

Queen Marie And Husband to Visit U. S. Soon

Ferdinand of Rumania to Halt Here, but Consort Hopes to Tour From Atlantic to Pacific Coast

Eager to See Our Indians Slums, Police Courts and Film - Making Part of Woman Ruler's Program

ATHENS, March 13 (By The Associated Press).—Queen Marie of Rumania intends to visit America soon and she declared yesterday she believed King Ferdinand would accompany her at least as far as New York City. She said, however, that he would return immediately to Europe, as it was probable he would not be able to spare much time because of his official duties.

The Queen contemplates a thorough survey of America during her trip to that country. "I hope to be able to stay three months," she declared, "and am going to the Pacific Coast, and intend to become acquainted with all phases of American life. I want to see the cowboys and Indians, to go to the bottom of mines, to visit factories, police courts, slums and hospitals, and I want to see a motion picture laboratory."

Coronation to Delay Start "I believe I will go to America next autumn. I am sorry I will not be able to go before that time, but the people of Rumania are anxious that the ceremony of coronation of the King and myself take place early this summer. It has been postponed for years on account of the war. I will remain in Greece for a fortnight, seeing temples, ruins and ancient battlefields. I also desire to visit old shrines and monasteries, especially those in the mountains where waters are hauled up to the doors in baskets."

There are six divisions of Russian Bolshevik troops on the Bessarabian frontier of Rumania, the Queen said, but she declared that the Soviet army was not worrying the Rumanians, as the Rumanian forces were fully prepared to cope with them in the event of an attack. She added that "much nonsense has been written in newspapers on this subject."

The correspondent was received in a private dwelling which was assigned to the Queen during her stay in Athens, as the King Constantine's palace was too crowded and was unsuited for her particular needs. This house is some distance from the palace and Allied ministers have been able to call upon the Queen without being embarrassed by the presence of King Constantine, who has not as yet been officially recognized by the great powers.

Before any question could be asked, the Queen inquired for news regarding the Near Eastern conference in London. She said she hoped the Allies would not "disturb Constantine" in deciding upon alterations in the Sevres treaty.

People With Constantine "He has a tremendous hold on the people," she added. "I never realized his great popularity until I rode with him in the procession on Friday, when crowds acclaimed him with genuine fervor."

Queen Marie described as "ridiculous" reports that she had brought about the marriage of her daughter, Princess Elizabeth, to Crown Prince George of Greece, with the idea that the marriage would be a step toward the return of the throne and that her daughter might become the Queen.

"When the young people became engaged last summer," she said, "no body could foresee the return of Constantine to Greece, much less the possibility that George might ascend the throne and that my daughter might become the Queen. It was a love match, pure and simple. Elizabeth and George have known each other for six years, and my daughter, much touched by George's love and with my consent, decided to accept him, although at the time of their engagement he was without home, home or country."

Only White Amaryllis Grown on View To-day

Costly Bloom Named for Wife of President Part of Annual Flower Show

What horticultural experts say is the only pure white amaryllis ever grown will be on exhibition at the eighth international flower show which opens to-day in Grand Central Palace. The plant is said to be worth several thousand dollars. It has been named the Mrs. Florence Harding. The President's wife gave permission to John Schepers, who raised the flower, to call it so.

Among the other notable exhibits will be a trilogy of roses—Mrs. Butterfly, Golden Dawn and Miss Florence Spendiff—and a collection of camellias, grown by W. R. Coe.

The show will be conducted by the Horticultural Society of New York and the New York Florists' Club. Arthur Harrington, general manager, has planned a most attractive setting to display the blossoms to their best advantage. A tea garden will be one of the features of the show.

The principal class to be judged to-day is for gardens covering one thousand square feet. A sweepstake of \$500 will go to the winner. Tomorrow will be "rose day."

Rice Playfield Opening Waits On City Action

Cannot Be Handed Over to Public Labor Day Unless Estimate Board Carries Out Share of Agreement

Trustees Give Warning Recreation Ground in the Bronx Is Equipped to Entertain Multitude

Unless the city fulfills its agreement to provide necessary roadways, sewers and water supply, the Isaac L. Rice Playfield will not be available to the public by Labor Day when, it is expected, the \$1,000,000 improvements paid for by the Isaac L. Rice Foundation will be completed.

The money which the city of Cork set aside to feed its children will be exhausted April 1. There are no more funds available and the generosity of Americans is the only hope of the children and women to avoid starvation.

