

CHINESE COURT'S RETURN.

FOREIGN MINISTERS WANT NO ELABORATE CEREMONIES.

Opposed to Magnifying the Importance of Kwang-shan's Return to the Capital—Question of Paying Duty on Goods Brought From Tientsin Raised in Pekin

Special Cable Dispatch to THE SUN. PEKIN, Oct. 2.—Chou Fu, the Provincial Treasurer, has begun the payment of nearly 5,000,000 taels as indemnity to native converts on account of the Boxer uprising and the loss of their property.

Prince Ching and Li Hung Chang, the Chinese envoys, are anxious as to the attitude of the foreign Ministers in receiving the Court on its return here. They have endeavored to get an expression of opinion from the Ministers on this point, but the latter are indifferent. The foreign representatives are opposed to magnifying the importance of the return of the Court and prefer that the ceremonies attending it should be inconspicuous.

This course is considered to be best, as, while the presence of the Court would facilitate relations with foreign Governments, the responsibility is solely with the Chinese. The Ministers will simply await overtures and a plan of action will be discussed while the Court is stopping at Kaifeng-fu. All the new foreign Ministers will have to present new credentials when the Court arrives here. This, of course, will not affect Mr. Conger, the American representative.

The recent conferring of the yellow jacket on the members of the Grand Council and high court officers because of their ability and faithfulness when the Court was in desperate straits, and the negotiation of a loan of 600,000 taels by Li Hung Chang and Prince Ching for the expense of the preparation for the reception of the Court in the province of Chihli, which is rapidly progressing, have increased confidence in the early return of the Emperor and Dowager Empress. The Ministers will be able to unite on a policy of the treatment to be accorded to the pilgrim Court, unless pressure is required to force its departure from Kaifeng-fu. In that case it is doubtful if the Ministers can come to an agreement.

The Foreign Office has addressed a note to the Ministers asking for the restoration of the restrictions on merchandise imported by way of Tientsin, which now pays no duty, it being alleged that it is for the use of the legations and the foreign guards remaining here.

Formerly merchandise for the legations was admitted free of duty when declared at Tientsin, but the provisional government in charge now does not accept the duty on any importations, which have been increased by the fact that where there were formerly only three foreign merchants in Pekin there are now nearly thirty. For this reason Prince Su, who has charge of the collection of the octroi at Pekin, wishes to tax all merchandise brought into the city. Yesterday he seized forty-eight cases of goods belonging to the oldest merchant in the city for the non-payment of the octroi tax, and a test case will be made of the matter.

There are many precedents in favor of the merchants' assertion that they are exempt from the tax. The Ministers concerned favor Prince Su. Though Pekin is not an open port it is probable that the merchants will not be molested hereafter if they pay the tax.

Admiral Kow-shang yesterday. He leaves tonight for Tonku to inspect the gunboat Monocoy.

OUTBREAK ON THE YANGTSE.

Chinese Rebels Whipped Attacked Mission in Swatow River by Gen. Wu.

WASHINGTON, Oct. 2.—News of an outbreak of Chinese rebels came to the State Department this morning from Consul McWade at Canton. The information shows a most disquieting situation in China, while at the same time it is apparent that the Chinese Government has taken active measures to suppress the uprising. Consul McWade's report follows:

"SECRETARY OF STATE, Gen. Wu with 1,500 soldiers routed Triad rebels at Singing, district of Kwang-shan, killing 200, capturing 100, and subsequently deporting many prisoners. German mission burned. German missionaries fled safely Hong Kong."

State Department officers are of the opinion that the outbreak has no connection with former Boxer troubles, and they say there is reason to believe it is confined to the Yangtze Valley, where there has been much dissatisfaction among the people over the conduct of Chinese officers. The Triad is a Chinese secret society.

BULLER WONT ANSWER.

He Refuses to Discuss the Statement That He Advised Ladysmith to Surrender.

LONDON, Oct. 2.—The Yorkshire Post says that one of its correspondents called Gen. Sir Redvers Buller's attention to the persistent reports that after the battle of Colenso he (Buller) telegraphed to Gen. White, the commander at Ladysmith, which was at that time besieged by the Boers, to destroy his stores and make the best terms possible for the surrender of the 12,000 British troops there. In reply to the correspondent Gen. Buller said he was unable to depart from his rule not to answer that charge.

After two hours of close fighting the enemy was driven off. "Our casualties, I regret to say, were severe. Of the officers, I was killed and I was dangerously wounded. I have since been slightly wounded. Of our men, 31 were killed, 6 dangerously wounded, 42 severely wounded and 26 slightly. The wounded have arrived at Rustenberg and are being well cared for. Forty more remain to be accounted for. "No details have been received. Col. Kekekwik, who was slightly wounded twice, reports that all the ranks behaved extremely well. "The report of the enemy's heavy loss at Rains and Prospect are confirmed. It is reported that 250 Boers were killed and 300 wounded."

