

THE LONG FIGHT ENDED.

UNCONDITIONAL REPEAL CERTAIN TO BE ADOPTED BY MONDAY NIGHT.

The Decks Cleared in the Senate Yesterday by the Disposal of All the Amendments in Sight—That Revising the Bland-Allison Act Came Within Five Votes of Being Adopted—The Repeal Bill Out of Committee and Reported to the Senate—Mr. Voorhees Announces that He Will Ask for a Vote at 2 P. M. on Monday—Senator Wolcott Lectures Republican Senators for Deserting Their Friends in the Silver States, and Intimates that the Senators from Those States Will Not Aid the Republicanism when the Tariff Bill and the Bill to Repeal the Federal Election Laws Come Before the Senate—Senator Sherman Urges the Necessity of Authorizing the Issue of Bonds to Maintain the Gold Reserve, and Denies that Such Authority Now Exists—Senator Gorman Reviews the Long Struggle, and Declares that the Delay for Weeks Became Necessary in Order to Convert Enough Men to Repeal.

Inclined to think not, but when the truth as to the efforts for compromise is fully developed it will be shown that the Democrats did propose an issue of bonds to the Republican supporters... Mr. Sherman (Wep. O.) expressed the deep regret that he felt for the Senators and people of the silver-producing States...

PHONOGRAPHING IN THE SENATE.

Washington, Oct. 28.—Unless the unexpected happens the Wilson bill, providing for the repeal of the purchasing clause of the Sherman act, just passed the House of Representatives, will reach the floor to-day. It will pass the Senate on Monday...

MOVING QUICKLY TOWARD A FINAL VOTE—All Amendments Voted Down.

Washington, Oct. 28.—The great conflict which has been carried on in the Senate chamber for the last few days has reached the critical stage, and one of the indications thereof was that the galleries were filled even before the hour of meeting this morning...

MR. SHERMAN'S FUND SCHEME.

Mr. Sherman then went into the history of the fund scheme, and explained the various authorities to show that it could not be used for the redemption of United States notes...

MR. GORMAN REPLES TO SHERMAN.

Mr. Gorman (Dem. Md.) said that he could not help noticing the very remarkable attitude of Mr. Sherman in his speech...

THOSE WHO TRAVEL BY SEA.

STERILIZED MILK A BOON TO THE GLOBE TRAVELER, WHOEVER HE BE.

Especially is it Acceptable to the Invalid—Put Up in Sealed Bottles It Always Keeps Sweet and Pure—Its Value in a Railroad Journey.

Those who go down to sea in ships—and their number is legion, the great army of ocean travelers that grows greater each year, are bidden goodspeed by hosts of friends and relatives. It has come to be the custom, and it is a pretty one at that, to send some good-by token to the traveller at the moment of his departure. This token usually takes the form of fruits or flowers, varied by bonbons if the globe trotter is a woman; cigars if it is a man. While these are delightful to themselves, in the midst of the tossing Atlantic, when *mal de mer* commences to come and all food is distasteful, one finds that these delicate part. Modern ingenuity has provided a grateful companion for an ocean voyage, and is sighted it always proves most acceptable to the journeyer. This companion is the Appleberg Sterilized Milk.

However vigorous and possessed of good health a person may be, there are days on the ocean when the question of digestibility is of the highest importance. The Appleberg Sterilized Milk, though especially adapted for infants, invalids, and children, whose digestive apparatus is feeble, is not to be despised by people of the soundest and most robust frames. On shipboard it is well to lighten the duties of the stomach, and the sterilized milk, by emulsifying or assimilating the fat of the cream within it, does this to perfection. The process is that of boiling, it is then inflamed, but of heating by a specially arranged process up to a temperature not above 135 degrees, the boiling point being at 212.

