**Extra Wide Velvets at Half.**  
It was because the maker didn't finish them quite right that we can sell them at half. No real hurt, though. Let us point out just the defects. You know that 19 inches is the usual width of silk-face Velvets sold at \$1.00 and \$1.25; these, remember, are 27 and 32 inches wide.

**Men's Bath Robes and House Coats at Extraordinary Prices.**  
Many of these are at half prices and the others at least a third off the usual. All of them are splendid goods, including Bath Robes and Smoking Jackets. The reason of the low prices is because the goods are last season's patterns. It is true, however, that some of this season's patterns are sprinkled through the lot, but can any one pick out the 1899 from the 1898 articles? These are the prices:  
AT \$2.95—Men's blanket and eiderdown Bath Robes, sizes 36 to 44 breast measure, regular worth up to \$4.50.

**Good Carpets Cheap.**  
And a Word About Them.  
Probably there's no article of commerce to-day that has advanced so much in price this year as Carpets. The chief reason why we've been able to sell the best Carpets so much under the market is because we made early provision for the season. Now, it is generally the custom this time of the year for all makers to close out those patterns that will not be made another season. That's another reason why at times Carpets can be bought very cheap, but they are about the last of the season's opportunities. Hadn't you better get your knowledge how to pick up the treasures of the East for you. But then the rugs themselves run from the hundreds and hundreds of dollars down to the little prices such as we quote for you to-morrow.  
Two Big Piles—From most every country of the East; different shapes and sizes at \$8.75 and \$17.50, new and old, very silky pieces.

**An Improvement in Morris Chairs.**

This is the work of another genius who has evidently had in mind the making more comfortable of the already comfortable Morris Chair. You will say it's a bright idea the moment you see it. The chair is a regular Morris Chair, with all its advantages and the following added: Underneath the seat an invisible rest may be pulled out at any angle, which then forms a comfortable support for the legs and feet, making a luxurious reclining chair—good enough to sleep on. The cushions are ingeniously arranged to cover the support when necessary. This chair has all the advantages of a regular reclining chair, the cheapest of which costs twice as much, and yet is a regular Morris Chair as well. We have them in golden oak, mahogany and imitation mahogany, at prices from \$14.50 up, including reversible cushions. Have a look at them. A demonstrator will be on hand to show you all its best as well as its weak points if it has any.

**Rugs from the Orient.**  
You know as a rule the regular Rug dealer thinks he is such a privileged character, and that the public know so little about the value of Rugs, that he has the right to get three or four hundred per cent. for what he knows. Why pay this collector's profit? We buy Rugs as we do other merchandise and add the same small profits, and no one has a better expert knowledge how to pick up the treasures of the East for you. But then the rugs themselves run from the hundreds and hundreds of dollars down to the little prices such as we quote for you to-morrow.  
Two Big Piles—From most every country of the East; different shapes and sizes at \$8.75 and \$17.50, new and old, very silky pieces.
