

Constantinople Is Seized By Kemal, Allies Ordered Out, British Menaced

Mudania Truce Voided, Troops Move on Chanak; Entente Police Fire on Rioters, Killing Several Entente Diplomats Refuse to Depart

Tell Angoristas Soldiers Will Slay, as Christians in City Fear Massacre

CONSTANTINOPLE, Nov. 5 (By The Associated Press).—The Nationalist government is in control of Constantinople. Rafet Pasha is the new Governor, and Hamid Bey, representative of the Angora government, has ordered the Allied troops out. In a note to the Entente he demands evacuation of the Allied forces.

An Allied extraordinary council decided to-night to refuse categorically the Nationalist demand for military evacuation.

The Turks have torn up the Mudania armistice convention and are advancing into the Chanak area occupied by the British and other neutral zones.

The landing of Allied or American sailors from the warships will not be permitted unless by special permission of the Angora government.

This pronouncement is made in one of two additional notes which Hamid Bey handed to the Allied commissioners to-night.

Since noon Saturday the Nationalist administration is declared to have been established, and, in celebration of this, masses of excited Turks have been engaged in disorders. Students marched against the palace and riotous mobs engaged in such manifestations that it became necessary for the Allied police to fire on them, several of the Turks being killed or wounded.

Christians Fear Massacre

The Christians in the Stamboul quarter throughout Saturday night were seeking shelter and protection from what they openly feared—a Turkish massacre.

To-day, however, the government authorities issued orders that all disturbances should be rigorously put down. The Allied High Commissioners accepted the new regime, and there was nothing left for the Sultan's ministry but resignation from office.

Troops Guard Sultan's Palace

There seemed danger for a time that the radical forces would gain the upper hand. The Sultan was denounced, together with monarchy, and Mustapha Kemal Pasha was acclaimed as "our President." It became necessary to throw guards of troops around the Sultan's palace, within which Mohammed VI, now Caliph only, is spending his hours.

Text of Note to Allies

The note presented by Hamid Bey to the Allied commissioners this afternoon reads:

Rope Awaits Sultan's Ministers, Rafet Warns

LONDON, Nov. 5.—"The London Times" Constantinople correspondent, relating passages of the interview between Rafet Pasha, the new Nationalist governor, and the Sultan, which was the prelude to the momentous decision by the Angora National Assembly, said that when told that the dual system must cease and the government of Constantinople resign the Sultan replied that he must decline to do the bidding of Angora and insisted that he could only be legally deposed by the whole Islam world.

He also asserted that his ministers should retain office until the Angora Assembly definitely assumed control of the capital, whereupon Rafet broke out: "If they continue in office against the will of the people it will be the rope for all of them."

Conservatives Seek Alliance With Asquith

Move to Make Ex-Premier Lord Chancellor and Viscount Grey Foreign Secretary Is Reported

From The Tribune's European Bureau Copyright, 1922, New York Tribune Inc. LONDON, Nov. 5.—With 1,286 candidates nominated to fill 558 contested seats in Parliament, the noise of the electoral battle here will rise crescendo from now until the votes are counted, a week from Wednesday.

Although Lloyd George's threat to flood the constituencies with last-hour candidates has not materialized, the enigmatic personality of the Welshman still dominates the political situation. It was reported to-day that he has chartered a special train for a nationwide speaking tour the coming week, following the American Presidential methods. It is said that he will be accompanied by Lord Birkenhead, and that he will make ten-minute speeches up and down the country in true whirlwind fashion.

Conservatives Are Uneasy

While it is generally believed that the former Premier will have only a handful of followers in the next Parliament, the reaction to his campaign on the other parties can be seen in two directions. In the first place, the Conservatives are so uneasy over his position that they have been making overtures to the Asquith Liberals for some sort of working agreement should they fail to win a clear majority. That Asquith would go to the House of Lords, becoming Lord Chancellor, and Viscount Grey, whose recent speeches have made a great impression on the country, would succeed the Marquis of Curzon as Foreign Minister, the latter retiring with a dukedom, are possibilities that are being canvassed in the event that the Conservatives get Independent Liberal support.

Mr. Asquith himself has shown indifference to this proposal. Last Friday he said: "I would not in any circumstances join the government if the condition of my adhesion were subservience or even a suspension of my Liberal convictions." At the same time the fact that he made this statement is regarded as proof that the Conservatives have made overtures to him.

Another development in the situation is the rapid heading off of the Liberals by the movement looking to a reunion of the Liberals. This is a rank and file movement which was started without encouragement either from the Lloyd George headquarters or from the Asquith camp, but it is growing so strong that it is not likely that the leaders of the two wings will be able to resist it.

Asquith and Grey Favor Reunion

Both Asquith and Lord Grey favor a Liberal reunion, but they are unwilling to let Lloyd George dominate it—at least to the extent he did when he was Premier. It is not certain, however, that the movement will develop quickly enough to count for much in the election.

Flames, Starting Early in Morning, Continue All Day in Heart of the City

DUBLIN, Nov. 5.—Armed republican raiders seized the Rotunda Rink post-office here this morning, appropriated all the cash they could find, saturated the mail with petrol and set fire to it. The building was burned to the ground. Physicians, nurses and volunteers stood by in the maternity hospital next door, ready to remove the helpless mothers and babies should the flames reach that building. This danger, however, was averted by the firemen, who devoted their energies almost wholly to the task when they found the interior of the postoffice a roaring furnace.

Pastor Vogel's Text "Faith, Hope and Charity"; Day Opens Fair, Turns Rainy

DOORN, Holland, Nov. 5 (By The Associated Press).—The former German Emperor, once all-highest of the empire, and Princess Hermine of Reuss were married to-day at the House of Doorn, where the war lord abides in exile. This second venture was in strange contrast with that day in 1881 when as Crown Prince he wedded Augusta Victoria, daughter of Grand Duke Frederick of Schleswig-Holstein.

Several of the children of that first union were present to-day to set the seal of family approval to the new alliance.

There were two ceremonies, a civil contract drawn up and signed by "Wilhelm II" and "Hermine, Reuss," as they affixed their names, and a religious ceremony conducted by the former court chaplain, Dr. Vogel, according to the Lutheran rites.

District Attorney Joab H. Banton was sternly rebuked in a letter written yesterday afternoon by Governor Miller for having adopted an attitude toward the prosecution of election frauds that "may have given encouragement to lawbreakers," and was warned that there will be no relaxation after the election, and that if crimes against the ballot are committed, it will not be enough to send a few underlings to Sing Sing Prison, but that a searching inquiry will take place in order to convict not merely the underlings, but also those higher up who are really responsible.

"Public officers who either wink at, condone or assist in violations of the law will answer to me," the Governor told Mr. Banton, adding that he was fully cognizant of his power to supersede the District Attorney, and that he would exercise all of the power that may be necessary to prosecute anyone, high or low, guilty of complicity in the most heinous crime of all—crime against the people's suffrage.