For ocean passengers the Appleberg Sterilized Hygienic Milk Company, whose offices are 710 Sixth Avenue, between Forty-fifth and Forty-sixth streets, puts up boxes of either six or twelve cans, each containing a quart of the milk, costing \$1.10, the latter \$2.00. So complete is the company's system of delivery that the bottles are delivered on the steamer in each case within six hours of the time of sailing. The package is marked plainly and directed to the care of the steward. The sterilization process is a careful one that all danger of fermentation is avoided. It is positively guaranteed that the milk has been proved many times over that it will keep sweet and pure during the whole of the longest voyage.

After twenty-four hours ordinary milk loses its cream; sterilized milk loses no cream, for it has been completely intermingled with the milk, and is as rich on the sixth day as on the first. This is quite as important a piece of news to people in perfect health as it is to invalids and children, for fresh milk has been one of the things hitherto practically unobtainable on shipboard, and never until now has it been possible for people to carry their own supply. Milk that is sterilized will keep its freshness without being put on ice, and the box can be laid under the berth during the voyage. However, travelers' use is only a part of the mission of sterilized milk. The company is fully equipped for daily delivery, and the milk, when it does not need to be packed for a journey, costs only ten cents a quart. Its special merit is that it is as good as fresh milk in people's minds—that it is not a medicine, nor is it a tonic. The process of sterilization does not alter its taste nor its palatableness in the slightest; in fact, while it is infinitely more nutritious, it is also more delightful to the taste. For ordinary use it is particularly valuable, and its low price puts it within everybody's reach.

Arrangements have recently been made in the company's office for a trade outside of New York. The milk is shipped to all other parts of the country on order. For railroad journeys of tremendous length the Appleberg Sterilized Milk is a most refreshing. It is nature's own remedy for tired people, but nature's remedy must be of scientific safeguards and of its own own—Ad.

Washington, Oct. 28.—Ex-Senator Garland, in his heavy bereavement, has been the pathy of all his former associates in the Senate. Miss Daisy Garland had a number of friends among the young people in official life, among the warmest being Miss Mary Jones, daughter of Senator Jones of Arkansas, and Miss Withall, daughter of Senator Withall of Indiana that she died. Her mother, Mrs. Garland, took entire charge of her father's household, and managed all of the entertainments and receptions given with the skill of an experienced hostess. She was born in Little Rock, Ark., twenty-four years ago, where her parents lived, and it was there that she received her education. Her father, John Garland, and probably all the relatives of the family here will accompany the remains to Little Rock.

Silver Continues to Decline.

Washington, Oct. 28.—Silver continues to decline, the London price, as reported to the Treasury Department to-day, being one-fourth of a penny lower than yesterday, with the 63-cent per ounce, or about 71 cents in gold.

William Scamlin Convicted of Wife Murder.

COOPERSTOWN, Oct. 28.—The case of William Scamlin, the Ontario wife murderer, was given to the jury last night. The jury was out nearly all night, and this morning, at the opening of court, brought in a verdict of guilty of murder in the second degree. Justice Walter Lippitt immediately sentenced Scamlin to imprisonment at Auburn for life. The crime for which he stands convicted was a most brutal one, and was doubtless a result of his insanity. There was no doubt of his guilt, and the only question in the view the jury would take as to his insanity.

A Deceptive Name.

Dealers advertise Hand Sewed Welt Shoes which is apt to lead people into the belief that shoes so advertised are sewed by hand. Such, however, is not the case, so called hand sewed welt shoes are sewed on the Goodyear machine, there is no hand sewing whatever about them and every reputable dealer will tell you so. The shoes we make and sell for the past 17 years are strictly hand sewed, hand stitched, hand lasted, hand shaped and hand heeled, are shaped to fit the foot, which no machine can accomplish, and will retain this shape as long as the shoe lasts. We now make more stylish and more durable electric machines for trimming and polishing purposes we are now enabled to sell our \$3.50 shoes for \$3.00, our \$4.00 shoes for \$3.00 and \$3.50, our \$5.00 shoes for \$4.00.
