Do You Want to Establish Your Business Permanently Among the Financial Giants of the World?

The giants of commerce have outgrown their clothes! The buildings of lower Manhattan no longer suffice to cover the fast expanding frames of big business.

But it is imperative to the proper conduct of your growing interests that you remain here in the lower section of the city near the Custom House, the Banks, Exchanges, Insurance and Shipping Interests and the great markets of the world! Still, your very growth forces you out of your present quarters and there are no others to be leased.

The solution --- own your own building! Opportunity is at your door---a few far-sighted firms have yet the chance to follow the example of many shrewd houses, and settle their space problems for all time, and right here at the "business end" of Manhattan.

We are concentrating the efforts of our organization on The Heart of the World, Lower Manhattan. We can supply your needs.

Communicate with us at once either directly or through your own broker.
