

THE WORLD'S WHEAT CROP.

IT'S THE GREATEST EVER GROWN, BUT NONE TOO GREAT.

Reserves Were Low and There Are Every Year Six Million More Months to Fill on This Planet—Besides, There Are Less Years to Make Up For—Good Prices.

With the principal wheat crops of the world now practically secured it is possible to arrive at a fairly accurate estimate of the total production in 1898. From the commencement of seeding the crop scores that are usually plenty in the critical months have been missing, and this fact led many to believe some time ago that the total yield would be above the average, although few anticipated such a record-breaking crop, the world's total is now estimated by the most reliable statisticians.

The most recent of these estimates is that compiled by Mr. Broomhall, the editor of the Liverpool Corn Trade News, a recognized authority both in this country and in Europe, and his figures display the stimulating effect that the recent high price of wheat has had on the acreage sown in 1898. From the commencement of seeding the crop scores that are usually plenty in the critical months have been missing, and this fact led many to believe some time ago that the total yield would be above the average, although few anticipated such a record-breaking crop, the world's total is now estimated by the most reliable statisticians.

The crop of the United States has been calculated at 2,850,000,000 bushels, or 100 bushels per acre, compared with 2,700,000,000 bushels, an increase of 150,000,000 bushels, is sufficient guarantee that the world is in no danger of a famine. The crop of the United States has been calculated at 2,850,000,000 bushels, or 100 bushels per acre, compared with 2,700,000,000 bushels, an increase of 150,000,000 bushels, is sufficient guarantee that the world is in no danger of a famine.

In America the United States shows a gain of 60,000,000 bushels, or 11,000,000 acres, or 10,000,000, while Mexico, Chili and Uruguay also show slight gains, the total amounting to 285,000,000 bushels over last year. In Asia we find the only real falling off, the total being 382,000,000, against 392,000,000. Turkey in Asia and India are the two principal delinquents, the former producing 10,000,000 and the latter 8,000,000 bushels less than last year. Africa shows a gain all along the line, Algeria, Tunis, Egypt and the Cape all helping to form the increase of 12,000,000 bushels with which she is credited.

Although the world is confronted with the largest wheat crop ever produced, it is not immediately concluded that the statistical position of wheat is very bright, for other considerations have to be taken into account. The present crop has been reaped by three years of comparatively small crops, and reserves have been drawn upon to such an extent as to fill the deficiency caused by an under-production that they are now acknowledged to be at the lowest point recorded for years. Unfortunately it is impossible to obtain exact figures of the world's stocks, there being no means of accurately knowing what the livable supplies amount to, but in estimating the actual reserves in the world for 1898, Mr. Broomhall probably somewhere near the mark. Adding the total to the world's crop, we find that the total supply of wheat available during the year 1897-98 amounts to 2,718,000,000 bushels, and the reserve to 2,918,000,000 bushels, or a larger supply by 170,000,000 bushels than we have now. Looking at it in another way, we find that the total crops of the four last years are smaller by 343,400,000 bushels than the average crop of the four preceding years, and that the average crop of the past four years is 418,000,000, compared with 2,901,400,000 bushels in 1894, and with 1,970,000,000 bushels in 1895, making a total available supply of 2,918,000,000 bushels, or a larger supply by 170,000,000 bushels than we have now.

BROOKLYN.

An Important Sale of Fine Havana Cigars

We've just consummated a deal which brings us 100,000 of the finest Havana Cigars made in the Island of Cuba. They were intended for the large Clubs of London, England, which use a better Cigar than the Havanas that come to this market. They are absolutely the best Cigars produced in the world, yet we offer them to you at lower prices than are usually charged for imported Cigars. No one who appreciates a fine smoke can afford to miss this opportunity, and coming as it does at a time when good imported Cigars are a rarity, it is sure to meet with such a quick appreciation that an early selection is necessary for any one who wants to be sure of getting a supply.

The assortment includes the following celebrated brands:

- La Africana Regalia Fin de Siecle, box of 100...\$14.75
El Agulla de Oro Regalia Referencia, box of 50...\$6.00

ANNEXATION AND BUSINESS.

Some Illustrations from Official Records of the Benefits Received. It has been observed generally that the opponents of national expansion deal more generally with theories than with facts, and that when facts are presented to their notice they seem inclined to disregard them. The United States Treasury, however, has published its official reports which have considerable bearing upon the effects of annexation upon trade and business in countries securing a stable form of government.

Tunis in North Africa, prior to the year 1881, was a subject of the French Republic, bearing somewhat to it the same relation of nominal dependence that parts of the Philippine Islands did to Spain before Dewey visited, officially, the harbor of Manila. By the bulletin of the French Government, recently reproduced by the United States Treasury, it appears that since the establishment of the French protectorate in 1882 the commerce of Tunis amounted to \$4,000,000 a year. Four years after the establishment of French control, the commerce of Tunis was \$8,000,000. In 1885 it was \$18,000,000 and is now \$18,500,000. During the last ten years \$25,000,000 has been spent in Tunis in public buildings, \$8,500,000 on ports, \$278,500 on lighthouses and buoys, \$12,000,000 on railways, \$2,300,000 on roads, \$2,000,000 on public buildings, \$482,000 on the extension of the telegraph, and the roads to the extent of 1,000 miles have been constructed, and 303 miles of railway.

