STONE-LADEN SCHOONER SINKS. Captain and Three Men Rescued from a Wreck. NEW LONDON, Conn., Nov. 4.—Capt. J. A. Davis of the schooner Edward McLoughlin and a crew of three men were brought into port at midnight by the schooner Lizzie Godfrey, the McLoughlin having foundered off Point Judith on Wednesday afternoon in a heavy sea. The McLoughlin was going from Millstone to Dutch Point when she was wrecked. The schooner was heavily laden with stone, and she gradually filled. There was no time to get a boat overboard. She went out of sight about midnight. The crew saved themselves by jumping overboard. The McLoughlin was owned by Henry Gardner and Capt. Davis. She was wrecked on a rock which was built in 1882. Wrecker had been engaged to raise the McLoughlin and had started his tug and lights on Saturday morning. The schooner lies six miles from the shore. The McLoughlin was on her way to the north. The McLoughlin was a schooner of 100 tons, and she was built in 1882. Wrecker had been engaged to raise the McLoughlin and had started his tug and lights on Saturday morning. The schooner lies six miles from the shore. The McLoughlin was on her way to the north.

DEFEAT OF THE WHITEWATERS. Sir William and His Colleagues in Newfoundland and Will Resign. St. John's, N. F., Nov. 4.—Further returns in the general legislative elections show that the opposition party has carried the Burges district, thus winning twenty-two seats, as against thirteen held by the Government. To-day Sir James Winter, the opposition leader, waited upon Sir Herbert Harley Murray, Governor of the colony, to arrange for taking over the conduct of public affairs. Sir William Whiteaway and his colleagues in the present Ministry will probably resign within the next few days. The Government is a coalition of the Liberal and Conservative parties, and the status of the colony, both at home and abroad, will be strengthened by the change of Government.

VIENNA'S BEAR GARDEN.

ANOTHER SCENE OF TURKULY AND RIOT IN THE REICHSRATH.

Members Howl Themselves Hoarse and Do Anything They Can to Prevent Speakers from Being Heard.—It is said that the Government will at Once Provoke the Disorderly Body. Special Cable Dispatch to THE SUN. VIENNA, Nov. 4.—There was another riotous scene in the Reichsrath this evening. The House held a secret session this morning, and at 7:30 o'clock to-night the debate on the Austro-Hungarian compromise was resumed. The notorious Wolf baiter, Dr. Karl Lueger, Burgomaster of Vienna, who is also a member of the Reichsrath, began to speak, whereas the opposition, led by Herren Wolf and Schoenerer, who had returned prematurely from their holidays, renewed their deaf banging and howling. They demanded the recognition of the Chair, being desirous of speaking, and upon its being refused they yelled wildly and simultaneously.

Wolf and others then invaded the President's tribune and refused to move. Vice-President Abrahamovic, the acting President, did not attempt to speak, but rang his bell continuously. This, however, had no effect in restoring order. Once he ceased Wolf, who was straining his voice with the violence of his yelling, and said to him: "You are committing suicide, Herr Wolf." The latter retorted: "Never mind; there will be plenty left to bother you when I am dead."

During a temporary lull Dr. Lueger succeeded in making himself heard, and he became incensed at the fact that he had been interrupted. He raised such a howl that it was necessary to suspend the sitting. The Anti-Semites were afraid to leave the Chamber during the recess, knowing that their opponents were waiting them in the lobbies. On the resumption of the sitting Dr. Lueger again endeavored to speak, but he was again refused. Wolf loudly read a newspaper. Dr. Lueger concluded his speech about midnight, when a series of divisions by roll call, with the object of closing the debate, began. There is every prospect of another prolonged sitting.

The New York Press writes that in the event of the disorders being renewed this evening the Government would prorogue the Reichsrath, which would not meet again for several months. All hope of passing the compromise measure has been abandoned. Emperor Francis Joseph had a conference to-day with the two Presidents of the Austrian and the Austrian Reichsrath upon the subject of the Parliamentary crisis.

END OF THE SOUDAN CAMPAIGN. Correspondents Going Home, as Nothing More Will Be Done. Special Cable Dispatch to THE SUN. LONDON, Nov. 4.—The Morning Post announces that the newspaper correspondents who are returning from the Sudan are being sent home, as nothing more will be done against the dervishes. The Post, which is the favorite organ of the aristocratic Tories, indulges in a vehement double-edged editorial on the subject of the Sudan campaign. It attacks the Government for allowing its duty and its honor to be sacrificed to a few unscrupulous adventurers. It says that the Sudan is now free of an enemy, by the railroad to Abu-Hamed, which is completed, and the caravan road from Suakin to Berber, which is open.

LONDON, Nov. 4.—The residents of Broadway, Worcestershire, yesterday had an opportunity to view the painting "The Triumph of Ceres," the work of Francis Davis Millet, an American, who resides at Broadway. The canvas measures 20 by 13 feet, and is said to be the largest work of art ever worked in two centuries. Mr. Millet has applied the minutest of elaboration of the Dutch school to a classical subject. The picture represents an ample field of glowing grain, through which a beautiful procession, led by a woman in a red dress, is making its way toward a temple on a distant hill. It was painted for the Agricultural Bank of Pittsburg, Pa.

