

THE TOPICS IN CONGRESS.

SENATOR MILLS OFFERS ANOTHER CUBAN RESOLUTION.

It Recognizes the Independence of Cuba and Appropriates \$10,000 for the Expenses of a Minister-Debate in the House on the Federal Railroad Bill.

WASHINGTON, Jan. 7.—A joint resolution was introduced in the Senate to-day by Mr. Mills (Dem., Tex.) declaring that the expediency of recognizing the independence of a foreign Government belongs to Congress, and that the President shall act in harmony with Congress, also desiring that the independence of Cuba should be recognized, and appropriating \$10,000 for the salary and expenses of a Minister to the Government of Cuba.

The bill lies on the table for the present, and Mr. Mills is to speak on it next Monday.

Several days have been taken from the calendar and passed, including one to pay Samuel C. Reed, Jr., son of Capt. Reed of the famous privateer General Armstrong, \$10,000, being the unexpended balance of the appropriation of \$70,739 made in 1851 as indemnity for the destruction of the Federal Railroad Bill.

The bill for the relief of John N. Quackenbush, late a Commander in the United States Navy, was also passed. It authorizes the President to nominate and appoint Quackenbush to the grade and rank of Lieutenant in the Army on the date of Aug. 1, 1853, and to place him on the retired list as of June 1, 1856, but that he shall receive no pay or emoluments except from the date of such reappointment.

An effort was made by Mr. Sherman (Rep., N. Y.) to have consideration of the Senate bill for a general revision of the laws relating to grading of wheat, corn, oats, barley, and rye. Much opposition was developed to it, and the bill was not taken up.

The House bill for the appointment of a non-partisan commission to collect information and to consider and report on the expediency of grading of wheat, corn, oats, barley, and rye, and capital was reached on the calendar, and was authorized by Mr. Aldrich (Rep., R. I.).

"I have a very shadowy idea," Mr. Aldrich said, "of what the bill is. I know that in a general way it involves an expenditure of \$300,000, and that it is a measure which seems to me the most chimerical idea ever presented to the American Senate. It provides for twelve Commissioners at a salary of \$10,000 each, to be appointed by the President, and to hold office for three years. These gentlemen are to divide the commission, and to visit the various States, and to report on the expediency of grading of wheat, corn, oats, barley, and rye, and capital, and to make recommendations thereon to the Senate."

"Then I am sorry for the House of Representatives," Mr. Aldrich exclaimed. "I am sorry for the House of Representatives, and I am sorry for my colleagues," replied Mr. Aldrich.

At this point the morning hour expired. The minutes of the day were read, and the bill for the relief of John N. Quackenbush was taken up. Mr. Reed (Rep., N. Y.) moved that the bill be passed, and the motion was carried.

FOR A MODERATE TARIFF.

WOOL MANUFACTURERS DO NOT DESIRE EXCESSIVE RATES.

But a Conservative Tariff That Will Give Some Promise of Permanence. The Advertiser's Correspondent writes from London that the wool manufacturers are not in favor of a high tariff on wool.

WASHINGTON, Jan. 7.—The wool manufacturers were well represented before the Ways and Means Committee to-day.

S. D. North of Boston, Secretary of the National Association, presented the views of that body. He said the association considered moderation in tariff rates, and expected only adequate protection, such as experience had proven was necessary to enable them to continue and extend the industry. They desired a chance to expand their mills, but they neither asked nor desired a protective tariff.

Mr. Hubbard said that the bill of the committee was satisfactory to the railroad officials, but that the wool manufacturers were not satisfied with it. He said that the wool manufacturers were not in favor of a high tariff on wool.