ALL-CONQUERING GOLE.

Remarks on the Effects of the Game by the Girl Who Didn't Play.

"Look at this pathetic," said the girl who didn't play golf. "Isn't it a pathetic sight? Only you and I and a row of rocking chairs. Yet I can remember when it was crowded always at this time, and every one of those tennis courts was occupied. Then we all played tennis, or sat here waiting to play and talking until we had a chance at a court or until it was time to go to the beach. Then we all went down there in a body. In the afternoon there was more tennis. In those days we were always together and had whatever fun there was with our own hands."

BROOKLYN.

A Collection of Rockers.

\$5.00 to \$8.50 Kinds, all at \$2.85.

We might go into a rapturous description of this opportunity, because it is worth it, but that wouldn't make you really appreciate what we are offering. You must see the goods for that. It is a lot of Rockers and odd Chairs in Antique Oak, English Oak, Forest Green and Mahogany finish. They are really discontinued patterns, but it's not their fault, and doesn't hurt them. Regularly priced from \$5.00 to \$8.50, all reduced to \$2.85 each.

Something New in Chairs.

This is one of those collections that grows with acquaintance, Rockers and Odd Chairs, that will give a picturesque touch to a room, standing out, yet blending with the scene like the white sails of a yacht on the ocean. They are made of Flemish Oak, English Oak, Antique Oak, Mahogany, Imitation Mahogany, some upholstered, some rush bottom, others cobbler seats and saddle seats. Over 200 designs, the very newest things made, full of character and the prices as attractive as the goods.

Iron and Brass Bedsteads

See What \$2.75 Will Buy.

Here are 215 Beds, some all iron; others iron, brass trimmed, in assorted sizes, and we offer them to-morrow at prices under the manufacturer's cost. For \$2.75 you can buy a good bed to sleep in and then better ones on up to \$9.00.

GROSNER AND HARRIS.

408, 410, 412 FULTON STREET, COR. GALLATIN PLACE, BROOKLYN.

A New, Perfect Store, with New, Perfect Goods.

TO-MORROW, MONDAY, we shall make the first bow to the people of Brooklyn in our new store. Although the name may sound unfamiliar, you will find upon closer examination that we are not a new store, but a store that has been here for many years, and shall be our endeavor now to renew old acquaintances and to hold your friendship with stronger ties.

The Lines We Will Carry: Ladies' and Men's Furnishing Goods, Hosiery and Underwear, Lace and Lace Goods, Gloves, Handkerchiefs, Ribbons, Notions and Fancy Goods, Jewels, Perfumery and Toilet Articles, Corsets, Hats, Caps, Fur and Fur Trimmings, Millinery and Boys' Shoes, Wines and Liquors.

MAIN'S ANCIENT SCHOONERS.

A Down East Fleet Which is Disappearing Slowly from the Sea.

BANOR, Sept. 30.—From April to December there may be found at an Eastern port, notably at Bangor, scores of two-masted schooners ranging in size from fifty to two hundred tons, and in age from twenty to sixty years. A few are even older, and all, for general decay and dilapidation, slow and aloft, put Clark Russell's Flying Dutchman in the shade. They look like sieves, and generally carry the most ancient style of rig, that when they begin to take water it is more work to keep them from it than it is to make sail on them. For the rest, old and patched sails, primitive blocks and pulleys, running rigging that should be in a junk shop and windlasses patterned after the style that Noah used in the Ark, make up a picture that would cause dismay to any but a Down East coaster sailor.

These old craft, as a rule, carry lumber, which accounts in a great measure for their longevity; they can't very well sink, for their cargoes won't let them. They are owned generally by a dozen people, the Captain generally being at the helm, and a few of them are operated by shipping firms, lumber dealers and brokers, who sometimes give the Captain a few cents of the gross earnings for sailing them, but more frequently pay him so much for the use of the vessel as to leave the Captain and crew to their own devices. They have been known to leave port without enough oil on board to keep the lamps burning, and the majority of these old coasters never get further than Boston, or the north side of Cape Cod, but a few of them venture over to Market Shoals and up the Sound, or to New York, carrying lumber and coal back. In some one of these old craft, a Down East schooner, a man meets a heavy gale, the chances are strongly against any of his people surviving, and it is expected that about so many of the old tubs will be lost, just as the Gloucester schooner, the captain of which was killed, was lost, and the crew of his flagmen to go under every year on the Banks. If the vessels themselves were the loss, they might be replaced, but the loss of the crew is a loss that is never replaced.

ECZEMA OF EAR.

Nothing So Severe Could Not Keep From Sorethng. Physician's Remedies No Benefit. Cured By Half Box Cuticura.

