

*It will not break*

**Noted sportsman gives 50 friends a new kind of Christmas gift**  
*The new vacuum bottle that will not break*

**A**FAMOUS American polo player bought a new vacuum bottle.

He dropped it accidentally on the hearth. Instinctively he feared that it was broken. But on picking it up he found both the bottle and its contents unharmed.

It was a new Stanley Vacuum Bottle. Made entirely of steel, it had no fragile glass to break. It cannot break.

This sportsman was so much delighted with this proof of the Stanley's durability, that he immediately bought fifty Stanley Bottles to give his friends for Christmas. He knew that the unbreakable bottle would be a surprise and pleasure to every one.

*Instantly recognized by the world's most exacting judges*

18 Stanley Bottles are now with Edmund Heller, on the Smithsonian Expedition through the heart of Africa.

Shamrock IV, in the races for America's Cup, was equipped with the Stanley.

It was carried by the famous NC-4 on its historic flight across the Atlantic and by all the other overseas airplanes.

The British Imperial Antarctic Expedi-

tion, spending five years on the southern ice-cap of the world, is supplied with 12 Stanleys.

They were used by the American athletes at the recent Olympic games.

Today, families in all parts of the country have followed the lead of these men who are the world's most exacting judges of equipment.

*An ideal gift for all-year service*

Put the Stanley Vacuum Bottle first on your shopping list—it's the gift that will be appreciated the year 'round. For automobiling—for the home—for the office—it keeps liquids piping hot or icy cold for hours at a time.

Naturally the Stanley is more expensive than the ordinary vacuum bottle, but there are no expenses for repairs or replacements. The first cost is the last cost.

Every Stanley Bottle is made entirely of steel and lined with blue Analite, a pure mineral coating which is fused into the steel—making a surface like porcelain.

Made in one and two quart sizes. Sold by all the better department, drug, sporting, hardware, jewelry and automobile accessory stores. Prices (East of the Rocky Mountains), black standard finish: quart size, \$10.00—2 quart size, \$15.00.

**GREENPOINT METAL BEDS**

These metal beds cannot be detected from wood beds. In design and finish they look alike. They are not so expensive as wood and are sold as individual designs or to match up styles of suites.

The method of construction makes them noiseless and gives them additional strength for use and long wear.

*Sold only by Furniture and Department stores. Write for Booklet P.*
