

Dr Parkhurst Blames Crime On Tammany

Organized Freebooters Are Growing Fat as Rulers of City, Veteran Fighter of Vice Tells Birthday Hosts

Enright's Weakness Vital

Byrnes Would Have Laughed at His Efforts, Hylan's Commissioner Is Told

The Rev. Dr. Charles H. Parkhurst, veteran preacher, formerly pastor of the Madison Square Presbyterian Church and one-time head of the Society for the Prevention of Crime, addressed himself to the crime wave and city government mismanagement yesterday at the birthday luncheon in his honor at the Hotel Astor.

The gathering was in celebration of the clergyman's eightieth birthday, which occurred April 17. In response to short speeches of tribute by prominent men among the fifty present, Dr. Parkhurst declared that the occasion might be made one of practical moment.

Tammany Fattening on City In his arraignment he spoke of Tammany Hall as "an organized body of freebooters carrying on its operations in municipal government, because that promises it the greatest gain, as does a corn bin or potato field to the rats."

He said it was as much the genius and master passion of Tammany Hall to get wealth from the City Hall as it is the genius of John D. Rockefeller to get riches out of oil or Elbert H. Gary to get wealth out of steel.

As Tammany is working only for Tammany, said Dr. Parkhurst, "it serves the city only so far as it is necessary to disguise its indifference to the city's needs. This creates an unstable equilibrium, making it necessary for the organization from time to time to make an expansive exhibit of its municipal devotion."

Dr. Parkhurst pointed out that frequently the cry can be heard coming from City Hall that "New York City is the best governed city in the world." But Tammany Hall, he added, is not a "superior" organization with morals and virtues does not count with an asset. He said that City Hall regards with complacency the present situation and is satisfied with the "left-handed" dealing it gets from Tammany Hall.

Courts and Press Helping Citizens "The bench, however," Dr. Parkhurst said, "is doing its part. To the courts and to the press, and not at all to the City Hall, is due the present improvement in the crime condition of the city."

The Police Commissioner, he said, might be regarded as a product and designated as a symptom. The Commissioner, he added, is either doing his best to quiet prevailing disorder or he is not.

"If the Commissioner has done his best," continued Dr. Parkhurst, "it is clear that the fundamental and essential qualities of an executive officer. He has brought a great deal of machinery into play, but we ought to be discriminating enough to know that executive power does not lie in machinery, but in the leader's own interior genius for command. Superintendent of Police Byrnes taught me that lesson twenty-five years ago. If he wanted every rascal in the city done, he would have wanted every disorderly house closed, he simply said, 'Close up,' and all would close up."

Headless Rich Share Blame Dr. Parkhurst placed part of the blame on public attitude. More could be accomplished, he said, if some of the honorable citizenship would withdraw from money-getting and would physical relaxation for a while and join the courts, the press and the clergy in fighting the situation.

Among those who paid tribute to Dr. Parkhurst were former Governor Charles S. Whitman, Adolph S. Ochs, proprietor of "The New York Times," former Police Commissioner Frederick A. Wallis, William John Bates, U. S. N.; Professor John Bates, of Columbia University; Dr. Chaddous D. Keneson, and former Supreme Court Justice, John W. Goff. Others who were present were: Rev. Dr. William Carter, Robert H. M. Alder, George B. Compton, Harrison Dwyer, Captain Daniel E. Costigan, the Rev. Dr. William S. Chubb, Robert Grimshaw, William M. Chubburne, Howard Clark Barber, superintendent of the City of New York, and former Mayor, Frank P. Rowland, Mayor Stagg Whitin and D. W. McAlpin.

Atlantic Liner Picks Up Radio From Philippines The Lamport & Holt liner Vauban, yesterday from Brazil and the Argentine, according to the passengers and ship's officers, passed through 6,000 miles of unusual radio activity on the run up from Buenos Ayres.

Soon after clearing the Rio de Janeiro the ship's operators heard a series of news bulletins which were being sent out from the United States government radio station in the Philippines.

The messages, which had to do with world events, were exceptionally strong and clear, but occasionally they were jammed by interference from radio stations at San Francisco and Hawaii. They were heard at intervals until the Vauban's operators had received conditions in the Atlantic were exceedingly favorable for long distance transmission and there was much speculation on board as to whether the Philippine messages were coming over the continents of Africa or South America.

The ship's officers estimated the shortest distance to be between 10,000 and 11,000 miles.

While the Vauban was lying in the harbor of Buenos Ayres, which is about 6,000 miles from New York, the radio operators said they received messages being sent from New York to ships at sea and got news bulletins from the British station of Leecliff at Oxford.

Smoke Blaze in Sub-Cellar Disturbs Diners at St. Regis Diners at the Hotel St. Regis, Fifty-fifth Street and Fifth Avenue, yesterday postponed their noonday meal while the hotel fire force and the members of the fire department extinguished a blaze in the sub-cellar. Telephone operators and maids were busy for several minutes informing the guests that there was no need for alarm.

The fire started in a kitchen, necessitating the evacuation of a number of guests left the dining room until the smoke cleared away. The twelve members of the hotel's fire extinguishing brigade before the regulars arrived. The damage was trifling.
