THE ROW AMONG THE SOCIAL DEMOCRATS APPROACHING A CLIMAX.

Calling On Another Liars in a Crowded Mass Meeting—Strong Opposition to the Leaders—Four Emigrants Wanted in South-West Africa—A Blow at Women Attorneys—The Population of the World.

Berlin, Sept. 13.—The dissensions in the Social Democratic party are rapidly approaching a climax. The rebellion of one year ago against the Parliamentary leaders, Liebknecht, Sinner, Reibel, and Auer has broken out with increased violence, as was prophesied at the time of its suppression in the Halle Convention last October. The outbreak on the part of the Social Democrats has been in the opinion of some times in anticipation of the present National Congress of the party at Erfurt.

On last Wednesday night it was made. Six thousand Social Democrats gathered in the Coburg beer garden. In the sixteenth district, all tables and chairs were removed to make way for the crowds. All standing room was packed, and the heat and confusion were terrible.

Her Wildberger, an upholsterer, whom the Independent Minckel defeated for Parliament in the third district, led the attack on the Social Democratic course in Parliament. The Social Democratic demands, as expressed in their programme, he said, existed only on paper. The socialistic deputies were too timid to read them and the party's principles were left unworked. He said that he had used his own abilities to bend their knees to the existing order of society. They preached and oratory, as if indulging the hope that anything could be accomplished by words. Acts and not words were needed, he said. He said that the labor question cannot be answered by the sprinkling of money.

The Parliamentary leaders were then denounced as bribe takers. It was a serious matter to call honest men scoundrels, so the speaker went out what he most knew. Auer was a paid agent of the reactionaries. Auer was a paid agent of the reactionaries. Auer was a paid agent of the reactionaries. Auer was a paid agent of the reactionaries.

THE SARATOGA CONVENTION.

ALL INTEREST CENTERED IN A CONFERENCE IN ALBANY.

Gov. Hill Said to Have Decided on Senate Nomination for Lieutenant-Governor—The Brooklyn Men Will Determine to Oppose Flower's Nomination.

SARATOGA, Sept. 13.—Rainy skies in Saratoga today were the accompaniment of a political situation that was far from clear. The trouble was not the conference at Albany, but the information, and the new names, and the measure and unsatisfactory quantities. Gov. Hill, Chairman Edward Murphy, Jr., of the State Committee, Chairman Daniel G. Griffith of the Executive Committee, Richard Croker, and other Tammany magnates, Speaker William F. Sheehan, and a number of State Committeemen, were reported to be discussing the important questions that are to be submitted to the Convention on Tuesday. The head of the tickets was not one of these. The Flower strength is unimpaired, but on the question of the second place there was much to be said, and it was said, Mr. Sheehan and his friends, among whom Mr. Murphy and Mr. Croker were conspicuous, said that he could be nominated and would go before the Convention. But Senator Donald McNaughton, with his boom from Rochester, was on hand, and it was said that he would be nominated. It was also reported, some of those present disputing the Governor's preference for ex-Judge Maynard. The arrival of the Brooklyn delegation at Saratoga was awaited with great interest. Brooklyn does not seem to be concerned in the conference, unless District Attorney Ridgeway, who is not in evidence here, may be taking a part in it.

The Brooklyn delegation among the assemblage that the weather makes prisoners of, and the conference here to-morrow with importance. It includes James Sheelin, William H. McCarty, Thomas H. Pearsall, and Felix Campbell. They say that the attitude of the Kings County Democracy against Flower is and will be unchanged. This attitude is represented to be quite independent of the fact that they have been heretofore to whom they are committed by their political judgment and considerations of admiration, as well as unaffected by any considerations connected with the control of the management of the Brooklyn Bridge. They avow their purpose of standing up to be counted for Chamberlain and opposition to the ticket proposed. They want the Democracy of the State to understand that they take no part in the nomination, and cannot be held responsible for it in any way. They point to the stand they took at the time of the famous vote in the State Committee for that place. It was urged by the Brooklyn delegation that the Brooklyn delegation at the time of the famous vote in the State Committee for that place. THAT THEY WERE INSURED. But discovered that they had paid the premiums to an Agent Swindler. It would be interesting to know how many residents of Bloomingdale are resting easy in the faith that they are insured against fire by the German-American Fire Insurance Company. The company has a long record of looking old gentlemen the regular rate for insurance on furniture and various household effects, the amounts varying from \$500 to \$2,000 and \$3,000.

Such a man has been canvassing the west side of town for two months or more, and has succeeded in securing a large number of patrons to part with their money, he promised to send them their policies. That was the last they heard of him, and those who thought there was something wrong went to the company and learned that the smooth-talking man was not an agent of the company and that his name was not on the list of agents. On Saturday last, Sergeant Titus and his assistants, in the course of their duties, discovered a man who had been canvassing for the German-American Fire Insurance Company. The man was found in the act of writing a policy for a man named John Smith, who had been canvassing for the German-American Fire Insurance Company. She Goes on to Queensland in a Battered Condition—The Other Vessel Was the Mail Steamer "The Arizona" from New York to San Francisco.

QUEENSTOWN, Sept. 13.—The Gun Line steamer ARIZONA, Capt. Brooks, from New York Sept. 5 for Liverpool, arrived here today in a battered condition. Passengers report that at about 11 o'clock on that night, while the vessel was in a fog, but steaming rapidly, an unknown sailing vessel, believed to be a large coasting schooner, struck stern on the Arizona's starboard quarter. The passengers, who were in bed at the time of the accident, were awakened by the shock and noise of the collision, and all rushed on deck. It was seen that thirty feet of rails and a lifeboat had been smashed, the deck was damaged, and that several plates had bent. Owing to these ominous evidences of a collision it was at first believed that the consequences of the accident were more serious than proved to be the case. The passengers were not hurt, but the fear of all were soon allayed. The Arizona for a long time searched in vain for the unfortunate sailing vessel. A part of her bowsprit was left on the Arizona's deck. The wreckage seen it is feared she found.
