

PHILIPS THE GO-BETWEEN

NATURE OF THE INDICTMENTS IN THE BROOKLYN SCANDAL.

Conspiracy to Defraud the City on Corrupt Contracts the Charge Against Willis Phillips and Seven Others—Major Van Wyck Presses a Prompt Trial in Phillips' Case.

The specific allegations in the indictments against former City Works Commissioner Theodore W. Willis, seven others, seven officers, including former Mayor Wurstler, and against Police Commissioner W. E. Phillips were made known yesterday by District Attorney Marston of Kings county. The last two of the indicted ones appeared in court yesterday and gave bonds. The indicted men are accused of conspiring with contractors to defraud the city of money. The charges are all certified to by Contractor Daniel Doody. Police Commissioner Phillips is charged with having manipulated the alleged corrupt deals. He is indicted jointly with former Commissioner Willis, and will probably be the first of the accused to be tried. It was decided yesterday afternoon not to arraign the indicted men until next Wednesday, but counsel for Mr. Phillips has announced his intention of appearing in court to-morrow morning and demanding a trial for his client at once. In the indictment against Phillips it is alleged that he arranged for Contractor Doody to let him have the contract for work on the Worthman avenue sewer and to see to it that his bills were certified by the Controller. The work was to cost \$12,000, which was, according to the indictment, "grossly in excess of the value."

On Oct. 10, 1897, the indictment against Phillips and Doody was returned from the grand jury. A second indictment of \$8000 was, it is alleged, paid to Phillips by Doody on or about Nov. 14. Rates on Kent avenue from Broadway to North Sixth street were authorized by Commissioner Willis and the contract was awarded to Thomas Frazier, who, it is alleged, was merely a dummy for Doody. Persons interested in the rump, among others officers of the American Sugar Refining Company, who had been in the neighborhood, objected to the award to Frazier. Commissioner Willis rescinded the award on July 23—the indictment says, "in violation of his duty"—and gave the work to Contractor Thomas Monahan, who was not the lowest bidder. Monahan did not execute the work until August 1, and the delay was the result of negotiations carried on with the contractor. The indictment charges that Phillips and Doody were in collusion with Monahan, who was given \$1,500 to Phillips and then went on with the work. It became necessary for Commissioner Willis to advertise proposals for laying distribution mains in the streets of the city, and Utterbeaven, Phillips is alleged to have visited Doody and proposed to give him the work for a commission of 10 per cent. The indictment charges that Phillips and Doody were in collusion with Utterbeaven, who was given \$1,500 to Phillips and then went on with the work.

When he got to the rooms he found them entered, and Gen. Swaine, as soon as he could command quiet, presented a cut-glass loving cup mounted with silver to Mr. Backus in behalf of the Fifty-third. Mr. Kenyon made a brief speech, in which he paid a high compliment to the donor of the cup, and then he turned to the committee for what he had done to further the work.

Mr. Backus was completely surprised at the turn the meeting had taken, made a short speech, and then he turned to the committee in behalf of the committee for what he had done to further the work.

JUDICIAL MARRIAGES.

His Approval of Larch Law May Be Revoked by the House Committee.

WASHINGTON, March 26.—The reported approval of Larch law by Judge Bradley of the District Court has been investigated by the House Committee on the Judiciary, a resolution to that effect having been introduced by Mr. McCall of Massachusetts and referred to that committee. The remark to which exception has been taken and which the judge is said to have made in connection with the bill, and in consequence where he was not able to do so, is quoted as follows: "I do not know of a case in which the Government should be more deeply congratulated in being rid of such a man as that. Lysching probably would be better than putting the Government to the expense of keeping and hanging that brute."

The resolution says: "Such a statement, if made, would tend to subvert not only the laws which said Bradley is a judge, but also the laws which said that he is a member of the bar of the District Court of the United States."
