

NO QUARTER FOR THE ANTIS.

AROUND MEETING OF WOMEN REFUGIANTS AT MRS. ROCKWELL'S. Mrs. Mary Johnson... The meeting was held yesterday afternoon at the home of Mrs. John D. Rockefeller...

It will soon be like the house that Jack built. It is always expected that when the public is invited to take any part in public affairs was last year honored with one of the most important gifts of the State. She was made a Commissioner on the World's Fair.

"We have expected opposition from the beginning. Men would quite naturally be opposed to a great extent to the line of their old and deep prejudices. Their opposition was therefore natural and expected."

One of the Brooklyn "antis" the other day recommended that the woman suffragists work more and talk less. The women for whom this advice was meant say that this is a campaign of education and talking is, therefore, their only weapon.

One of the rather striking features of the movement is the fact that it is being carried on by women who are not only well-to-do but who are also well-known in their own circles.

It is a fact that the women who are active in the movement are not only well-to-do but who are also well-known in their own circles. This is a fact that is not generally appreciated.

ELISHA M. FULTON, JR.'S, TURN

HE AND HERMAN CLARKE ARRESTED ON DAVID'S COMPLAINT. Both Give Bail for Examination this Morning—Warrant Out for Wallace B. Smith—Each Side Accuses the Other—Clarke Says that William M. Ivin Was Not True, Gives Testimony Which Was Not True.

The only members of the late brokerage firm of La Montagne, Clarke & Co. not under bonds for the alleged embezzlement of \$75,000 from Florence B. David are E. M. Fulton, Sr., and Wallace B. Smith. A warrant has been issued for the arrest of Mr. Smith, who is now in England. Dr. J. M. Fulton, Sr., was a special partner in the firm and lost a great deal of money carrying the house through the height of the panic last summer. E. M. Fulton, Jr., was arrested on Tuesday evening at his father's home, 117 East Twenty-first street.

The complaint and affidavits filed by Dr. David in Justice Talbot's court detail his side of the case at great length. Mr. David says that he instructed the firm to buy for him certain shares of the common stock of Canadian Pacific and certain July "long" wheat and September "long" wheat, and to carry them until the prices should rise. If the price of wheat fell before the date of delivery, the firm was to sell the wheat and buy in its place wheat of later delivery, carrying it from month to month until a sale should be ordered. Mr. David believes that the firm mixed the wheat they bought on their own account with the wheat they bought for him and carried it all on his account.

Mr. Fulton, Sr., said yesterday that he found the firm had sold wheat to other parties and had sold out all of their long wheat and were actually selling him the wheat which they were carrying for Dr. David's account. He said that he had ordered the firm to buy wheat for him and that he had ordered the firm to sell it for him. He said that he had ordered the firm to buy wheat for him and that he had ordered the firm to sell it for him.

YACHTMAN'S CARGO AFIRE

The Finns Brokers' Corporation New York City. The Ward line steamship Yucatan came on to her pier at the foot of Wall street at noon yesterday with a fire of mysterious origin, in her after hold, where a large quantity of tobacco and hemp was stored. The fire was discovered at 8:30 P. M. on Tuesday. The ventilators connecting with the after hold were stopped up with canvas and steam was turned into the compartment where the fire was smoldering. The passengers were not frightened, partly, perhaps, because of their nearness to port and partly because there were so few evidences of the existence of a fire aboard.

This did not stop at Quarantine yesterday morning, the Health Officer having consented to board her in the lower bay to allow her to get to her dock in a hurry and land her passengers. When the last one had got down the gangplank the after hatch was raised and an adventurous fireman descended to fast the hooks to bales and barrels, which were hoisted on deck. The smoke was so thick and penetrating that it was almost impossible to see a few feet in front of one. The fire was extinguished at 11:30 P. M. The ship was towed to the pier and the cargo was damaged.

The Ward line officials apparently wanted to put out the fire without the help of the fire department. They were not permitted to do so. In fact they were making poor progress in the job. The fire was extinguished at 11:30 P. M. The ship was towed to the pier and the cargo was damaged.

GOING TO BRING PEARY HOME

AN EXPEDITION HE ARRANGED FOR BEFORE HE WENT NORTH. He Will Start About June 24, and Will Be in Charge of Mr. Henry G. Bryant—Peary Contributed Most of the Funds Required for It—The Party Will Have a Month Before Peary's Return to Explore the Little-known Coast of Ellesmere Land.

The Sun is informed that the Geographical Club of Philadelphia has completed the plans for the forthcoming expedition organized to effect the return of Lieut. Peary and his party to the United States. The expedition, to be known as the Peary expedition, was organized in 1894, was arranged for by Lieut. Peary before he started on his present venture, and the funds necessary for chartering the vessel were, in the main, supplied by him. The arrangement of the details of the enterprise was entrusted to Prof. Angelo Heilprin, President of the Geographical Club, who has already made two voyages to the Arctic Regions in connection with Peary's previous explorations.

Before the Falcon sailed from Portland in July last, Lieut. Peary expressed a wish to have the expedition of 1894 go out under the auspices of the Geographical Club, and if possible under the direction of Prof. Heilprin. Since unforeseen events will prevent the latter from going north, the command of the expedition has been turned over to Mr. Henry G. Bryant, the Recording Secretary of the Geographical Club. He is designated by Lieut. Peary as leader inasmuch as Prof. Heilprin was not able to accompany the expedition.

