

RIOT'S RED HAND.

Cleveland Strikers Try to Deal Out Death by Dynamite.

EUCLID AV. CAR BLOWN UP.

Eighteen Persons Injured, Four of Whom Are Hurt Fatally.

Arms outstretched across the shoulders of the two policemen. The riot was tall, and in the robes of his office made an impressive figure. He commanded the mob of 2,000 by surprise. They desisted a moment and then made as if to return to the attack. But the priest faced them firmly, and they saluted with a bow, while the priest took the mob he had saved into the church. They were Police-Profund and Moore. Both say that they would have been killed but for the priest. Their injuries will keep them in hospital probably two weeks.

Deprived of their prey, the mob turned on the motorman and conductor of a trolley car that had just arrived. Three other cars followed closely and their crews were also attacked. The six men were pulled from their cars, pounded, knocked down and kicked on body and head.

Men who were on duty at the police station were notified, and a detail of twelve men under Capt. English was sent to the scene. This force proved utterly inadequate to handle the mob. A pitched battle ensued, in which the police, strikers, and non-union men participated. The firing became general, in all sixty shots being fired. The rioters were not sent in, but none could answer all available men, including the reserves, were on duty in other parts of the city.

The militia charges bayonets. Acting Colonel Zimmerman was appealed to, and after three calls ordered Company F, Fifth Regiment, to the scene. They went by the double-quick with fixed bayonets, and arrived at the scene before the rioting had begun on an hour. The crowd fell back, and the rioters were charged and finally ran for cover, carrying a wounded man away. Lying around on the street and sidewalk when the battle had ceased were found eight wounded men, some of them being unconscious and all bleeding from their wounds.

Among the injured were A. M. McDermott, head of the Central Police Association, and a detail of twelve men under Capt. English was sent to the scene. This force proved utterly inadequate to handle the mob. A pitched battle ensued, in which the police, strikers, and non-union men participated. The firing became general, in all sixty shots being fired. The rioters were not sent in, but none could answer all available men, including the reserves, were on duty in other parts of the city.

On Orange street crowds began to gather as early as 10 o'clock, and by 10 o'clock 10,000 men and women were congregated between Perry street and the Grand Central station, and a crowd of 400 was at the Market House and 500 more at the corner of Irving street. Only a few policemen, not enough to handle the crowds, were present, and the rioters became demonstrative. At 1 o'clock in the afternoon a bound car was held up by the Market House mob and every window in it broken. The non-union crowd for their lives without making any show of resistance, although they were armed with revolvers. Other cars came up and were forced to stop. They quickly became targets for stones and bricks hurled from the mob.

Police forced to stop a mob. Then the first car was stopped, the alarm given, and the Central Police Association and twenty bluecoats were hurried to the scene. The crowd was defiant when the police came and refused to let the cars proceed, continuing in their work of destroying them. With drawn clubs the police charged the mob. Many a head was cut open and blood flowed freely. In the course of the rioting 11 Eagle street, which was in the crowd, was badly cut and had its skull fractured. He was taken to Huron Street Hospital. Fred Grand, Alexander Weiss, and David Nivn, rioters, were also severely wounded. They were taken to the Central Police station, where they were held in custody.

Not a car stirred to-day that was not guarded by one to a dozen policemen and soldiers. Even the presence of these guardians did not prevent nearly every car being stoned. So early in the morning that the Central Police Association, which commands the entire military force, ordered another militia company, Company K, which was being held in reserve. It was sent out to guard the Patria street barns and Brooklyn bridges.

Women mob on the rioters. A striking feature of the rioting during to-day was the participation of women as ringleaders in assaulting the combined forces of police and militia. On Orange street in particular women were demonstrative, hurling missiles at the cars and breaking the car windows. They were particularly violent in the epithet of the rioting. They urged on the men and boys to do violence by both word and deed, adding to the rioting and leading the men who took the initiative in the rioting. On the street car track on Orange street and the cars to come on. The rioters did not badge until dragged away by militiamen.

A day of lawlessness. Even before the explosion to-night Cleveland never saw such a Sunday. Anarchy is the only word with which to characterize it. All of last night there were outbreaks in various parts of the city, mobbing of non-union men and cars and shooting from the rooftops at cars. With sun-up the outbreaks continued. The sacred character of the day had no effect on the men, many angry by what they deemed the oppression of the street car company. At the coming of daylight little knots of persons began to gather on the street corners. The groups grew into crowds of thousands and then to thousands. They began assaulting cars passing street cars. Their assaults grew noisier and fiercer as time passed. The rioting was so intense that the Seranton avenue line to-day, but the effort might as well have been abandoned. A Week Ago in New London. New LONDON, July 23.—Davidson Kennedy, the wealthy stock broker of Philadelphia, who was injured in the head by a flying golf ball over a week ago, was operated upon last night by Drs. Bull, Hammond and Norris of New York and Dr. Hamilton of Philadelphia, the latter being the chief surgeon. Mr. Kennedy has not been able to get out of bed since the night of the accident, and has been recovering so slowly that an operation was thought advisable by the doctors. The injured man is now greatly improved in health to-night, and will probably be able to be around in a few days. Albert E. Kennedy, brother of the patient and prominent polo player, and Mr. Kennedy's mother have been here from Philadelphia since the accident occurred.
