not, since you conferred with his assistants," Senator Gronna suggested.

Tells of Deposit Offer

Mr. Ramsey took the stand to refute the story of Mr. Hogan and John Poole, of the Federal National Bank. He said they were offered a deposit of \$500,000 of Emergency Fleet Corporation funds, if the Federal would deposit \$10,000 of its funds in the Chatham and Phoenix National Bank of New York.

Mr. Poole had told the committee that the offer had come from Ramsey himself, and that when he informed Controller Williams of the offer a large amount of Emergency Fleet Corporation funds was immediately forthcoming and he was told to forget the circumstances.

Mr. Ramsey told the committee it had been his custom to visit the Federal National Bank frequently. He said that on the occasion spoken of by Mr. Poole he had been called into that gentleman's private office.

"While I was there the question of deposits came up," said Mr. Ramsey. "Mr. Poole knew I was interested in deposits. He asked me how he could get some of the Emergency Fleet Corporation funds for deposit in his bank. I said I supposed he could get them the same as any other bank."

"Why Don't You Try It?"

"He told me it was a matter of common knowledge that if deposits were made in the Chatham and Phoenix Bank of New York it was possible to get deposits of Emergency Fleet Corporation funds. I said, 'Why don't you try it?'"

"That is all. I never made any such proposal to him or promised that if he would deposit in the Phoenix Bank he would get Fleet Corporation funds. The committee expects to hear Controller Williams in his own defense on Monday and proceed shortly thereafter to a consideration of its report to the Senate on his nomination for a new term of five years.

Five Held in Car Shooting

Suspected of Part in Wounding Two Policemen

Five young men were held under \$5,000 bail each in the Harlem Court yesterday to answer charges in connection with the shooting of Patrolmen Timothy Ryan and Thomas P. Browne and two passengers on a Second Avenue car at Ninety-fourth Street June 13. They are George Heitman, nineteen, of 320 West Ninety-fourth Street; Stephen Lynch, seventeen, of 1827 Second Avenue; Joseph Reichel, twenty-four, of 1300 Avenue A; Thomas McKewen, nineteen, of 330 East Ninety-fourth Street; and Albert Knib, twenty-two, of 341 East Seventy-ninth Street.

The policemen were shot after they had arrested Michael Murphy, of 132 East Eighty-fourth Street, as a hold-up suspect. Michael Lawrence, a plumber, and Miss Elizabeth McNamara, of 1051 College Avenue, Third East, were struck in the leg and foot, respectively.

Wife Sues Company Friml

For Support Instalment

Rudolf Friml, musical comedy composer, was arrested yesterday at the Supreme Court by Mrs. Blanche Better Friml for \$1,250, the first of eight quarterly instalments due under an agreement to pay her \$25,000 in settlement of a suit against him for support and maintenance.

The couple had long been living apart and a divorce action was pending when she filed her suit. Mrs. Friml, it is alleged, agreed to pay \$15,000 at once and \$10,000 in instalments. The first of these was due July 1 and was not paid, Mrs. Friml alleges.

Partisanship Is Charged

The Democrats brought charges of partisanship against the Republicans for insisting on repealing daylight saving through the agricultural bill. They declared that if it were not the desire of the Republicans to embarrass the President they would leave the rider off this bill.

Then, they said, it would only require a moment for the Senate to pass the repeal section in part. The agricultural bill was reported on July 17. It was reported on July 17. It was reported on July 17.

Vote to Strike Out Rider

After an hour's debate on the bill, Representative Moore, of Pennsylvania, moved to amend by striking out the rider repealing daylight saving. On July 17, 1919, the House voted 143 to 125, on a roll call, to carry the rider to 123, three members of the Republican steering committee voting nay.

Daylight Rider Lost by Split of Republicans

Even Three Members of the Party Steering Committee Aid the Democrats in Carrying Out Wilson's Wish

Line-Up City vs. Country

House Members Declare That Mondell's Leadership Shows Weakness

Republicans Badly Split

The Republican ranks were so badly divided that when a roll call vote was taken on an amendment to strike out the sunshine clause three members of the Republican steering committee, which had planned the death of daylight saving, voted nay.

Evidence of a determined desire by the Republicans to send the bill back to the President with the daylight saving repeal section intact was shown when Representative Mondell, of Oregon, introduced a resolution to amend the bill.

Debate on the adoption of this resolution revealed the ranks of both Democrats and Republicans divided, the representatives of the farming districts opposing the city men.

Partisanship Is Charged

The Democrats brought charges of partisanship against the Republicans for insisting on repealing daylight saving through the agricultural bill.

Then, they said, it would only require a moment for the Senate to pass the repeal section in part.

Vote to Strike Out Rider

After an hour's debate on the bill, Representative Moore, of Pennsylvania, moved to amend by striking out the rider repealing daylight saving.

Wilson Orders Full Inquiry on Tampico Killing

Murder of Correll and the Attack on His Wife and Son by Mexicans Is Put Up to State Department

Fall Assails Border Policy Says One-tenth of Force Could Insure Safety if Given the Proper Orders

Senate Inquiry Is Asked On Coal Price Advances

Frelinghuysen Wants to Know if Profiteering or Economic Causes Are to Blame

WASHINGTON, July 18.—President Wilson late today notified Governor Robertson, of Oklahoma, that he had requested the State Department to do everything possible in connection with the killing of John W. Correll, an American citizen, and the attack on his wife and son by Mexicans in the Tampico oil district.