Norway has replied that she wishes to bear the whole expense herself.

Witnesses Testify for Capt. Martens of the East Thirty-fifth street police station testified to his efficiency when his trial was resumed yesterday. Incidentally, Commissioner Brown said that he had been told that it would be ridiculous for him to appear as a witness, which the Captain's lawyer seemed to want him to do.

BLEEDING YUKON MINERS.

JEALOUSY LEADS TO THE DEATH OF TWO MEN AND A WOMAN.

James Boswell of Temple, Tex., Goes to Dallas and Shoots William Barton and Lizzie Weideman in the Home of the Woman. Mrs. Boswell—Woman's Daughter Present. DALLAS, Tex., Nov. 4.—James B. Boswell of Temple, Tex., killed William Barton and Lizzie Weideman to-night at the home of the woman on Gaston avenue, near Cantor street, shooting each in the abdomen. He then fired one bullet into his own breast and another into his head. None of those concerned in the tragedy spoke after the shooting, and each was dead within two hours.

Barton came to Texas several years ago from Kentucky, and Boswell came about the same time from Holly Springs, Miss. Little is known of any of the trio in Dallas, but from a long account of his life written by Boswell to-day it appears that all were well known and respectably connected at their old homes. Barton and the woman had been in Dallas several weeks, she went under the alias of Mrs. Ella Smith, but her identity was disclosed by Boswell in his biography of himself, which was accompanied by a photograph of his daughter, who was the only witness of to-night's tragedy.

Boswell arrived in Dallas from Temple this morning and spent the day writing of his life. He was directed to Weideman woman's home to-night and found Barton and the woman sitting in the front room. Without a word he opened fire on the woman, next on Barton, then on himself. In his written statement, which is somewhat incoherent, he says he became incensed at what he called a woman who had been with Lizzie Weideman several years ago and deserted a good wife on her account. She gave him up a year ago at Temple and he had been affected on Barton. She refused to break off her relations with Barton, and, in a desperate desperation, he determined to kill her.

CONTRACTORS MAY FIGHT. Tired of East-Isle Tailors' Strikes, and May Order a Lock-Out. Early this week strikes involving about 1,000 men and women took place against three violations of the agreement and in each case the former wages were restored. Five hundred more clo makers struck yesterday, and the Tailors' Union, which has entered into an agreement with the Sheet and Plate Glass Glaziers' Union that on and after Nov. 15 the Tailors' Union shall not employ any more tailors, and that on and after Nov. 15 the Tailors' Union shall not employ any more tailors, and that on and after Nov. 15 the Tailors' Union shall not employ any more tailors.

MAN HUNT IN ELIZABETH STREET. Police Search "The Barracks" for an Italian Murderer. There was a man hunt in Elizabeth street yesterday afternoon. "The Barracks," the five big tenements near Houston street, in front of Giuseppe Boccardo, his wife and two children, in the middle of the street, were searched from roof to cellar. Capt. Albertson of the Mulberry street squad, who has been hunting the murderer since early and late, had heard a story to the effect that he was hidden in one of the tenements. He went to take a look at it, and he found a man in a trunk. As it was into "The Barracks" he ran when pursued after the murder, the Police Captain determined to search the place once more. His men had already gone through it, and he found the murderer in a trunk.

WANT TO BAR FOREIGNERS. An Overwhelming Majority of the Brotherhood of Carpenters in Favor of Restriction. Some time ago the United Brotherhood of Carpenters decided to take a vote on all subordinate unions on the question of further restriction of immigration. It was announced yesterday that all the votes had been received. Only 1,000 votes were in favor of further restriction, and 2,003 were against any further bar to foreigners. Several of the unions were in favor of closing the gates of the country to other than foreigners for a number of years.

JOBS OF SUBURBAN LIFE. Adventures of a Commuter in Keeping an Engagement for Dinner at Home. "It was on Sunday night," said the man who lived in a detached house on the Sound, "and I was hustling to catch the 6:06 to Surfville. My wife had told me earlier that if I insisted on going to New York to spend Sunday afternoon with an interesting crowd of old friends at the club, she had no objection. She said she would remember, however, that I had invited the Beachhursts to dinner, and that if I missed the 6:06 I couldn't get a train until 8:30, and while I wasn't much of a carver, she thought the dinner would be more of a success than I had any right to expect. I had no connections on my train, and as I trotted through the waiting room I thought that I had just one minute to spare.

"Surfville train" I asked the gateman. "Yep, but she's just pulling out, and you will have to run." I looked down the platform and jumped on the step of the last car as it was pulling out. The train seemed to be unusually well filled for the 6:06, and when I got my breath I said to the brakeman: "What on earth are all these people going to Surfville to-night?" "Surfville to-night?" he exclaimed. "This train don't stop at Surfville. It's the 6:01 for Nuttsville, Conn., and she doesn't stop this side of there. So her wife."

"Then why didn't you take the 6:06 on the other side of the Sound?" I asked, vaguely. "Then why didn't you take the 6:06 on the other side of the Sound?" he asked, vaguely.
