

Miami Cables To Be Opened For Emergency

Harding Grants Request of Western Union to Meet the Situation Caused by the Seizures in Ireland

Service to Europe Only

Federal Policy Regarding South American Use Is in No Respect Altered

WASHINGTON, Aug. 12.—The request of the Western Union Company to open the Miami-Barbados cable for emergency use for transmission of messages to Europe was granted to-day by President Harding.

Steps immediately were taken to notify the government authorities at Miami so that the new cable line, heretofore sealed pending a readjustment of cable franchises in South America, could be put into use without delay.

The opening of the cable is purely an emergency measure, adopted on account of interruption of the regular cable service by Irish insurrectionists. It will be used exclusively for transmission of messages to Europe by way of Pernambuco, Brazil, and cannot be utilized for communication between North and South America.

It was indicated that the step in no way altered the policy of the Washington government in regard to the South American cable situation. Negotiations have been in progress for several months looking to regular use of the cable as soon as proper franchise rights can be obtained, and it is the hope of officials here that a satisfactory arrangement of that situation can be worked out soon.

The decision of the Federal government to open the cable temporarily was announced in the following statement issued at the State Department: "The President has granted permission for the opening of the Miami-Barbados cable of the Western Union company in accordance with Mr. Carlton's request."

MIAMI, Fla., Aug. 12.—Immediately on receipt of word from New York headquarters of the Western Union announcing that the State Department had granted permission for the unsealing of the Miami-Barbados cable at Miami Beach, Superintendent of Cable George F. Mackey ordered a force of workmen to connect the cable at the Miami Beach manhole. It was expected it would take about two hours to complete the connection and that

The Woman Who Seems Never to Tire

The girl or woman who can end a busy day with the same joyous spring in her step that she had on arising will be happy and successful in the business, professional or social world.

She has no foot trouble to call her attention from what she is doing and focus it on her feet. She is up to her capacity mentally and physically.

This freedom from all foot annoyance can be yours when you wear the comfortable

Cantilever Shoe For Men & Women

Cantilever Shoes make work, play, walking or standing easier because they conform to the natural lines of the foot. They are entirely free from the concealed metal that is in the shank of ordinary shoes, hence the arch is flexible, like that of your own foot. The flexible arch supports the foot naturally while at the same time it permits free exercise to all the muscles, ligaments and joints, keeping them strong and healthy and preventing or correcting weak arches.

The sole line of Cantilevers does not twist the foot into an unnatural position as some shoes do; it allows the foot to keep the beautiful outline nature intended. The toes are given plenty of room, and the body is kept in balance by the low or medium heel which all Cantilever Shoes have. Cantilevers are trim, good looking shoes. You will like them.

If you have been suffering any kind of foot discomfort from wearing ill fitting shoes you have no idea how a pair of Cantilevers will relieve the strain, correct the trouble and give the foot freedom the you need to be at your best. You can easily find out how they will help you in many ways by buying a pair tomorrow and giving them a trial.

the cable soon would be ready for use. A force of thirty-eight operators, repairmen, experts and managers has been maintained here by the Western Union for the last two years. It was said these employees would be sufficient to handle the business expected with the opening of the cable.

Ready for Service Monday. Officials of the Western Union Telegraph Company in New York declared yesterday that all connections with the Miami cable would be completed to-day and that they would be ready to handle messages over this line at the opening of business on Monday morning. They estimated that this new outlet would enable them to increase the present crippled facilities to Great Britain by 12 or 15 per cent.

They said the Miami cable is merely a simplex line which takes messages in one direction at a time, but since the difference in time between New York and London is five hours, it is felt that by reversing the line at the close of business in one place they can take care of the rush coming from the other direction. Later they hope to make it duplex, which will, of course, greatly increase the service.

It was said that the rate to be charged over the Miami route could not be announced until Monday, as the British company had not yet told them what it would charge over its lines. The local officials, however, expect that the new tariff will be a little less than the rate of \$1.17 per word which is being charged by the all-America lines for messages by way of South America for the reason that the mileage of the Miami route is somewhat less.

