All Exhibits in Place at 'Own Your Own Home' Show

Every Phase of Building, Including Financing, Furnishing, To Be Seen at Exposition in 22d Armory

The house—from architectural plan to its ultimate reality—is revealed at the 22d Regiment Armory, where the third Own Your Home Exposition opened in its entirety yesterday.

Crowds that journeyed uptown found most of the exhibits that were displayed in preparation for the official opening Saturday already in place.

Every phase of home building, including financing and furnishing, is explained, or displayed, by means of the exhibits represented on the floor.

Three thousand separate items, which, according to the household expert, go to make the finished product, are utilized, and to make the show complete a full-size stucco house of four rooms is constructed in one end of the auditorium.

Workers yesterday were engaged before the crowds of onlookers in erecting the walls and finishing the rooms. This unplanned feature proved the attraction of the day.

Models of house plans submitted in a nation-wide contest among architects are arranged in a fresco extending around the walls. There are more than 100 designs of various sizes and types. Those who are interested are provided with estimates and plans enabling the home builder to reproduce any of the types shown.

Booths conducted by the Cooperative Savings and Loan associations furnish advice on how to raise loans for building purposes and in other ways help to simplify the problems of construction.

In the center of the hall is a display, prepared by various landscape gardeners, which represents a fountain court carried out in trees, grass and shrubbery, with a formal, walled and fountain device, illustrating the simple method of beautifying the garden plot. It represents the work of the Conard, Amawalk and Hicks nurseries.

The Sunshine Homes Company has a display, with plans of houses built by the concrete method perfected by Simon Lake, which are advertised from \$1,500 up and made further enticing by an offer of payment by the monthly method. These houses are constructed so that additions can be made from time to time. There is a one-unit house shown that when completed measures 28 by 12 feet, and is guaranteed to house four persons comfortably. It is equipped with coal bins on the roof. These houses are built at plants and delivered to the owner by auto truck, is the claim.

The display is designed to appeal to the small home builder, and all plans and designs representing such products costing less than \$10,000. Two New York architects are represented as prize winners in the national competition. John Floyd Yewell designed the best five-room frame house, and for the best house of brick first prize

was given to Edgar and Vera Salamonsky.

The "Own-Your-Home" movement is national, an exposition having just been held this month in Cleveland, Cincinnati and Birmingham, Ala. The New York show will continue daily until April 30, with a musical program afternoon and evening.

Weizmann and Zionists in U. S. Split Over Fund

Visitor Rejected Safeguards on Expenditures After Having Assented to Plan, Judge Mack Announces Work to Go On Separately

American Branch to Raise Money Only on Conditions Arranged by Convention

Dr. Chaim Weizmann, president of the World Zionist Organization, has broken off negotiations with the American Zionist Organization, according to an announcement yesterday by Federal Judge Julian W. Mack, who is president of the American association.

Dr. Weizmann, who came to this country recently to confer with American Zionists about raising funds to restore Palestine as the spiritual home of the Jewish people, will now seek money independently, if the impression conveyed to many in a statement by Judge Mack is correct. Dr. Weizmann is in Washington.

The conferences with the World Zionist chief had to do with the Foundation Fund, known more generally as the Keren Hayesod. Judge Mack's statement read:

"Dr. Weizmann abruptly terminated the negotiations which I have had with him and his associates for the last two weeks in the hope of reaching common ground on the basis of an exclusive in Palestine and under such adequate safeguards as would secure its proper expenditure.

"The suggestions heretofore made in the course of our conferences were drafted during the night by representatives appointed by Dr. Weizmann and myself. The draft was submitted to each of us.

"While the draft was under consideration, Dr. Weizmann advised me that he had absolutely rejected it and without further statement or conference issued a proclamation, establishing independent of the Zionist Organization of America—Keren Hayesod Bureau of the United States.

"The officers of the Zionist Organization of America are not parties to this proclamation. They had not been asked to sign and their consent is not embodied therein any safeguards with respect to the expenditure of the money, indispensable precedent to our cooperation in the solicitation of these funds.

U. S. Zionists to Open Fund "A full statement of the negotiations will be promptly made and will be accompanied by the plans of the Zionist Organization of America for initiating the Palestine Donation Fund, pursuant to the resolutions of the Buffalo convention and your executive committee.

"In the campaign for this fund we shall count on the immediate and continuous cooperation of all American Zionists and of all American Jews."

The draft which Dr. Weizmann rejected included provisions that the Keren Hayesod fund be a trust; that no admittance of no investments; that the Miztrachi, Poale Zion and non-Zionists be represented on a board of directors or trustees; that the money be held on deposit in banks in the United States; that the budget of the American Zionist Medical Unit be a first charge upon the fund; that the next charge be monthly contribution to the Red Palestine budget; that contributions for other purposes be agreed upon between the world and American executive heads, and that within the limits of Zionism, the disposition of the unexpended balance be determined by the next Zionist Congress.

It was said in a statement given out at the office of the delegation of the World Zionist Organization at the Hotel Commodore that the primary reason for Dr. Weizmann's visit to America was to establish a bureau of the Keren Hayesod.

Acting for Zionist Conference "In issuing his appeal to the Jews of America," it was said, "he is fulfilling his duty as president of the World Zionist Organization and was carrying out the resolution of the annual Zionist conference, which was held in London in July, 1920. At this conference the American Zionist Organization was adequately represented, the American delegation voting for the unanimous adoption of the Keren Hayesod. Dr. Weizmann could not take special cognizance of resolutions subsequently adopted by the Buffalo convention, which resolutions were not in accord with the London resolution."

With regard to Dr. Weizmann's reported assent to the Keren Hayesod as a donation fund, it was stated at the office of the Weizmann delegation that Dr. Weizmann had agreed to consider the fund only if other fundamental obstacles in the way of immediate action involved in the contentions of Judge Mack were removed.
