

War Romance Leaves Veteran Mental Wreck

Kenneth MacNichol's Mind Deranged When Child Is Returned to French Girl; Wife Is Made Guardian

Baby His Life's Ambition

Mrs. Louise Eckel MacNichol, of 15 East Park Street, Newark, yesterday was made guardian of her husband, Kenneth Hartley MacNichol, formerly of the staff of The Stars and Stripes in France, who is now being treated for mental derangement in a government sanatorium at Bellemead, Somerset County, N. J.

Mrs. MacNichol's application for a guardianship over her husband was heard before Judge Osborne in the Court of Common Pleas, Newark, and the proceedings brought to light another unusual romance of the World War.

While stationed at Mehun-sur-Yevre, France, in August, 1918, MacNichol fell in love with a French girl, Leone Winckel. When he returned to the United States he told his wife of his relations with the girl overseas.

MacNichol immediately sent for the girl, and a short time after her arrival here a daughter was born to her. In a short time, however, she wrote to the MacNichols begging that the baby be returned to her. Mrs. MacNichol reluctantly sent it to France.

Straying from extreme nervousness upon his return from France, MacNichol, his wife declared, became worse when he realized that he would have to return the baby to its mother.

MacNichol was found mentally incompetent by Dr. Christopher Beling, an alienist. The primary object of the proceedings, according to William R. Cresson, counsel for the American legation, was to have MacNichol appointed guardian so that she could collect \$80 monthly from the government.

Before the war MacNichol, his wife declared, had made substantial headway in the sale of short stories to magazines. Before he went overseas they had a home in Connecticut. Upon his arrival in France MacNichol was assigned to the medical corps.

Community Center Urged For Use of Young People

Speaker at Atlantic City Convention Says Every Normal Girl Wants Man's Company

ALANTIC CITY, Feb. 26.—Colonel C. Seymour Bullock, of South Bend, Ind., speaking to-day at the meeting of the National Education Association, in session here, said that something more than the Y. M. C. A. and the Y. W. C. A. is necessary for a certain type of girls and laboring men with families.

"Every normal girl," he said, "wants the society of a young man, and she is going to have it. You must not quarrel with her if God saw fit to use such strange ingredients in her making. The surplus bell will not solve the problem. The city girl is not going home to a mother who is overworked, irritable mother in a dimly lighted home, shared by several other children. The country girl will find some way, legitimate or otherwise, to gratify her wholly normal desire for company. Society must come to their rescue."

"The Chamber of Commerce, through Colonel Bullock's committee, stands sponsor for a sane attempt to provide a community center for those whose needs cannot otherwise be met." The Chamber of Commerce's topic was "The Chamber of Commerce as a Promoter of Community Centers."

"Andrea Chenier" Still Unsung in New York

Gigli Suffers From Hoarseness and "Tosca" Is Put On Instead

Owing to the indisposition of Mr. Gigli, "Andrea Chenier" was not given at the Metropolitan Opera House yesterday afternoon. Two hours before the matinee was scheduled to begin the tenor was attacked by hoarseness, which made it impossible for him to undertake the title role in Giordano's opera. "Tosca" was substituted. Miss Muzio, Mr. Crimi and Mr. Scotti were the principals in a brilliant performance.

In the evening Mr. Semback sang the title role in Saint-Saens' "Samson et Dalila." He was suffering from a cold and asked the indulgence of the audience. His companions were Miss Matzenauer, Mr. Amato, Mr. Schlegel and Mr. Rothier.

The Metropolitan Opera Company will give "Andrea Chenier" for the first time next Tuesday evening in Philadelphia. The New York premiere will take place a week from Monday.

Knights Templar to Dance Will Hold Big Charity Ball in Armory on April 6

More than eighteen thousand tickets have been distributed for the charity ball to be held in the 71st Regiment Armory on April 6 by the commanderies of Knights Templar having headquarters in and near Greater New York.

It has been five years since the Knights Templar have held a similar affair, and the great interest shown in this ball indicates that it will be the largest in the history of the order.

This affair is being held for the purpose of equipping the Soldiers' and Sailors' Memorial Hospital, which is being constructed by the Masonic fraternity at Utica, N. Y.

Russian Program Pleases Rachmaninoff's Playing Evokes the Usual Enthusiasm

At Carnegie Hall, Sergei Rachmaninoff offered an all-Russian program a house that counted not one empty seat. He played with his usual masterly command, his playing evoked the usual enthusiasm.

The audience was most pleased by the rendition of a rhythmic Russian dance by Moussorgsky and of two other pieces by the composer. Rachmaninoff himself, during an intermission, Mr. Paderewski, appearing in one of the boxes, was quickly discovered and greeted with much applause.

Harvard Wins Glee Club Cup Competition To Be Extended to All U. S. Colleges

Harvard won the Intercollegiate Glee Club cup last night at the University Glee Club with 289 points out of a possible 300. Dartmouth was ranked second, with honorary mention, taking 274 points. The institutions which competed with New York University, Amherst, Princeton, Pennsylvania and Penn State.

Nelson P. Coffin, chairman of the judges in awarding the cup to Harvard, said that the University had done the most to pace music on a better footing in institutions of higher education.

A plan was announced for next year's competition and arrangements were made to make the contest a regular annual affair on all college calendars throughout the country.

