## The New Case Well Shoes for Women

And three reasons why they should be worn:— FIRST, FOR HEALTH; SECOND, FOR COMFORT; THIRD, FOR STYLE. The Hygienic Shoe is made with a white felt insole, which gives the foot all the proper warmth. It is the shoe, and the only shoe, for winter wear. The Wet Proof Case Well Woman's Shoe is made by the new process. There is a flexible insole, with cork between the insole and outer sole, the whole covered with rubber cloth, which makes the shoe positively waterproof, keeps the feet dry, and means quite a saving in rubbers.

These two shoes are to be had at this store only. These shoes are now on exhibition, cut into two parts, showing you just how they are made and why they give universal satisfaction. There are 14 different styles, lace or button, double or single, 3.50
