

HAVING FUN WITH THE LAW.

THE LAWSYER THINKS HE CAN KEEP HIS MOUTH SHUT FOR THREE YEARS BY INVOLVING HIM IN THE DELAY OF A MURDERER'S DEATH.

There will be an assembly of the Supreme Court, General Term, at 11 o'clock to-day. Similar and gloomy at the murder and Wood, the negro, who killed a man in Hastings, will be brought down from the State Prison to be sentenced to death. The United States Supreme Court having decided against the State in the appeal of the case.

Wood's lawyer, H. A. H. is determined to keep his client in jail as long as it is possible. H. A. H. will make any further effort to save Wood from the death chair.

The counsel of the State says that the case has not received legal notice that the case has to come up. A man from the District Attorney's office called on Lawyer Haire yesterday and handed him a piece of paper on which was written the following:

The papers in the case of the People v. Wood, Robert J. Haire, counsel at large, to the State, for retention of the case, are not to be signed. Mr. Haire took and is a notice that his client was going to be released. He looked at the State and was surprised to find that the State had not yet appealed from the judgment on the case. He called on the District Attorney and was told that the case had not yet been appealed from the judgment on the case. He called on the District Attorney and was told that the case had not yet been appealed from the judgment on the case.

THE PAPERS FOR FUN AT COLUMBIA.

Sophomores Writely Make Themselves Obnoxious to Candidates for Admission.

One hundred and thirty-five young students presented themselves yesterday at Columbia College as candidates for admission. The examination yesterday was in Greek, under Prof. Forster's supervision. The entrance examinations will be continued every day during the week.

The new men who pass their examinations successfully will constitute the class of '96. The former freshmen, class of '94, who have become sophomores now, gathered in large numbers around the college yesterday morning to gape the new men and impress upon them a sense of their responsibility as the superior cleverness and wit of their predecessors, the sophomores, '95 Fresh' had been written in green and white chalk along the sidewalk leading to the college gate and on the walls.

The candidates were permitted to enter the college grounds unmolested, and it was not until they had reached the examination papers that the noise began. Somebody threw two or three huge giant firecrackers up to the door of the room in which the examination was being conducted. The hallway was smoky and the odor of sulphur powder. Three or four more went off under the same circumstances. The candidates to see the humor of this disturbance, left the room and walked across the campus in the direction of the residence of the candidates. Later three policemen appeared outside and kept guard at the gates.

IN CAPT. BYRNES'S ROOM.

MRS. MORSE'S TESTIMONY IN HER OWN DEFENSE.

She Entered the Room to Get Some Ribbons From a Trunk—Her Husband Suspicioning Her and Calling Her a Thief.

Edna Morse, a tall, slender woman, who wears a stylish costume and a long, dark coat with a Dreyfus cap, was the defendant in a suit for absolute divorce which was tried before Justice Cullen and a jury in the Circuit Court, Brooklyn, yesterday afternoon. The husband, James W. Morse, is a grain merchant.

Up to October, 1889, he lived with his wife and their two children, on Forty-third street, South Brooklyn. Mrs. Morse is now living at 284 Willow street, Hoboken. The correspondent is Captain John Byrnes, late of the yacht Viscon. He was not in court. He was a boarder in the house.

The two children, Nellie Fane, servant, and Willie Morse, the fourteen-year-old son of the couple, testified to a scene in Capt. Byrnes's bedroom on Oct. 9, 1889. The husband found his wife there sitting on the bed. He called by Nellie, the servant, and Willie. He testified to the fact that Mrs. Morse was sitting on the bed weeping. A Nellie came in and said: "The Captain was here; he shot me; if you will, Morse; it cannot be helped. It is not her fault."

Louis Sharp, a farmer, from Oswego, and his wife Francis, relatives of Mr. Morse, testified that after the divorce proceedings were begun Mrs. Morse told them that many a woman had done worse than she. In opening the case for the defendant Lawyer Wernburg hinted to the jury that the husband might have arranged with Capt. Byrnes to get her out of the house.

What will be the outcome of the divorce caused by Chairman Finley's decision against the Association? It is believed that the Association will probably go to pieces. In these circumstances unusual interest is attached to the case. The Association will probably go to pieces. In these circumstances unusual interest is attached to the case.

THE NEWS OF THE RAILROADS. The St. Louis and Kansas City Road Defaults on Its First Mortgage Coupon.

Yesterday the Toledo, St. Louis and Kansas City Railroad defaulted on the coupons of its \$9,000,000 first mortgage six per cent. bonds. But it was only a technicality and the money will be forthcoming to-day. It was all on account of an inside job.

The row lasted all day yesterday, but a truce was finally fixed up. There was ostensibly some difficulty in obtaining a proper list of the bonds which should be paid. But H. O. Armour is said to have been back of the treasurer, and there is an idea that the former was in the management of the road.

Whenever any penalty shall have been assessed against any of the members of the Association, the chairman shall within ten days of such assessment, or such longer time as may be fixed by the board of directors, pay the amount of the penalty and all interest thereon to the Association.

YOUNG DIED BY ARSENIC.

SUSPICION CAST ON HIS WIFE BY WEST CHESTER, Pa., June 1.—The body of J. Morris Young, the young miller of Marshalltown, who died on May 8, about whose sudden death there have been rumors of foul play, was examined by Coroner McFadden yesterday in the presence of Dr. Formad of Philadelphia, Dr. Mercer of Germantown, and Dr. Dunn of West Chester. A hasty examination showed that the body contained a large quantity of arsenic.