A later message from Lord Kitchener says that the two Royal Artillery guns which were captured by the Boers at Vaalfontein have been recovered. PRETORIA, Oct. 2.—There has been severe fighting near Nagat's Nek. Gen. Delarey's British casualties were heavy. The troops fought magnificently. The Scottish Horse sustained the heaviest losses. Eventually the Boers were repulsed with heavy loss. Gen. Delarey had suddenly concentrated about a thousand men, and with these he made the attack.

Gen. Kitchener, Gov. Lord Milner, Sir Gordon Sprigg, Prime Minister, and Cape Colony, and Mr. Froese held a conference at Johannesburg yesterday. The object of the conference has not been transmitted.

It is believed that this seam is the beginning of the long-sought-for and supposedly valuable coal field which geologists in this country have been endeavoring to find under that part of England. English and French experts regard the discovery as most important, and anticipate further important discoveries to-morrow. There is much excitement in the district. "FREE SOCIETY" OUT AGAIN.

Chicago Anarchist Sheet Resumes Publication.

Emma Goldman Furnishes the Leading Article—She Attacks McKinley and Tries to Stir Up Sympathy for Czolgoz—Goldman Men's Talk in Chicago.

CHICAGO, Oct. 2.—In the official organ of the Chicago Anarchists, Free Society, the publication of which was formally resumed to-day for the first time since the assassination of President McKinley, the Anarchist leaders give evidence that neither the memory of the dead President nor the grief of the public is considered or respected. The trend of the articles in Free Society is to incite the feeling of the workingman against the present order of society and thus justify anarchy.

Law, government and order as now existing are attacked under various forms in the eight pages of the paper. The leading article is entitled "The Tragedy at Buffalo." It is printed over the signature of Emma Goldman, whose speech Leon F. Czolgoz at the time declared had fired him with anarchy and led to the current President. Throughout the entire article, Emma Goldman arraigns Government and William McKinley, and she is full of praise, which is payable from the beginning of the article, for anarchy and the deed of Czolgoz finally terminate with an official declaration of reverence and sympathy for the assassin in Auburn Prison.

The paper was completed this morning and was printed to-day. It is dated Sunday, Oct. 6, and is copied and ready for distribution by Friday night among various turners and workmen's organizations. It was planned to circulate the paper at the meeting of the Anarchist mass meeting in Mueller's Hall, North avenue and Seligwick street, where Emma Goldman is held to speak. While the Anarchist leaders are busy printing their paper and planning to meet to-morrow night, Mayor Harrison issued a peremptory order to Chief of Police O'Neill, instructing him to prevent the delivery of any literature by the Anarchist leader, Emma Goldman, in Chicago at the present time.

ASSASSINS OF THE PRESS.

Denunciation of Yellow Journalism by Long Island Republicans.

Hempstead, L. I., Oct. 2.—Measures looking to the suppression of yellow journals in this section of Long Island were taken by the Republicans of the First Election district at their primary. Resolutions eulogizing the late President McKinley and calling on Congress to enact laws which would provide the death penalty for attempts upon the lives of State or National Executive officers were adopted.

The last two clauses of the adopted resolutions condemn yellow journalism in this way: "Resolved, That we condemn the doctrines and acts of the Anarchists by whom our late President was slain, and of their associates, who have endeavored to destroy the life of every man and description, and to bring about a general anarchy."

GOV. ODELL IN ALBANY.

Receives Two Letters Asking Him to Commute Czolgoz's Sentence.

ALBANY, Oct. 2.—Gov. Odell came to Albany to-day and was at his desk in the Executive chamber in the afternoon. He will return to Newburgh to-morrow. The Governor has received two letters petitioning him to commute the sentence of Leon Czolgoz, the assassin of President McKinley. One is from a man in Illinois and the other from a man in Maine. Both think that the case is a proper one for the exercise of Executive clemency. The Governor regards the letters as erratic epistles. The Governor has received the petition asking that the murderer's body be buried at once, and he has not yet decided whether that if the relatives demand the body it must be delivered to them under the law.

Polish Catholic Union Denounces the Assassin.

SYRACUSE, Oct. 2.—The Polish Catholic Union of the United States in convention here to-day passed resolutions denouncing the assassin of President McKinley, repudiating the insinuation that the Polish people have any sympathy for Czolgoz, or for Anarchists and other enemies of the Poles. It was reported that the union had more than 11,000 members. Archbishop McCarroll sent greetings to the evening meeting at Turn Hall Mayor J. McGuire was one of the speakers. Officers will be elected to-morrow.

Anarchist Must Not Free.

Johann Most was arraigned before Magistrate Healy at Flushing, L. I., yesterday, and as the police did not have any evidence against him he was discharged from custody. The only evidence was the red flag of anarchy found in the hall where Most was arrested by the police.

TAME SPORT AT TERRE HAUTE.

Babe Allerton Wins Big Trotting Stake Easily.

TERRE HAUTE, Oct. 2.—Severely cold weather made the racing listless and the crowd very small to-day. Very little interest (any was shown in any of the events except the 2:12 trot. In this, the last race, there was a large field with Alton, a hot favorite, and Wauban second choice. Alton was heavily backed each heat, but Wauban won each time by narrow margins.

