

DAN CREEDON THE WINNER

THE BOY WITH DICK O'BRIEN STOPPED IN THE RING.

In a fight of height, reach, weight, and science, Dan Creedon, the Australian, defeated the American, Dick O'Brien, in the ninth round.

Creedon had an advantage in height, weight, reach, and science. In appearance the Australian seemed to be a man of heavy build, but in fact he was considerably younger and did not display the muscular development of his noted rival.

It was a battle in which no time was lost in fancy sparring. After the first round, in which the men sized each other up, they got to work in earnest, and the contest was in short order.

The fight was considered one of the most important of the year. Creedon, since coming to this country from Australia, had suffered only one defeat, that at the hands of Bob Fitzsimmons.

The crowd began to arrive early. The boxes were filled with spectators. The fight was a hard one, and the men were tired.

Creedon was the victor. He had a clean, hard knock-out. The referee counted to ten, and O'Brien was down.

Creedon's victory was a surprise to many. He was a young man, and O'Brien was a well-known fighter.

The fight was a great success. It drew a large crowd, and the prize money was substantial.

Creedon's victory was a great triumph for him. He had proved himself to be a champion.
