

Francis Ouimet to Meet Greenwich Golfer To-day for North and South Championship

Boston Expert Faces Graham In Final Match

Former Title-Holder Puts Out Weber, and Rival Also Wins by 2 and 1

By Ray McCarthy
 PINEHURST, N. C., April 5.—Sam J. Graham, of Greenwich, Conn., and Francis Ouimet, of the Woodland Club, were the winners in the semi-final match of the North and South championship golf tournament here to-day. These two will meet tomorrow in the final round of 36 holes. Graham's victim to-day was young R. E. Bocken-camp, of the Midland Club of St. Louis; Harold Weber, of the Inverness Club, was Ouimet's. The score of each match was 2 and 1.

Graham and Ouimet were the favorites before play began to-day, and although they came through there was nothing certain about their victories until they had been clinched. In fact, the conditions in which the matches were played anything might have happened and everything was happening to all four contestants throughout the day.

Play began this morning cleared as suddenly as it came, and in its place arrived a cold raw wind, rather a nuisance, which dried out the course in places and left the greens as fast as lightning. Moreover, there was not the slightest abatement in the furious gale when it came time for the start of the matches.

No Chance for Records
 It was little wonder no records were broken, and nothing exceptional in the way of golf shots was made. Ouimet, who has the best score of the day, going around in 80, played into the wind and out of it, played against the breeze and the tactics lightened and pulled—all to little avail. "Graves that got great when they left the tee became marooned in traps, the woods and other places; Ouimet played a beautiful shot when it came to putting the fellow with the most luck proved the winner. On most of the greens the balls played tag before they decided to drop in.

Graham and Weber began their round by playing the first holes in par figures. On the third attempt Ouimet got on to the green in 2 and was down in 2, while Weber went over on his second shot and took a 5. The Toledo player evened matters on the next hole, getting a 4 to Ouimet's 5 when the latter misplayed a mashie shot from in back of a bunker.

Ouimet got the advantage back on the next green, when Weber topped his drive into a trap and took 3 more to get on, while Ouimet was moving safely along to bag a 3. Weber was the short sixth, squaring matters again. Weber drove into the woods on the seventh, and from there hammered his way into a trap in the middle of the fairway. His shot was well played and landed him in front of another trap just in front of the green. He took 5 more to get down, thereby losing the match as Ouimet played a beautiful shot and shot from the rough to the edge of the green and was out in 5. The eighth was halved.

Then came the short ninth, the toughest hole in the course. Ouimet led off with a drive into a trap. Weber dug too far under in his effort to play safe and the ball rolled off the tee and down the hill for a distance of thirty feet, yards. The loss of the match might be attributed to this shot, for on the next Weber went far over into the woods and took 5 to get down to the green.

Ouimet also won the tenth, and went to 4 up on the eleventh, when Weber, after driving into the woods, played out onto the fairway to get in position

Nations Limited To One Crew in Olympic Races

PHILADELPHIA, April 5.—Harry Penna Burke, a member of the rowing committee of the American Olympic Committee, to-day was informed by the Belgian authorities that one entry will be the limit for each country in the rowing races, which will be decided at Brussels next August. The United States and all other countries will therefore be restricted to a single entry in the singles, doubles, fours and eights.

Gustavus T. Kirby, president of the American Olympic Committee, stated last night that no official reply had been received from the Belgian Committee to the request of this country that each nation be allowed to enter two crews in the Antwerp regatta. Mr. Kirby was of the opinion that Mr. Burke had been misquoted; that he had the original provision in view in making his statement.

Four Choices Annex Purses On Heavy Track

Bull Proof Takes Feature in Gallop; Ettahe Winner by 15 Lengths

Special Correspondence to The Tribune
 BOWIE, Md., April 5.—The wintry weather which prevailed at the Bowie track to-day had no effect on the attendance. The crowd was above the average and, though forced to come wrapped in furs and overcoats, their enthusiasm was not dampened.

