Propose Board of Twelve With Absolute Power To Be Chosen From Panel of 300; Hylan To Be Asked to Indorse Move

Unanimous approval of a plan by which theatrical productions considered offensive will be passed upon by an impartial, volunteer jury of twelve, selected from a panel of 300 representative men and women of the city, was voted yesterday afternoon at a meeting in the quarters of the American Society of Dramatists and Composers, 148 West Forty-fifth Street.

After much discussion, during which it became apparent that all organizations represented were striving toward the same end—that of bringing to a halt the production of plays that are considered offensive—a committee was formed which is to be known as the Joint Committee Opposed to Positioning of Plays.

The committee, as appointed yesterday, includes: Jesse Lynch Williams, Chairman; Tollock and Leroy Scott, representing the authors' League; Owen Davis and Gene Buck, representing the Dramatists; William A. Brady, Whittaker Ames and Charles Coburn, representing the Producing Managers Association; Dr. S. Marion Tucker, representing the Drama League; John S. All Insignia of Monarchy To Be Removed From Public Buildings, Reichstag Told

Berlin, March 10.—(By The Associated Press).—All insignia of monarchy are to be removed from public buildings, Minister of the Interior Adolf Koester to-day told the Reichstag. He added that the government had decided to fix a definite period within which this decision would be carried out.

Exceptions will be made, he said, only where these emblems have been structurally incorporated in buildings where their removal would destroy the architectural value and effect.

All paintings, busts and statues in government offices also must be removed with the republican regime. This order will apply chiefly to portraits of former Emperor William, although Herr Koester said exceptions might be made if their removal destroyed the artistic and historical unity of the interior decorations.
