BRITISH VIEW OF HULL STRIKE

Desire of Unions to Control Industrial Undertakings—The Effect in England.

Special Cable Dispatch to THE SUN. LONDON, July 25.—The Times this morning publishes an editorial in which it sums up the steel strike situation to date...

"They will find it exceedingly difficult to reproduce the success of the English unions. The strength of our unions lies in sheer obstinacy. They do not so much obtain active control themselves as they hamper and curtail the control of the masters..."

Their power to do this depends upon the available ignorance of the simplest of the political economy which distinguishes more than English workmen... The return of the Court to Cebu looks promising...

FLOODS LEAVE THOUSANDS HOMELESS. Great Distress in the Yangtze Valley—Court's Stay at Sigan-fu.

FAST RUN TO NEW LONDON

CONSTITUTION BEATS COLUMBIA BY 6 MINUTES 40 SECONDS.

The New Boat Club 90 Miles at an Average Speed of 1.3 Knots an Hour—Close Work at Running and Reaching—Close Races in Other Classes on N. Y. T. Cruise.

New LONDON, July 24.—The big fleet of the New York Yacht Club arrived here this afternoon after a good run from Morris Cove in a light breeze from the southwest. The wind was about ten knots and the sea was a little lighter, sometimes a little stronger. For part of the way the yachts had a fair tide to help them and at the end of the run they had to buck a head tide. The Constitution made the fastest time over the thirty-nine mile course, 4 hours 27 minutes 27 seconds. About half the time she was running before the wind and coming to tacks in the aid of the jib tacks. The conditions here time were very good, but average speed being eight and a half knots an hour.

She beat the Columbia by 6 minutes 23 seconds elapsed time, which at the speed they were travelling through the water was about a mile and a quarter and on corrected time the new yacht won by 6 minutes 40 seconds. This race showed that the Constitution is a much faster boat than the old boat. Every one here was anxious to see the new defender of the America's Cup and crowds of sightseers on small craft hung about the finishing line. The battleship Indiana was anchored near the finish and the officers and sailors on board had a fine view of the afternoon's sport.

The next class in line was the 100-ton class in which the Navaboo, Alana and Vigilant took part. This was a hot contest from start to finish. They crossed the line side by side at the start. All over the course they were very near to each other and at the finish there was only two minutes and seventeen seconds between the first and last. Navaboo won and the Alana beat the Vigilant. The Navaboo's beating the Alana and Bedouin. As the Rainbow sailed up the harbor W. K. Vanderbilt, Jr., sailed in on his yacht Virginia and these two will race together to-morrow.

In the imported class the Heister won, with the Eelin second. J. Rogers Maxwell's sloop Humma won again, and she was so close to the leaders that she was almost being left in the water. The Commodore Lydard's Corona won easily in her class. In the race between the Quissetta, Muriel and Elmina the three kept within striking distance of each other, and Quissetta, well sailed by H. F. Lippett, won. Robert P. Doremsus won in the small class with the Loyal, and the other winners were Columbia, Marguerite and the Vigilant.

Chicago, July 24.—Valentine Miller, after being tarred and feathered in West Chicago, a suburb of this city, last night, was saved from being hanged only by the timely appearance of a crowd of men in the angry crowd which surrounded him. Instead of hanging him he was ridden out of town on a rail.

The people of West Chicago were aroused last night by the appearance of Mrs. Miller riding a horse through the streets with blood running from cuts on her head and face. The beating she had received, she said, was from one of many that her husband had given her.

A crowd soon collected and started after Miller. He was taken to a hospital about an hour and strapped to a stretcher. A scuffling was obtained and Miller was placed on this and ridden out of town. He is about 50 years old and has several grown children.

SHARON HAS THE BIGGEST SNAKE. The Only One in the World Known to Be 40 Feet Long Lives in Massachusetts.

From THE Boston Daily Advertiser. SHARON, July 12.—Since Mr. Anderson reported the capture of a snake 40 feet long, hunters in the vicinity of Moore Hill have deemed it wiser to run at once upon hearing the brush rustle, rather than stop to investigate. When Mr. Anderson first told his neighbors that he had seen such a snake, they only laughed and sarcastically advised him to knock out the bugs in his cider barrels.

"One afternoon I went down in the pasture where the cow is tethered, and I reached her by following a trail of blood, and I found a snake and trembling like a leaf. I never saw an animal so frightened in my life. She was slightly coiled around a tree trunk." "I looked around, and there by the pasture gate, close to the fence, I saw a snake 40 feet long and raised fully 10 feet from the ground. For a minute it remained like that, and then it darted off into the underbrush. It made as much noise as a rearing horse, and it was very fast. "How long was it?" "All of forty feet and thicker than my leg." "You mean it was 40 feet long?" "Yes, only forty feet. It was a sort of grayish brown color, and had rather a pointed head. It was very fat, and it was very fast. It was about four times in the neighborhood of its pasture. He gives the same description. "I have seen a snake of this size in the neighborhood of Moore Hill. This summer is not the first time this large snake has been seen. There have been several theories as to how it came here, probably the most feasible being that it was brought here by a man who had been in the neighborhood of Moore Hill five years ago. This reptile had escaped from a passing crowd. For a long while the manager of Moore Hill had been on Moore Hill. A party was sent out with ropes, guns, knives and clubs located it in a swamp. It was killed. "But whatever the pedigree, all are now agreed that the snake is not of mental origin and steps will probably be taken before long to capture or kill it. There are several reports of the capture of snakes of this size in the neighborhood of Moore Hill. It is captured. Said one excited youth: "I've been for one of a snake's skin on Moore Hill. I got it last night. I killed it with a club. It was as fat as a pig. It was about four times in the neighborhood of its pasture. He gives the same description. "I have seen a snake of this size in the neighborhood of Moore Hill. This summer is not the first time this large snake has been seen. There are several reports of the capture of snakes of this size in the neighborhood of Moore Hill. It is captured. Said one excited youth: "I've been for one of a snake's skin on Moore Hill. I got it last night. I killed it with a club. It was as fat as a pig. It was about four times in the neighborhood of its pasture. He gives the same description. "I have seen a snake of this size in the neighborhood of Moore Hill. This summer is not the first time this large snake has been seen. There have been several theories as to how it came here, probably the most feasible being that it was brought here by a man who had been in the neighborhood of Moore Hill five years ago. This reptile had escaped from a passing crowd. For a long while the manager of Moore Hill had been on Moore Hill. A party was sent out with ropes, guns, knives and clubs located it in a swamp. It was killed. "But whatever the pedigree, all are now agreed that the snake is not of mental origin and steps will probably be taken before long to capture or kill it.
