

Biggest Glass Concern Added To Indictment

New Finding Names American Window and Virtually Every Other Company as Members of Combine

Gies Heads of Unions Specifically Declares the Conspiracy Was Continuous in New York District

The American Window Glass Company, which controls one-third of the output of this commodity in the United States, was added to the list of defendants in the glass trust case in the Federal courts here yesterday, when a new indictment was filed to supersede that dismissed by Judge John C. Knox on February 8, on the ground that the government had not specified with sufficient definiteness that the alleged conspiracy was found continuously in this district.

Two other new defendants were named in the indictment filed yesterday—James T. Zellers, president of the Window Glass Cutters and Flatteners' Protective Association, and W. A. Amsdorfer, president of the Window Glass Cutters and Flatteners' Association of America. The former is confined to the American Window Glass Company.

Labor Leaders Included The charges against the labor leaders are confined to the limitation of production. It is alleged that the supply of window glass was kept far below the demand by an arrangement with the labor leaders to restrict production.

The employment of the Johnston Brokerage Company, of Pittsburgh, which again is indicted, as exclusive selling agency for all the defendants except the American Window Glass Company is the second step in the manufacture of the Sherman law. According to Colonel William Hayward, the United States attorney here, the indictment is a part of the grand jury's effort to bring to a close the charges made by the grand jury in the Southern District of New York, in the indictments of last year.

Former Defendants Renamed To meet the objections raised by Judge Knox in dismissing the former indictment it is specifically stated that the conspiracy was continuous in New York, in the Southern District of New York, in the indictments of last year.

The indictment filed yesterday is signed by Colonel Hayward, and was obtained after a six weeks' investigation before the grand jury.

Additional Million Discovered By Executors of Bent Estate

Fortune in Securities Reveals Astuteness of Woman Financier in Panic of 1907; Total More Than \$3,500,000

The discovery yesterday of \$1,023,034.61 in securities and cash in a vault of the Lincoln Safe Deposit Company and the announcement by J. Pierpont Morgan & Co. that she had a cash deposit of \$82,000 with that house increase the total value of the estate of the late Mrs. Sarah Wyckoff Bent to more than \$3,500,000.

The existence of the securities, unknown to the executors, revealed the astuteness with which Mrs. Bent, who died several months ago, made more than \$300,000 on United States Steel and copper stocks during the panic of 1907. It was known that Mrs. Bent possessed a great many shares of United States Steel, but not even her immediate family knew that her holdings were so large until the executors, out of this fortune Thomas C. Bent, Mrs. Bent's second husband, whom she married December 12, 1900, and who was then a cornet soloist in the 7th Regiment Band, will receive \$1,500,000. A half-brother and three half-sisters will share the remainder.

Moral Film Based on Hamon Murder Gains Legal Point

Action of New York Censors in Rejecting Picture Will Be Reviewed by Order of Court; Clergymen for It

The Appellate Division granted yesterday the application of William E. Weathers, of Los Angeles, for a writ of habeas corpus to the New York State Motion Picture Commission in refusing to grant a license for the exhibition of the film "Fate," based on the case of Mrs. Clara Smith Hamon, acquitted of the murder of her husband, wealthy Oklahoma politician.

Mr. Weathers, formerly a banker in Oklahoma, was acquitted with Mr. Hamon. He said he spent \$125,000 to produce the picture upon which the New York State Motion Picture Commission has placed a ban and that he intended it as a moral lesson. Mrs. Hamon, said the producer, joined the church after her acquittal and pronounced that she would devote her life to the redemption of other young women from being ensnared in the same pitfall.

Mr. Weathers said that Mr. Gorman, who directed the picture, married Mrs. Hamon and they are now living happily together. When he brought the film here last October and exhibited it to the censors, said Mr. Weathers, he offered to eliminate the marriage and convenience scenes and also cut out the scene showing the rejoicing in the courtroom over the acquittal of the defendant. Nothing remained in the film, the producer argued, which could offend the most cautious moral critic.

Bedtime Stories Boxer and Woolf Awaken

By Thornton W. Burgess

The feel of spring is in the air And joy awakens everywhere. —Old Mother Nature.