Many Agencies Give Aid to Engineering Foundation's Work

Industrial Research on Wide Scale Being Carried Out; Organization Hopes to Raise 5 Million This Year

Industrial research on a nation-wide scale, in which engineering organizations, universities, factories, individuals and private laboratories and other organizations are cooperating, is under way, according to the annual report of Charles F. Rand, of this city, chairman of the Engineering Foundation, made public yesterday.

Describing the foundation as a permanent national agency "for the furtherance of research in science and engineering, or for the advancement in any other manner of the profession of engineering and the good of mankind," Mr. Rand outlines a broad field of activity in which the foundation, profiting by the lessons of the war, is working.

Highway research, experimentation in the fatigue phenomena of metals, mental hygiene in industry, industrial tests for engineering students, industrial education in training and tests of mechanical equipment are among the projects which the foundation's effort embraces.

The foundation, according to Mr. Rand, now has an endowment of \$500,000. Of this amount, \$200,000 has been received, and one individual, it is announced, has offered to give \$50,000 if nine other men would make equal gifts.

To avoid a possible deficit of \$16,000 by 1922, Mr. Rand says Edward D. Adams, of New York, assumed this contingent liability. Mr. Adams's liability has now been canceled.

In order that the \$1,000,000 which is to be raised to higher the foundation, the Founder societies and other technical organizations, together with Federal and state governments, cooperated with the foundation in the proposed survey.

Garden Lectures Announced Columbia to Give Course of Eight During March

In an effort to further reduce the cost of living to wage earners, Columbia University, through the Department of Extension Teaching, has arranged a series of eight double lectures for women at 100 West 42nd Street, Amsterdam Avenue. A decision of the State Board of Regents, made public yesterday, dismisses the trustees of the college, on the basis of complaints made by the Alumnae Association.

The women's complaint was that three women who were trustees had resigned their offices, and that the trustees had failed to take any action to remove them.

Wills \$250,000 for Community Farm Plan

Nebraska Will Leave Wealth to Colorado to Loan to Homesteaders

DENVER, Feb. 26.—Colonel Henry C. Watson, of Kearney, Neb., farmer-philanthropist, has written a will which provides for the loan of \$250,000 to homesteaders in Colorado.

Colonel Watson, who outlined his plans to Colorado legislators this week, told them about his community farm plan near Kearney.

Starting his community system, he said, he selected fifty acres, leased twenty-two acres to each and paid each of them \$500 annually, while requiring them to work on your 3,000,000 acres of school land.

Colonel Watson wants the State of Colorado to take the money he expects to give.

Rusby Heads Expedition Into South America

Columbia University Dean to Direct Scientific Inquiry in Unexplored Areas

PHILADELPHIA, Feb. 26.—Dr. R. H. Rusby, dean of the College of Pharmacy of Columbia University, will lead a scientific expedition next May into the unexplored areas of southern Venezuela, Bolivia, Ecuador and eastern Colombia. It was announced here today that the expedition is being financed by a Philadelphia chemical company.

The expedition will attempt to study and bring back for further examination those specimens of birds, insects, flora, reptiles, fish and other creatures that abound in those regions. They also will seek new light on tropical diseases, their origin and their cure. The results of the expedition will be given to the world.

Dr. Rusby will be accompanied by Dr. William M. Mann, of the Bureau of Entomology in Washington; Professor E. N. Pearson, ichthyologist at the University of Indiana, and two motion picture men.

Proceeding from New York to La Paz, the expedition will cut across the Andes, and make a long trail along a route of about 12,000 miles. The trip is expected to take eighteen months.

Three-Year-Old Nephew Of Mrs. Rockefeller Dies

Winthrop W. Aldrich Jr. Is the Victim of Acidosis After 24-Hour Illness

Winthrop Williams Aldrich jr., three-year-old son of Mr. and Mrs. Winthrop W. Aldrich, of 23 East Seventy-third Street, nephew of Mrs. John D. Rockefeller jr., who was Abbey G. Aldrich, and grandson of the late United States Senator Nelson W. Aldrich, of Rhode Island, died at the home of his parents early yesterday morning from acidosis.

The boy was ill for less than twenty-four hours. He was apparently in good health on Friday morning. In the afternoon he became ill, and physicians who were summoned were unable to save him.

The boy's mother, then Miss Harriet Alexander, daughter of Charles B. Alexander, was active in war work. She was president of the Junior League and leader in all of its war activities.

Mr. Aldrich is a graduate of Harvard, '07, and served as lieutenant in a member of the Metropolitan Knickerbocker, University, Sleepy Hollow, Flying Dutchman, Seawanhaka Corinthian Yacht clubs.

Two Die of Sleep Sickness

Ten New Cases Are Reported in Manhattan

Dr. Louis I. Harris, director of the bureau of preventable diseases of the Health Department, said yesterday that ten more cases of sleeping sickness had been reported by local physicians, all from Manhattan. In addition, two more deaths from the malady were reported yesterday, one occurring in Brooklyn and another in Perth Amboy, N. J.

The Perth Amboy death was that of William H. Johnson, of 61 Broad Street, a ship's caulker, who was taken ill about two months ago. He died almost continuously since that time.

The Brooklyn death was that of John A. Dreyfus, thirty-five years old, of 342 Fifty-third Street. He died on Sunday. In the city there have been 247 cases and 64 deaths reported since the first of the year.

Birth, Engagement, Marriage, Death and In Memoriam Notices may be telephoned to The Tribune any time up to midnight for insertion in the next day's paper.