At the time that I sent for your book, I was suffering from Eczema on the right ear. I could hardly keep my hands off the afflicted surface, the itching was so severe. Every time I would touch my ear small bubbles would open emitting a watery-like substance, apparently poisonous, as when it was communicated to other parts of the body it would produce the same irritation. One of the leading doctors here treated me for a while and applied the usual physician's remedies without benefit. My brother was using CUTICURA at the time and recommended that I try it. I bought a box of CUTICURA (ointment) and had the satisfaction of seeing immediate progress. The first application was soothing, and had the box was half gone the disease had disappeared, and I am pleased to say that there has never been any recurrence of the trouble.

Cuticura WORKS WONDERS

I wish to advise you of my appreciation of CUTICURA SOAP, and the marvelous benefits I have derived by its use. Before using CUTICURA SOAP, my face and hands were just as rough as they could be, and my face was all covered with pimples. I was unable to look at, but after using CUTICURA SOAP three weeks my face was equal to velvet.

BROOKLYN.

Unusual Advantages to Buyers.

The Sale of the T. K. HORTON & CO.'S Stock will commence Monday, October 3, at 8:00 A. M. and continue until all is sold. All the stock will be sold at some price, and that a low one. OUR SMALL PROFIT SYSTEM that has been so heartily indulged by the people will continue throughout the store, and, to make purchasing easier, will indicate where the assorted Horton stock is located. The prices at which we have marked this stock will make eager buyers, as it means unusual low prices for all the goods marked on cash basis. We cannot afford to have any of our customers disappointed during this sale, and for convenience have placed the stock in both stores that the people can get at it easily and not feel crowded; have cut passageways in the walls, thus insuring the comfort of the people as they pass to and fro.

To show more fully our appreciation of the liberality of the people bestowed upon us during the past, we propose to offer still greater advantages by closer margins than usual in all departments. All new importations are marked at our usual small profit, and nothing is left undone to make all departments complete and successful in every particular. It will pay to anticipate your needs in every direction, as the purchasing of goods during this special sale means an unusual money-saving to you.

All purchases of \$5.00 or over will be delivered free at station within one hundred miles. Have made arrangements to insure prompt delivery.

Sale of Horton Stock

OF HOUSEFURNISHING GOODS

THE BURT SHOE CO.,

Fulton and Hoyt Sts., BROOKLYN.

Moriarty's was not the proper place. The thought of supplanting the sturdy English ale with the finest hofbrau is enough to make the Moriarty turn in their graves, and it caused a shock to the sensibilities of Yale men. It seems almost like raising the dead, and all the old Yale men, in their graves, still smiled down upon the assembled tables were there. The new proprietor, beginning to have a good time, and to quarrel with himself and the vicissitudes of Temple Bar were at an end when their dreams were suddenly cut short. They began to rub their eyes in amazement. One of the new waiters entered bearing upon a tray a half dozen unguishing glasses, filled with a mixture previously unknown to the quiet English ale house. Could it be possible that the new proprietor of Temple Bar thus presumed to disregard its one inviolate custom? It seemed unreasonable; yet there were the large misshapen glasses, so out of keeping with the small perrier mugs that had reigned supreme at Moriarty's for nearly fifty years, and there were the abominable contents, with the foam, about three inches thick, overflowing the edges and circulating in little eddies all over the tray.

"Great Scott, boys!" shouted several of the assembled college men in unison. "It's a badger! Now in the proper place, the average Yale student has no objection to beer. But Moriarty's was not the proper place. The thought of supplanting the sturdy English ale with the finest hofbrau is enough to make the Moriarty turn in their graves, and it caused a shock to the sensibilities of Yale men. But Moriarty's was not the proper place. The thought of supplanting the sturdy English ale with the finest hofbrau is enough to make the Moriarty turn in their graves, and it caused a shock to the sensibilities of Yale men. It seems almost like raising the dead, and all the old Yale men, in their graves, still smiled down upon the assembled tables were there. The new proprietor, beginning to have a good time, and to quarrel with himself and the vicissitudes of Temple Bar were at an end when their dreams were suddenly cut short. They began to rub their eyes in amazement. One of the new waiters entered bearing upon a tray a half dozen unguishing glasses, filled with a mixture previously unknown to the quiet English ale house. Could it be possible that the new proprietor of Temple Bar thus presumed to disregard its one inviolate custom? It seemed unreasonable; yet there were the large misshapen glasses, so out of keeping with the small perrier mugs that had reigned supreme at Moriarty's for nearly fifty years, and there were the abominable contents, with the foam, about three inches thick, overflowing the edges and circulating in little eddies all over the tray.

"Great Scott, boys!" shouted several of the assembled college men in unison. "It's a badger! Now in the proper place, the average Yale student has no objection to beer. But Moriarty's was not the proper place. The thought of supplanting the sturdy English ale with the finest hofbrau is enough to make the Moriarty turn in their graves, and it caused a shock to the sensibilities of Yale men. It seems almost like raising the dead, and all the old Yale men, in their graves, still smiled down upon the assembled tables