The Commercial Cable Company announced that while messages from Southern Europe are being handled without delay via the Azores, they will have no communication with Ireland, Great Britain, France and Northern Europe.

Green Apples Cause Death Of 4-Year-Old at Glen Cove

Eating green apples several days ago resulted in the death yesterday of William L. Wilson jr., four years old, who lived with his grandfather, Edward Theis, at Glen Cove, N. Y.

The boy and two of his small cousins went into an orchard and ate several green apples apiece. The same night he became violently ill, although neither of his cousins had any ill effects from the fruit. The Wilson boy's parents live in New York, and his grandfather is proprietor of the Fraternity Inn, on the Shore Road.

Bronx Committee Urges Renomination Of Governor Miller

R. W. Lawrence, in Letter to Republican Voters, Declares Highest Type Man Now Is in Albany Chair

In a letter to enrolled Republicans throughout the city, Richard W. Lawrence, president of the Bronx Republican Committee, yesterday urged the voters to demand the renomination of Governor Miller and see to it that he is retained for two years more at the head of the state government.

"Success of the Republican state ticket in November will be due to the united purpose of thinking people to have in office a man with courage to face problems and intelligence to accomplish results," said Mr. Lawrence. "To have this type of man in the executive chamber at Albany is something not to be lost sight of by people who want public business conducted properly and who measure the value of an executive who has ability and who is not afraid."

"There are men with courage who are without ability, and there are men with ability who are without courage. But in Governor Miller capability and courage stand out so clearly that we should demand his renomination, and insisting upon his renomination means beyond a shadow of a doubt his reelection. There may be periods when the people do not get concerned over political or public affairs, but that cannot be said accurately just now."

"During the last few years state and nation have gone through trying times. Men with character, capability and courage are needed to control present-day affairs and shape politics for the future. Governor Miller could have adopted practices that would have made his work easier. But he was not the caliber of man to shirk. He answered the call before, and that he did has been so deeply appreciated that we must make sure that he is retained for two years more as the head of the state government. Do you agree with me?"

Rescues His Children From Burning Garage

M. F. Burns's Chauffeur Jumps Through Window as the Flames Sweep Stairs

Special Dispatch to The Tribune
SEABRIGHT, N. J., Aug. 12.—Two small children narrowly escaped death to-night in a fire which destroyed the garage on the summer estate of M. F. Burns, senior member of the New York coal firm of Burns Brothers. Two automobiles, valued at \$12,000, were burned.

J. Peters, the Burns family chauffeur, rushed to the second floor of the garage when he discovered the flames. His two children were there in his living quarters. Daniel Murphy jr. joined him and they found escape by the stairway cut off. Daniel Murphy sr., an employee of the estate, caught Peters's children as they were dropped out of a window. Peters and the younger Murphy then jumped to the ground unharmed.

The building burned to the ground, and several costly trees were destroyed. The water supply was low, but firemen from Seabright and Rumson were able to keep the flames from spreading to the adjoining estate of Mrs. George F. Vietor.

Yanks Youth Out by Ear

Girl Tells Policeman He's One of Those Subway Mashers

Patrolman Abrahamson was astonished last night to see Mrs. Helen Murray of Rockaway Beach, come out of the Seventh Avenue subway station at Fourteenth Street leading a young man by the ear.

"This man annoyed me in the subway," Mrs. Murray told the policeman. "I moved to another part of the car and he followed me."

The young man was taken to night court, where he described himself as Anton Lopez, 8 Columbia Place, Brooklyn, a student. He denied Mrs. Murray's charges, but Magistrate Sweetser held him without bail for examination Monday night.

Bishop Finds Home for Aged

SYRACUSE, N. Y., Aug. 12.—The late Right Rev. John Grimes, Bishop of the Catholic diocese of Syracuse, left an estate of \$100,000, according to his will, filed for probate here to-day. He made specific cash bequests of \$50,000 to

philanthropies, and named as residuary legatees the Grimes Foundation, an organization under direction of which a home for the aged will be built on property previously donated by the bishop as a site.