Secretary Hoover indorses the Drive for \$10,240,000 to Relieve Suffering in Ireland

A quarter of a pint of milk and a bun constitute the only daily meal of 3,000 children in the city of Cork, according to a cable message received yesterday by the American Committee for Relief in Ireland from the unit of American Quakers, which has undertaken to distribute the \$10,240,000 fund.

City's New \$1,000,000 Recreation Park

Bird's-eye view of recreation ground the Isaac L. Rice Foundation has laid out in Pelham Bay Park as a gift to the public at a cost of \$1,000,000, and which only requires the Board of Estimate to authorize city-built roadways, sewers and water supply to be available for entertainment of Labor Day merrymakers.

It is rather tough, in the opinion of Louis H. Chalif, head of the New York Dancing Teachers' Association, to figure out a special dance at the request of some Methodist young people and their friends for a New Jersey conference of the Methodist Episcopal clergyman, meeting in Asbury Park.

Mr. Chalif was deeply hurt last night when he learned that the conference had adopted resolutions denouncing the American National Association of Dancing Masters for giving the name "Wesleyan" to a new dance, on the ground that it was an insult to John Wesley, founder of Methodism.

"They think we named the dance for John Wesley," Mr. Chalif said, "and then to produce a new dance, and name it after Wesley, is an insult to the name of the founder of the denomination. I have many letters from students objecting to the name of the dance. It is designed as a special dance, like the 'Vale Two-Step,' 'Princeton Walk' and 'Harvard Glide.'"

They used a little machine not unlike a sausage grinder. A handful of raw peanuts was dropped in. Under the spout was spread a piece of cheesecloth. These were ground, a pulpy mass coming out upon the cloth. Next was produced a quantity of steel-cut oats, known as "Scotch oatmeal." This was run through the grinder, coming out a fine white powder. This was mixed with the peanut pulp and the whole was wrapped in the cheesecloth and placed in a bowl. Over this they poured a few cups of water.

The water began to thicken and turn white. The mixture in the cloth was kneaded, keeping it in the water. This complete, there remained in the cloth a pulpy lump, which it was explained, was the cause of woody portion, indigestible, rejected by the cow.

It is declared babies thrive upon the cowless product.

Other Suggestive Dances Also Placed Under Ban in Order Issued by Police

ROCHESTER, March 13.—Dances that smack of suggestiveness are to be taboo in Rochester. That is, they will not be taught or permitted by the proprietors and managers of dancing academies. This was decided yesterday at a conference between Chief of Police Joseph M. Quigley and twenty or more representatives of public dance halls.

It was agreed that the dances popularly known as the "Camel Walk," "Cheek to Cheek" and the "Chicago" should be banned, and at a meeting of the dancing instructors, to be held some time this week, plans will be made for putting the reform into effect.

Chief Quigley told the dance men that the department wanted the academies in Rochester run in an orderly, decent manner. He said there had been a proper, suggestive dancing. He invited the cooperation of the proprietors in putting a ban on it.

Frederick A. Otto, one of the proprietors, said he was quite willing to cooperate, but he thought the alleged suggestive forms of dancing should be banned at private dances as well as in the public halls.

Liner France Here Minus 300 Aliens Put Off at Havre

The French liner France, from Havre, had a short stay in quarantine yesterday, despite the rigid health examination of all travelers coming to this port. There had been no illness aboard and no passenger required removal for de-lousing. The speed with which the France received her pratique from the health officer is credited largely to the health regulations in force at Havre.

Shortly before the France left her home port an examination was made of all passengers, and three hundred of them were held in quarantine. The French medical examiners were not satisfied with certain groups who had passed muster before embarking.

Among the 307 saloon passengers was Frederick Palmer, the war correspondent. He expressed no surprise at the failure of the London conference and the subsequent occupation of German cities by French troops.

"The situation is simply this," he said. "France is determined that all Germany shall work to pay off her war debt, and she is going to put her wishes into effect. I think the average German workman is honest, but at the same time he needs encouragement."

Tennis MacSwiney, a cousin of the late Lord Mayor of Cork, came over to arrange with John McCormack, the Irish tenor, to give a series of concerts in this country for relief work in Ireland. He said there was an abundance of aspirants for McCormack in London and at this time, he had a desire to call spirit of defiance was due to a British desire to boycott the singer because of his Irish birth and sympathies.

Another traveler on the France was Mrs. Catherine Bussey, eighty-one years old, who was accompanied by her daughter, the Countess Saint-Seine. Mrs. Bussey, who is an American citizen, lived in a sanitarium in Ireland throughout the war. When the sanitarium was destroyed recently by fire she moved to Paris, where she stayed with her daughter, the countess.