The jubilant purse, a \$1,500 event, over the seven furlongs route, resulted in a good contest with the favorite, Bull Proof, leading his field all the way to win in a gallop. Fort Bliss, which is supposed not to like the mud, was second, while Chief landed show money. The outcome was a foregone conclusion after the first furlong. Bull Proof went right into the van and always had an advantage of three or four lengths. He stepped the distance in the good time of 1:30.

The terrific rain of the last thirty-six hours made the track a sea of mud, with the result the fields were somewhat reduced, leaving only the superior mudders to compete for the purse. Four favorites came home in front.

The Western contingent cleaned up handsomely when Ettahe, belonging to W. H. Fisher, scored in a common gallop in the second event. He was a 17 to 10 favorite, and when it came to racing it was no contest in so far as the winner was concerned. Ettahe went up fast on the inside in the run down the backstretch and won eased up by fifteen lengths.

Ouimet had a close call in the third event, but was equal to the task and drew away at the end to win by a length. Belle Roberts was another odds-on choice to romp off with a purse when she proved an easy winner of the mile and twenty yards event, fifth on the card. She led all the way.

Bowie Racing Results

Weather Cloudy; Track Sloppy

22 FIRST RACE.—For three-year-olds and upward. Five and a half furlongs. Purse \$1,500. Winner, Bull Proof, 17 to 10. Also ran—Chief, Fort Bliss, Ettahe, and Trainer M. Jordan. Time, 1:30.

23 SECOND RACE.—Four-year-olds and upward. One mile. Purse \$1,000. Winner, Ettahe, 17 to 10. Also ran—Bull Proof, Fort Bliss, and Trainer M. Jordan. Time, 1:40.

24 THIRD RACE.—Four-year-olds and upward. One mile. Purse \$1,000. Winner, Ettahe, 17 to 10. Also ran—Bull Proof, Fort Bliss, and Trainer M. Jordan. Time, 1:40.

25 FOURTH RACE.—The Jubilant Purse. Three-year-olds and upward. Purse \$1,500. Winner, Belle Roberts, 5 to 1. Also ran—Chief, Fort Bliss, and Trainer M. Jordan. Time, 1:40.

26 FIFTH RACE.—Four-year-olds and upward. One mile and twenty yards. Purse \$1,000. Winner, Belle Roberts, 5 to 1. Also ran—Chief, Fort Bliss, and Trainer M. Jordan. Time, 1:40.

Urge Naming Hub Marathon Olympic Test

American Committee Favors Separate Race to Select Team for Antwerp Classic

By A. C. Cavagnaro
 Pressure is being brought to bear upon the American Olympic Committee to designate the Boston Athletic Association marathon race on April 10 as the official try-out for place on the United States team in this event at the Olympic Games this summer. However, the committee is reluctant to give its approval, as it is of the opinion that a separate contest should be staged to determine the entire entries for the Antwerp classic.

The reason advanced that the Hub event is being brought to bear upon the American Olympic Committee to designate the Boston Athletic Association marathon race on April 10 as the official try-out for place on the United States team in this event at the Olympic Games this summer. However, the committee is reluctant to give its approval, as it is of the opinion that a separate contest should be staged to determine the entire entries for the Antwerp classic.

Baker Requests Officers To Select Rifle Teams

WASHINGTON, April 5.—In preparation for the national rifle matches to be held in the fall at Camp Perry, Ohio, Secretary of War Baker to-day issued instructions to all commanding officers of infantry and cavalry regiments to select their participants.

Each unit will name two officers and twelve enlisted men to pursue a course of instruction. These men later will compete for places on the teams which will represent the Army at the matches. Orders likewise have been issued to navy and marine personnel to select teams for participation in the matches. National Guard marksmen and civilian teams are eligible to enter the Camp Perry tournament, and the War Department has ordered the Ordnance Bureau to issue ammunition to these organizations for training purposes.

Don't Smoke Paint

Our pipes are made of the finest imported material and are guaranteed to last for years.

Boxing and Wrestling In Hoboken To-night

These eight-round bouts, one of six rounds, and two wrestling matches will be contested to-night at the West Hoboken A. C. In the "Sixights" Frankie Kotter will meet Danny Begon, Mickey Nelson will face Danny Powers and Harry Nelson will oppose Young Waldron.