McGuinness After Coolies

Alderman Renews Hunt for Smuggled Chinese Workmen

Alderman Peter J. McGuinness renewed last night his hunt for smuggled coolies in factories in the Greenpoint section of Brooklyn, in response to complaints from his constituents that the cheap Chinese labor had cost them their jobs.

He found no more coolies, but said that articles of clothing they had left behind them in their hasty departure from half a dozen factories had been found. He was informed, he said, that there were about 280 of the Chinese at work in the district, all of whom, he suspected, had been smuggled ashore from vessels docking in the Greenpoint section. The Immigration Commissioner, he said, had promised to have inspectors there hereafter. Friday night Alderman McGuinness discovered seven coolies.

Hackensack Street Blocked

Tailor Shop Fire Halts Traffic and Trains for an Hour

Main Street, Hackensack, N. J., was blocked for about half an hour last night by a fire in Slimo Brothers' tailor shop, near the Susquehanna Railroad station. Automobiles were stalled for several blocks, most of their drivers being from out of town and dubious about attempting unfamiliar detours.

So congested was the street that a hook and ladder truck was able to get somewhere near the fire only by straddling the railroad track. As a train was due, the flagman at the crossing became worried. The firemen refused to budge, and he had to flag the train. The fire was extinguished without difficulty and caused slight damage.

Chicago Brokers' Firm Fails

CHICAGO, Aug. 12.—Harry A. Massey & Co., La Salle Street brokers and grain dealers, closed their doors to-day. The recent failure of Nast & Co., which was said to have owed the Massey organization \$400,000, is blamed for to-day's failure. An involuntary petition in bankruptcy was filed in the District Court, and the Chicago Title and Trust Company was appointed receiver.

Woman, 68, Bathing Near Summer Home, Drowns

Married Daughter Sees Crowd and Finds Mother's Body on the Beach

Mrs. Carrie Gates, sixty-eight years old, of 8789 108th Street, Richmond Hill, Queens Borough, who was spending August with her husband, Charles Gates, at Long Beach, was drowned yesterday morning while bathing in front of her summer home. She was a strong swimmer and was not far out in the ocean. She is believed to have suffered a stroke of apoplexy.

Her husband, two married daughters and a son were away from home. Mr. Gates was at work at the establishment of Hiers & Gates, manufacturers of crude rubber, in Manhattan, of which his son, Charles Gates jr., is a partner. A daughter, Mrs. Thomas Mitchell, who has been married only a short time, and who, with her husband was passing the month with her mother, had left the bungalow for a ride in the Gates automobile. When Mrs. Mitchell returned she noticed a crowd on the beach and saw the body of her mother.

Girl Risks Life Trying To Save Drowning Boy

Heroic Attempt Fails and She Is Rescued by Another Who Dives Fully Dressed

DANBURY, Conn., Aug. 12.—Walter May, twelve-year-old son of Thomas J. May, of 806 West 184th Street, New York, was drowned to-day in Peach Lake, near North Salem, N. Y., in spite of the heroic efforts of two girls to save him, one of them almost losing her own life.

The boy was seized with cramps and called for help as he sank. Mildred Fisher, of New York, fourteen years old, who was swimming near by, hastened to his assistance. She dived repeatedly in an effort to bring him to the surface and when she gave up, at last, was so exhausted that she was unable to reach shore.

Beatrice Purdy, who had run to the shore of the lake on hearing the cries, plunged in fully dressed and brought the other girl ashore. The boy's body was recovered later.

Best & Co. Presents Autumn Gowns for Street and Afternoon

EVERYTHING from a twill taitleur to a Salome velvet gown; all the way from a straight chemise frock to the most sophisticated of draperies. Each is new, smart and correct of its type. Prices range from 45.00 to 175.00.