Mother Bear and the half grown cubs, Boxer and Woolf Woolf, had spent a very comfortable winter in their den under a great windfall deep in the Green Forest. They had known nothing about the great ice storm, they had known nothing of the cold and the snow. You see, they had been asleep. They had slept all those weeks without once waking up. Sleeping all three together that way they had been warm and even more comfortable than if each had been sleeping alone. Boxer and Woolf Woolf didn't know it, but this was the last winter that they would sleep together.

Shortly after Old Mother Nature started the sap to running up the maple trees she must have whispered in the ears of Mother Bear and the cubs that spring was coming. Anyways, they awoke early one morning. Mother Bear awoke first. For a long time she lay there trying to make up her mind whether or not to get up and go and see what the weather was like outside. She was a little stiff from her long sleep, and so she slowly stretched first one leg and then another to get the stiffness out of them. This awoke the cubs and they did likewise. Finally Mother Bear decided to look outside. They promptly scrambled to their feet and followed her out. There was still some snow in the Green Forest, but there were places which were bare. Down along the Laughing Brook the brown and green hoods of the skunk cabbage were already showing. All about were signs of spring.

Jury Indicts 7 For \$2,000,000 Fur Tax Frauds

Six Accused of Conspiracy to Defraud U. S. and to Counterfeit Internal Revenue Receipt Stamps

Many Dealers Held Dupes 50. Alleged to Have Obtained Rebates From Plotters, Ordered to Pay Up at Once

Two indictments connected with the alleged \$2,000,000 fur tax frauds revealed by four arrests in January, were filed by the Federal grand jury yesterday. In the first, six men, declared by the government to have been ring-leaders and intermediaries in the plot, are charged with conspiracy to defraud the United States and to counterfeit internal revenue receipt stamps. In the second an important manufacturing furrier is indicted on six counts on charges of failure to file proper returns and to pay taxes due on monthly sales.

Police Will Drag River for Records Of Accused Broker

Randall, Arrested Up State, Alleged to Have Had Boy Sink Evidence of Deals; "Water to Water," Says Banton

The mathematical secret of the ways in which David Ronzone operated a brokerage office at 32 Broadway under the name of David B. Randall, is in a bundle of books somewhere on the muddy of East River. Ronzone will be locked up in the Tombs to-day. He was arrested at Rochester last night on a warrant charging him with grand larceny on the complaint of Alfred A. Herman, of 250 West Eighty-eighth Street, who alleges the broker fished him of \$1,900 in a fake stock deal.

Ronzone was not taking any chances when he decided to close his brokerage place here and go to Rochester to "set up five branch offices to put through a big deal" as related by the complainant. He bound up his books in a neat bundle, it is charged, and gave them to his office boy with instructions to take a ferry ride and drop the bundle overboard.

The broker's method of settling accounts was told by Sol Friedman, his clerk, who also gave the District Attorney other information which caused Magistrate Oberwager to issue the warrant. According to Assistant District Attorneys Schreiber and Baldwin, Ronzone's office was largely a quotation board and a telephone, was known as a "cold bird" and was searched over the telephone.

Magistrate Oberwager is said to have told the Assistant District Attorney, would take a glance at the board, select a couple of quotations and toss a coin to decide at what price he would offer the securities.

District Attorney Banton says he would like to ascertain if customers other than Ronzone were handled in the same way. He is particularly interested in the books, and although he has a fight on his hands in the Federal courts to obtain the books of certain bankrupt firms under investigation, he will make an effort to retrieve the Ronzone records through the grapple of the marine police.

"They say it important as evidence," said Mr. Banton. "I have heard of 'dust to dust' but this is the first time I have heard of 'water to water.'"

The American Modernists compare well with Russian, French and Dutch in the Exhibition of Modern American and European Paintings

in the Wanamaker Gallery of Decorative Art, which continues throughout March.

Of the eighteen artists exhibiting six are French, two are Russian, one is Spanish, one Dutch and one Mexican, while seven are Americans.

Lyman Sayen, a young Philadelphian who recently died, left staunch admirers behind him. A number of his canvases are arousing interest.

Essentially American, too, but forward-looking in its characteristic vein, is the work of Preston Dickinson, Wood-Gaylor, Charles De-muth and Charles Sheeler.