In the wrestling matches Young Mundy will meet Chinatown Kid and "Rough House" Meyers will tackle Herman Gerriek, a Belgian Army product.

St-Tiger New Manager

ST. LOUIS, April 5.—Ralph Works, baseball coach at Washington University here, to-day announced his resignation to manage the Madison (S. D.) team of the South Dakota League. Works formerly was a pitcher for the Detroit Athletics.

Ranking Tennis Players Resume Tussle for Supremacy Thursday

By Fred Hawthorne

The lawn tennis struggle among William T. Tilden 21, the new national indoor champion; Vincent Richards, the seventeen-year-old former holder of that title; S. Howard Vossell, another former indoor champion, and perhaps the Anderson brothers, so keenly waged last week in the 7th Regiment Armory, will be renewed this week at Pinehurst, N. C., where the annual North and South championship tournaments for men and women will begin Thursday.

In addition to those I have mentioned there will be other formidable contenders for the titles now held by Tilden and Miss Marion Zinderstein. Formerly B. Alexander, former internationalist; Benis C. Wright, former Davis Cup player and national champion; Harold A. Throcmorton, former national junior champion; Ichijima Kanagawa of Japan, Florida and Cuban title holder, and a representative list of ranking men will begin play on the clay courts.

Tilden showed by his playing in the recent tourney that he is right on edge for a most successful campaign. Certainly the former Philadelphia's warm-up record in 1919 and last year, when he finished in second place behind the "red" men, would be hard to improve upon. His only severe setbacks in those years came in the final round of the national turf court championships, when he lost to Lindley May and William M. Johnston, respectively.

In the coming outdoor season, with the lure of the national title and a new Davis Cup team of 1920 over before him, Tilden will undoubtedly put forth extra efforts to make a clear sweep of the courts.

The one fatal weakness in the champion's game heretofore—and it is one that has robbed him of the best honors in the game—is his inability to maintain his best form through a long match, or in a match against an opponent of the Murray and Johnston type. The two California stars, a long and slender man of the bulldog stripe, who met at full speed and never lessen the pace.

It is not improbable that Tilden will strike his full stride some day against these two men, or one of them.

2,500 Tires Must Be Sacrificed

Two million of the standard makes are being sacrificed, according to the Automobile Tire Manufacturers Association, because of the change in the tread pattern of the new tires.

Thirty-nine Motor Cars in one City block

Thirty-nine Motor Cars in one City block. Traffic delays on every MAIN street and high road are largely due to the wide difference in performance ability among the cars that crowd it

Who Makes the Best Time

AMERICA owned 6,300,000 passenger cars at the end of 1919. A quarter of a million in and around New York. Over a hundred thousand in Chicago. Philadelphia, Boston, St. Louis, San Francisco—every city has a like congestion.

With everybody depending on his car for business purposes, the faculty of ordinary cars for getting in one another's way becomes a serious matter—and the striking ability of the Packard to run around and through traffic is doubly worth thinking about.

THE Packard Company speaks with high authority when it says that performance of the Packard kind cannot be "assembled" into a car and cannot be "tuned" into it.

It is fundamental with the design and construction of the car.

The Packard Twin-six engine, with its steady flow of flexible power, throttled down to two miles an hour on high in the jam, and picking up to thirty miles or more in half a block.

The Packard brakes—designed by Packard, with large, long-wearing braking surfaces; equalized, with even, positive braking action on each wheel; easily applied, sure to hold.

The Packard dry disc clutch, positive and velvety in action—and the Packard forged, heat-treated gears, with their exceptional strength and long life.

The Packard steering gear and other parts controlling the car, quick and positive in action, easy to handle, tough and reliable.

YOU often hear people say that they "get there so much quicker" in a Packard.

The Packard driver watches the road rather than the operation of his car.

He has less gear-shifting to do, less strain on his attention—and he can use the flexible power of his Packard to advantage every yard of the way.
