It's Our Autumn Opening That's Paramount.

The march of events rules and overrules even the elements as well as human action. In spite of the unseasonable weather, every day for the past weeks and weeks has been made eventful by the steady march of our incoming merchandise from over the seas. And though the warmth may have made laggards of us in showing the new autumn goods—there's been such a constant pressure from you to see the new that now the opening event must even overrule the weather itself. History may repeat itself, but it's what we have accomplished in the past that emphasizes the principle that our present must be better in every particular. Our measure of real worth is how we may best meet your appreciation, and, without intended egoism, we mean to merit a larger share of it this season than ever before. It means that every department in this store of stores has that which is the newest of the new and of honest and vital economical interest to you. In fact, it means everything that man or woman or boy or girl or baby may need for this autumn or winter, for practical use or artistic decorations, and it means the best at the best price always. To-morrow cannot be other than a memorable day—it marks an epoch, it starts a season, it leads the fashion, it will be a great general display of new merchandise.

The New Shoes Better Than Ever.

Any maker at all familiar with the real progress of shoe building knows that years ago we introduced the most important improvements in Women's Shoes, and that year by year ever since we have kept a step ahead of general progress by adding features that have always made our shoes distinctive and widely different from others. This season again foot comfort and good looks are better than ever. Our display, which opens to-morrow, of Autumn Shoes for Women and Girls and Boys will be found of much more than usual interest. Every kind of shoe that's needed—the Walking, Dress Shoe—the Oxfords—the Oxford Ties—the Dress Slippers—Black and Tan—Kid, Tan, Russia, Calfskin, Enamel and Patent Leather. The most attractive gathering of shoes ever exhibited. All the shoes have those distinctive characteristics of style, fit and comfort that have made them so deservedly popular and created envious yet unavailing competition.

To Every Man Who Wears Clothes. Ready-to-Wear Clothing—A New Departure.

To-morrow we will open a thoroughly equipped men's ready-to-wear clothing store, where you may derive every individual advantage that it is possible to derive from the best exclusive clothiers in New York. Brooklyn has long demanded such a store. We mean one devoted to the best quality of clothing only, where merit must take first place in contradistinction to so-called cheapness. We have long contemplated the opening of such a department, but deferred doing so until we could unmistakably control the proper clothing. You will be assured from the first of the best fashions, of the best fit, of the best cloths, of the best assortment, of the best satisfaction, because the name of the makers alone is a synonym of perfect clothing in this country. Our systems of measurement will be quite different from those ordinarily adopted, so that any man, whether he is abnormally stout or abnormally thin, may be fitted with accuracy. The clothing will be quite different from that ordinarily sold in a dry goods store. Not made to sell in competition with the so-called cheap, but really worthy garments, which have lasting merit and may be returned if not in every way satisfactory. We can afford to sell at a closer margin of profit than the exclusive clothier can for several reasons, one of which is because our other departments (being busy during the clothier's dull season) maintain the expenses.

An Event in Men's Shirts.

AT 39c.—Unlaundered Shirts for men and boys; a better shirt was never sold for the money; made from a real good quality of serviceable muslin; bosoms of pure linen; well finished throughout; three lengths of sleeves; sizes 12 to 18 inches; you'll wonder how it can be made for 39c.
Our \$1.00 White Dress Shirts are good enough and aristocratic enough for any one to wear.

A Material Saving to You in Cost

therefore, is one answer to a natural question, "What advantage to buy in a Dry Goods Store?" For the man who prefers his clothes made to order, our Merchant Tailoring Department has been entirely reorganized with far better cutters and tailors than we have had. Every facility to give you far superior fit and finish than anything heretofore. Conveniently situated on the Second Floor, near fast running elevators, light, roomy and exclusive. We are sure the general opening to-morrow will interest you, and especially as it is a new departure in Brooklyn. Come and welcome just for a survey of the department. The following prices can only tell you a small part of the story:
Business and Semi-Dress Suits, \$12.50 to \$30.00.
Double Breasted Frock Coat and Vest, \$18.50 to \$28.50.

Never Had Such Advantageous Prices.

Price is always a leading factor with our furniture, but price isn't everything. There's lots of furniture made that seems very cheap when you buy it, but becomes very dear when you use it. That's why some say the furniture of to-day is nothing like as well made as the furniture of their forefathers. Good furniture is far better in fact, never more artistic, never stronger, never more lasting. That's honest furniture, and you buy from those who represent the exact truth you buy better furniture than your fathers ever bought. We never had better furniture, never had so large and attractive assortment and