The President's message, sent in response to a telegram from the Oklahoma Governor asking that some action be taken in the Correll case, said: "Your telegram of July 12 has received my most serious consideration, and I beg to assure you that through the State Department I am seeking to do everything that is possible with regard to the tragic and terrible case of the treatment of Mr. Correll."

One-tenth the number of American troops now on the Mexican border could give ample protection to American lives and property against bandit incursions if they were given proper orders, Senator Fall, of New Mexico, asserted in the Senate today.

There are enough troops on the border to patrol every mile of the international line, he said, but their orders are so to conduct themselves as not to offend the United States into conflict with the Carranza government.

Overlooking Real Trouble

"The consequence is," said Senator Fall, "that these troops, ostensibly guarding us from raids from the other side, are turned toward the north in order to prevent incursions by American business men owning property in Mexico. They are attempting to prevent smuggling, as they call it, from this side to the other side, and they are overlooking the real trouble."

Senator Fall read appeals from Governors C. A. Lobarzo, of New Mexico, and W. P. Hobby, of Texas, urging Congressional action to prevent the move of the War Department toward discharging national army officers, which would result, they said, in the wiping out of the army air service, which has proved so valuable on the border.

Senator Fall said he had not protested to the War Department for the withdrawal of the troops. Senator Wadsworth, chairman of the Military Affairs Committee, bore him out in this assertion.

"Due to the policy of cutting down appropriations for the army," Senator Wadsworth said, "the War Department must discharge every emergency officer before September 30. The air service will be reduced to 232 commissioned officers. Some officers may be found in other branches of the service, but to all intents and purposes the United States will have no air service."

Cross Border Twelve Times

"At least twelve times during the last four, five or six months, without the aid of the War Department, I have crossed the border," said "Gipsy" Smith, secretary of the American Union in Paris.

Senate Refuses To Lift Teuton Trade Embargo

Declines to Remove All Restrictions by Amendment to \$613,000,000 Sundry Civil Bill, Which Is Passed

4 Republicans Bolt Ranks

Action Would Have Established Peace Basis Before Treaty Was Ratified

Washington, July 18.—An amendment to the sundry civil appropriation bill designed to end enforcement of the trading with the enemy act was rejected in the Senate today, 33 to 27.

It was offered by Senator Fall, Republican of New Mexico, who said there should be no restrictions on trading with Germany.

Senators Warren, Nelson, Kellogg and Smoot, Republicans, voted with the Democrats against adoption of the amendment and Senators Underwood, of Alabama, was the only Democrat voting for it.

There was disagreement over the exact meaning of the amendment which would make a provision that the status of peace between the former imperial German government and the United States of America being declared to exist, no part of the money should be used to enforce the trading act.

Later the Senate passed the bill, which carries increased appropriations for the rehabilitation and education of disabled soldiers and marines. Its total appropriation now is \$613,000,000. After being signed by the Vice-President and the Speaker of the House, the bill was taken late today to the President, who will sign it.

Senator Fall declared that while his amendment was only a limitation on an appropriation, it was a measure because it limited funds for training wounded service men.

Senator Fall declared that while his amendment was only a limitation on an appropriation, it was a measure because it limited funds for training wounded service men.

Senator Underwood, objecting to the peace declaration in the proposal, said it seemed to him "an effort by indirect means to get a status of peace without awaiting the usual course, ratification of the treaty."

Senator Smith, Democrat, of Georgia, made a point of order against the amendment and Senator Underwood's suggestion, Senator Fall struck out of the measure all reference to a status of peace, leaving merely the trading provision.

Try to Influence Congress Is Charge in Senate

WASHINGTON, July 18.—Government funds are being used by officials of the executive departments to influence Congress to pass a propaganda bill, it is charged in the Senate this afternoon, to insist on a propaganda to influence Congress to continue publishing the same, and to believe will be cut off as a measure of economy.

As chairman of the Joint Congressional Committee on Printing, Senator Smoot said he had been flooded with hundreds of telegrams and identical wording which he said were inspired by government officials. Democratic members joined the Utah Senator in his condemnation of the practice.

"The officials of the departments whenever they receive an impression that any of the publications issued by their departments are to be discontinued or think that the committees would incline to discontinue them, immediately begin a propaganda, sending out nearly every state legislator, Union, requesting that individuals interested immediately telegraph the chairman of the Joint Committee on Printing protesting against the discontinuance," Senator Smoot declared.

"I wonder who paid for these telegrams," Senator Smoot speculated. "I happen to be chairman of the joint committee, and as to the telegrams that I received—hundreds of them—protesting against the discontinuance of certain publications, the parties who sent them do not pay the charges, and I know that in the case of telegrams sent out of Washington the government of the United States will have to pay."

U. S. Will Facilitate Trade With Germany

WASHINGTON, July 18.—American vice consuls, now stationed in neutral countries, soon may be sent to Germany by the State Department to facilitate the resumption of trade relations with the German government. Acting Secretary of State Folk today said that the department is now considering the advisability of assigning consular officers to German cities.

When asked what provision had been made to protect American officials in Germany, Mr. Folk said it could probably be arranged to procure for them police permits which would authorize their working to reestablish trade relations between the two nations.

The view is entertained here that no obstacles will be placed in the way of American officials seeking to resume commercial relations with Germany. It was pointed out that dependence is placed almost entirely on the United States for certain raw materials, and that the presence of American trade advisers and consuls would be welcomed within Germany.
