WANTS A TARIFF BUREAU. Edward F. McDonald lays down the principles of the tariff.

WANTS BACK HIS PRESENTS. An unhappy ending of Mr. Charles Herold's "Wife's" presents.

After a courtship of seven years Charles Herold, a butcher in East New York, has quarrelled with Julia Hauptman of 473 Kosciuszko street, Brooklyn.

"I am in favor," he says, "of a tariff for the protection of American labor and industry, that will furnish the means of supporting the Federal Government, maintaining an efficient army and navy, with proper protection for our seaboard cities by sea coast defenses, as recommended by Samuel J. Tilden; and in the words of the Constitution providing for the common defence and general welfare."

"I would favor the establishment of a bureau for the supervision of all matters pertaining to the tariff, making annual reports showing the amount of the tariff on each article, the amount of the duty on each article, the amount of the duty on each article, the amount of the duty on each article."

"I have consulted a lawyer he said and could do nothing. Now and then tell you the reason and would not marry in such a family as you are."
