction issued by the British government in June, 1917, to the German press as to what course they should take in dealing with American matters, and they say: 'While the news about American war preparations, such as the organizing and outfitting of an army of one million men strong to reinforce the French-English front is looked upon in that form as bluff, the spreading of which may unfavorably affect the opinion of the German people, yet the fact must not be overlooked on the other hand that the United States, with the support of its capacity for material and industrial management, is arming itself for war with great energy and your committee will have full opportunity, and will doubtless go into those things, if you will deal with the hospital situation, the medical corps, the signal corps, you will hear the wonderful work done by the engineering department of the army; but when it is all told, Mr. Chairman, it will be a story which I am sure your committee will be glad to report to the Senate of the United States as being a tremendous response to a tremendous responsibility, and when you have made this investigation I know that the American people will feel, as I think they have a right to feel, that we are in this war to win it; that we are in it to hit and to hit hard; that we are in it to coordinate our strength with that of our associates; that the problem is not one of individual star playing, but of team play, with these veterans and advanced persons under actual battle conditions; that more has been done, perhaps, than the country expected, more than the wisest in the country thought was possible to do.'"

McAdoo Plans War Finance Corporation

WASHINGTON, Jan. 23.—Creation of a half billion dollar government corporation to make loans and advances to enterprises essential to the war and otherwise assist in private financing was recommended to Congress today by Secretary McAdoo.

Author of German Books Sought Here

Federal Secret Service agents yesterday were hunting the author of the German propaganda books circulated recently among the boys of New York and other parts of the country under the guise of "Boy Scout books." The government men also were trying to ascertain who was responsible for the circulation of these books since the United States declared war on Germany.

Long Branch Mayor Deposed By Board of Commissioners

LONG BRANCH, N. J., Jan. 23.—A precedent for commission government was established today when the Board of Commissioners at the reorganization deposed Mayor Marshall Woolley, Democrat, elected John W. Flock, a Republican, as the town's chief executive, and passed a resolution stating that it was necessary for efficient civic government that the ruling body be reorganized.

The Weather Report

WASHINGTON, Jan. 23.—The Southwest disturbance of Sunday night extends in a narrow trough from the coast of the Gulf of Mexico to the Atlantic coast, and there is also a moderate secondary disturbance off the Virginia coast. The weather is generally fair, with light to moderate winds from the west and southwest. The temperature is in the 40's and 50's.

Kaiser Declares God Is Winning for Germany

LONDON, Jan. 23.—Emperor William, in a telegram to the court preacher, thanking him for his birthday wishes, is quoted in a dispatch from Amsterdam to the Central News as saying: "With deep thankfulness I commemorate on this day the great deeds of God for the German people. He gave historical successes to our colors. He removed many sorrows and kept us strong in the Fatherland notwithstanding distress and privation."

Railroad Tie-up Causes Shortage Of Meat in East

WASHINGTON, Jan. 23.—The fact that the East faces a temporary meat shortage because of transportation difficulties was disclosed by the food administration to-night in instructions sent to packers not to increase their prices above a normal margin of cost and to distribute their available supplies fairly among their customers. Wholesalers and retailers received virtually the same instructions.
