Large and Complete Line of School Stationery now ready at Lowest Prices. Section C—Extreme rear.

It is an old and true saying "That no chain is stronger than its weakest link," and did this store lack a single one of its many links of excellence, its weakness would be apparent to all. Did its merchandise lack the approving touch of Fashion, low prices could not open your purse strings. Were its offerings not Durable—not honestly made—even though they were outwardly pleasing, you would pass them by. And were the Prices not right—did they not always rest at the lowest notch at which good merchandise could be sold—still would the goods stay uncalled for here. But when you find each link in the chain of merchandising—Fashion, Durability, Economy, and all the rest—responds to every test, and know that all are strongly welded to make the perfect whole—you recognize its strength and seek no further.

The opening of the Fall campaign begins next Tuesday morning. All the week we have been busy opening huge crates and mammoth boxes, numberless casks and barrels, and now all is ready for your critical eyes. A really marvelous showing of Fine China, Cut Glass, Bric-a-Brac, Art Pottery, Lamps, Jardinières and Pedestals, and all the little odds and ends that go to make the house beautiful. The tireless energies of our buyers during the last six months are now bearing the expected fruit. Orders given when factories and potteries were idle could not now be placed at less than double the liberal terms then made. But it has kept many thousands of expert workmen busy during the dull season and insured you a saving from a third to a half of the usual prices, and often more. Even if you do not come to buy it will repay you to visit our China Store and view these latest products of the artists in glass and clay, in metal and in marble. We can list but a scanty portion of the most attractive offerings. To appreciate the vast range of china and the liberal values offered you must see the entire exhibit itself.