The party will leave New York about June 24 on one of the passenger steamers sailing to St. John's. At that port the steam whaler Falcon will be in readiness to sail north with the party on or about July 4. The first stop will be made at Godhavn on Disco Island. It is expected that the party will be in St. John's as quickly as the condition of the ice permits, and a brief visit will be made to the settlement of primitive Eskimos near Cape York. Then a direct run will be made to the Peary headquarters at Bowdoin Bay, in Inglefield Sound, in latitude 77° 45', which point is about 100 miles from the north pole. Lieut. Peary and the members of his inland party will not be accompanied by the expedition on its journey to the north; but it is deemed advisable to acquaint the members of the party with the conditions of the coast and the presence of the Falcon and at the same time to give the small and gain assurance of the success of the expedition.

As Lieut. Peary is not expected to return to his headquarters before the last of August, the ship will be available for purposes of original research and exploration for nearly a month of the auxiliary expedition contemplate by the club. The expedition will consist of an examination of the Little Ice shore of Enderby Land, a visit to the coast of the north-west of Ellesmere Land, and a visit to the coast of the north-west of Ellesmere Land, and a visit to the coast of the north-west of Ellesmere Land.

The ship is due at Bowdoin Bay, however, on the 15th of August. The party will be in St. John's as quickly as the condition of the ice permits, and a brief visit will be made to the settlement of primitive Eskimos near Cape York. Then a direct run will be made to the Peary headquarters at Bowdoin Bay, in Inglefield Sound, in latitude 77° 45', which point is about 100 miles from the north pole.

MIRING BANKER GRONLUND

Got Credit With Great Obligation for \$700 Worth of Tickets the Day he Failed. Banker G. A. Gronlund, owner and operator of the Scandinavian and Finland Emigrant Company, Limited and busted, is still among the missing. Friends who were seen yesterday said he had not been in the city since Saturday, when he made an assignment. They said he had not been in the city since Saturday, when he made an assignment. They said he had not been in the city since Saturday, when he made an assignment.

Passengers who claim tickets that they bought on the other side at one of Gronlund's European offices continue to arrive at the office in the street. No provision is made for them further than to impart the information that their money is gone, and their orders for tickets are not good. A clerk at the office said that those who didn't have money to buy new tickets were being cared for by Finn who had a little money to spare. Those who did have money were sent to other ticket offices. There were three clerks in the office yesterday. They were writing letters to the 1,148 creditors of the company, telling them of the failure and asking for statements of their accounts. Gronlund's absence has already cost his creditors a large sum of money.

The Sun reporter learned yesterday that on Saturday Gronlund left the city for New York, and that he had a large amount of money with him. He was seen at the office of the Canadian Pacific agent in the city, and it was learned that he had a large amount of money with him. He was seen at the office of the Canadian Pacific agent in the city, and it was learned that he had a large amount of money with him.

Gronlund's failure may have the effect of directing the attention of Superintendent Franklin to the business of the city. It is believed that he will be able to secure a large amount of money from the city. It is believed that he will be able to secure a large amount of money from the city.

MONMOUTH PARK ASSOCIATION

Executed and Assigned Against the Club. The Monmouth Park Association for 1904 meeting for the rent of the offices occupied by the association at 60 Madison avenue. The rent was at \$2,000 per year, and default was made on the quarterly payment due on Nov. 1, 1903, and others since then. Mr. Jackson also obtained an attachment against the association for \$200,000 for the rent due on May 1. The Sheriff levied on the office furniture and fixtures, and also on the stock of the association. The stock was sold on May 1, and the proceeds were used to pay the rent. The association is now in a state of liquidation.

WILL NEED A BIG BERTH

Coa Coughlan, the Irish Giant, Sells for Home on the Teutonic. Big Coa Coughlan, popularly known in sporting circles as "the Irish giant," sailed home on the White Star steamer Teutonic yesterday afternoon. He was only recently discharged from St. Luke's Hospital, and needs complete rest and change before he can hope to complete his tour of the world.

Coughlan had a very close call while laid up, and owes his recovery to the expert care of St. Luke's faculty and his own superb physique. He hopes to return from Ireland in the fall and resume his active connection with the world's record book.

His statement of the circumstances is an amazing record of a great deal of trouble. He was in the city of New York on the 15th of April, and was in a right-halved smash which did the mischief. He was in the city of New York on the 15th of April, and was in a right-halved smash which did the mischief.

THE VICIOUS BENEFIT GAME

Fraudulent Collectors for the Protective Order of the American Firemen. At noon yesterday a message summoning him immediately to the Importers and Traders' National Bank, at Broadway and Murray street, was received by Deputy City Chamberlain John H. Campbell. Mr. Campbell was declared a short time, and when he got to the bank he was informed that two men had been arrested for collecting for the Protective Order of the American Firemen.

Mr. Young had a letter which purported to bear the signatures of Secretary "Silvov" and Treasurer "Bradley" of the order, commissioning them as collectors. In the subsequent investigation it was found that the signatures were those of the Protective Order of the American Firemen.
