MOLESTATION BY STRIKERS.

Court asked to clear the streets permanently of pickets. Kerbs, Werthelm A. The firm employed 2,900 hands, some of whom have gone back to work at different times since the strike on March 9, but have quit work owing to maltreatment by the strikers or their agents. The temporary injunction says:

The defendants are restrained from interfering with, annoying, molesting, threatening, waylaying and following the plaintiffs, their employees, hands and workers and from loitering about, picketing, patrolling and standing in and about the streets and sidewalks in front of the premises at 1020 Second avenue, and the streets adjacent thereto, and from loitering at or near, picketing, patrolling, waylaying the plaintiffs and their employees, hands and workers and persons seeking employment at the premises on the streets and sidewalks adjacent to, in and about the houses of the plaintiffs, or their employees, hands and workers, or in or near the commission at which has the tendency or effect of molesting the plaintiffs and their employees in the street and sidewalks adjacent to the business and their homes or going there.

BOERS AGAIN GIVE BATTLE

Operations That Led to the Relief of Wepener and Taking of Dewetsdorp. SPECIAL CABLE DISPATCH TO THE SUN. From THE SUN'S Correspondent with Gen. Roberts. Bloemfontein, May 1.—Following is a summary of the work done by the British cavalry division since April 22:

The Fourth Cavalry Brigade received orders on that day to demonstrate toward Paarde Kraal and Loeuw Kop, the object of drawing the Boers westward to enable the infantry to set the Loeuw Kop. The horse artillery shelled Paarde Kraal. At 8:15 o'clock it cleared the hill and then moved west three miles, where it met a large Boer commando with Maxim guns and pom-poms, which shelled the British heavily. Gen. Dickson and his staff getting a good share of attention from the Boers. The Boers have been driven west to the Eleventh Infantry Division, under Gen. Pole-Carew, advanced, but their guns having taken the wrong road the assault could not commence before 4:45 o'clock. The cavalry division was recalled to assist in the attack and at 5:15 o'clock the infantry had taken Paarde Kraal.

On Monday, April 23, Gen. French assumed command of the Boer force, consisting of the division under Gen. Pole-Carew and the cavalry division under Gen. Dickson. Orders were issued to march to reinforce Gen. Ruddle at Dewetsdorp. The British marched to Tweedduik, where the outposts exchanged shots with the enemy, using pom-poms. On Tuesday the British marched to Bushminton, a strong position protecting the Modder River, where about a thousand Boers held the place with one Krupp gun and some pom-poms. Gen. French ordered the Third Cavalry Brigade, under Gen. Gordon, to seize the forward ridge, which proved the key of the position. The Boers, realizing this, endeavored to seize it. At the same time reinforcements were sent up from both sides. The whole cavalry division was engaged until 10:45 o'clock, when the Boers were driven back. The total British loss was forty-five killed and wounded. Boer prisoners state that the enemy suffered heavily.

That night Dewetsdorp and the following morning Wepener were evacuated by the Boers. This movement seems to have cleared the country south of Bloemfontein. Gen. Hamilton seized Thaba N'Chu on April 27. On his march eastward he met with light opposition at the waterworks which he captured. At Israel's Poort he found a very strong force in position and attacked them with great success. The Colonial troops were engaged. There were about twenty casualties. The Boers, appearing to have left their centre to defend the flank of their position, but the British seized it and the burghers were soon driven out.

NEW ACTING MAYOR OF HAVANA.

Mayor Mora Resigns—Transport Falls With the Body of Mrs. J. H. Wilson. SPECIAL CABLE DISPATCH TO THE SUN. HAVANA, May 1.—Mayor Estrada Mora, who, in the absence of Mayor Lacoste, has been Acting Mayor of Havana, has resigned upon finding that Mayor Lacoste will not resume the office of Mayor, owing to his having accepted a place in the cabinet. Mayor Mora says that his resignation is a matter of honor. Mayor Lacoste, a member of the Board of Aldermen, had been appointed to act as Mayor until a Mayor is elected.

One of the generally accepted reasons for Mayor Mora's resignation is that he was unwilling to shoulder the responsibility of paying the members of the Charter Commission appointed by Gen. Ludlow. Prior to his departure Gen. Ludlow fixed the remuneration for both Cuban and American members of the board at what is considered by the local press an exorbitant rate. Most of the board consists of Cuban officeholders, who, in addition to their regular salaries, are to get from \$10 to \$20 a day for their work on the charter. The sum involved amounts to \$2,800. A storm was raised over this alleged waste of Cuban funds and the municipal government refused to sanction the expenditure. All hesitate to act, fearing Gen. Ludlow's paramount authority on one side and the wrath of the public on the other. The result is that the Cubans have agreed not to take the money. The ex-American Commissioners can get their money whether the Cubans take theirs or not.

Gen. Wilson and his daughters have sent a message to the press expressing their deep gratitude to their friends and all the public, both Cuban and American, for the touching and innumerable tokens of sympathy and condolence which have been bestowed upon them since their departure from Cuba. The transport Buffalo, which will take Mrs. Wilson's body to the United States, sailed from here late this afternoon and arrived at Matanzas after dark. Funeral services had been held in the afternoon at Gen. Wilson's house in anticipation of the Buffalo's arrival. They were attended by a great crowd of officials and private citizens, who followed the cortege to the wharf, where the body was placed in a launch and taken to the Buford.

BUFFALO LITHIA WATER

Dissolves and Eliminates Calculi and Stone Both of the Kidney and Bladder.

"A Veritable Antidote For Albuminuria and Bright's Disease Acute and Chronic."

Case of Mr. S. Reported by Dr. G. H. Pierre, of Danbury, Conn., in the New England Medical Monthly.

"Mr. S., American, 47 years old, four months ago consulted me. I advised that his bladder be explored, for foreign body, which I was sure was present. On entering the bladder I encountered a large mass, which from the characteristic click, I decided was a stone. It was something immense, and larger than anything that I have ever known of. * * * I prescribed BUFFALO LITHIA WATER, a goblet

times a day, and a good liberal diet, together with tonics. In three days he called me, and showing me the vessel which he had used during the night, asked me if the debris was not disintegrated stone. I was amazed to see the quantity of brisduet, or rather iron-rust, looking deposit which was present. The material kept coming away, and sometimes large particles came from time to time. After one month passed, which took two and one half months, the largest particles which were discharged weighed two ounces and TWENTY-SEVEN GRAINS. To-day I passed a sound into