There is much unbecoming comment on the race owing to the sporting men who are heavy losers. In the trotting division of the Kentucky Stock Farm Futurity Stake little or no interest was shown. The race was a large field with Alton, a hot favorite, and Wauban second choice. Alton was heavily backed each heat, but Wauban won each time by narrow margins.

G. A. R. U FOR LOW.

Color Being Out of It the Leaders Are Presumably Against Tammany.

The leaders of the German-American Reform Union refused last evening to make any statement for publication on organization toward the ticket to be nominated by Tammany Hall this evening. It was learned upon the highest authority, however, that the sentiment of the leaders of the union is to support the ticket headed by Seth Low.

The leaders of the Union from the first have stuck out for the nomination of Comptroller Colver for Mayor. They have said that they would support any ticket at the head of which his name appeared. They have said also that they would, in support of the ticket, do anything that would support the anti-Tammany ticket. The city convention of the Union will be held to-morrow evening in Grand Central Palace and unless there is a complete change in the situation between now and then it will nominate Mr. Low for Mayor, and the rest of the fusion ticket.

POLITICAL NOTES.

The three States in which woman suffrage has been officially adopted—Colorado, Utah and Wyoming, are not the only ones in which the vote has not become operative until the next Presidential election.

New York received last year \$103,000 from Register's fees, \$12,500 from Surrogate's fees and \$47,500 from an official stationery stamp duty, which is a total of \$163,000. The last item was collected in Brooklyn.

They have agreed to reconvene the State Legislature to elect a committee of the Legislature of the State for Senator can be determined by popular vote.

The following States have at one time or another been under military rule: Maine, Vermont, Rhode Island, New Hampshire, Massachusetts and Connecticut in New England; New York for one year; Pennsylvania, Illinois, Ohio, Indiana, Iowa, Missouri, Nebraska, Kansas, North Dakota, South Dakota, Texas, Mississippi, Delaware and South Carolina. The Senatorial term of Boies Penrose, Pennsylvania Republican, expires on March 4, 1903, and Gov. Stone is said to be giving close attention to the nomination of State Senator candidates for the term of four years and those elected next year will participate in the choice of successors to Penrose in 1903, and Quay in 1904. It is expected that the next year the State of Pennsylvania will participate in the choice of successors to Penrose in 1903, and Quay in 1904.

The announcement is made in Alabama that there will be no opposition at the close of his term in 1903 to the reelection to the United States Senate of the veteran Senator from that State, Senator J. W. Fulbright. It is said that the State of Alabama owes him the most debt of honor for fidelity to his interests and the good of his State.

Since the adoption of the new Maryland Election law establishing an educational test for suffrage, the work of instructing voters has been carried on by the two parties there, but chiefly by the Republicans. The Maryland Election Law is now being distributed in Baltimore sample ballots among the voters. It has been found that persons of more than average intelligence have marked their ballots to-night as to whether the men would return to work at the usual hour to-morrow morning. The men will answer that they will not return to work unless expressions are made by the management that the men would return to work at the usual hour to-morrow morning. MCKINLEY ON TEACHING BOYS.

WHAT HE SAID TO PRESIDENT FRITCHETT OF BOSTON.

Head of the School of Technology Quotes a Message of the Late President on Teaching Boys Their Duty to the State—Necessity for Higher Ideals.

BOSTON, Oct. 2.—The Massachusetts Institute of Technology opened to-day on its thirty-seventh year. President Fritchett said to his students:

"As I look into your faces, I can but remember the words of the dead President, so recently struck down by the hand of an assassin, spoken as I said good by to him a year ago, when I came to the institute. "I hope," he said to me, "that some way will be found to teach the young men in our schools a better estimate of the dignity and honor of serving one's country well, and that in some way they may come to understand that men in high places in the Government are honestly striving for good ends, and that unworthy purposes are stumbling blocks, not helps, in a political career. I wish," he said, "that the boys of the country might understand that they are factors in the country's uplifting and must learn to take upon themselves its responsibilities."

"His death has brought fresh to the attention of all citizens questions of grave import and of far-reaching consequences. It is not my purpose to discuss those questions in any manner way beyond what the President's words and to remind you that they are questions in which you have an interest, and a responsibility. It is our duty to see that the boy who killed President McKinley was aimed at the destruction of all law and of all authority. Even the noblest citizen of our Republic can appreciate that the spirit which stands behind this act is subversive of our whole legal and social order."

ATTACKED BY UNION MINERS.

Presence of Troops Does Not Stop Disorder in Kentucky.

LOUISVILLE, Ky., Oct. 2.—Despite the presence of the State troops the trouble between the union miners of Hopkins county and the non-union employees who are taking the strikers' places at many of the mines seems to increase daily. Last night a force of about twenty-five men attacked the homes of the employees of the Empire Coal and Mining Company in North Christian. The dwellings were riddled with bullets, and Albert Burton, a non-union man, was shot in the chest. About a dozen of the most of the Empire men had retired for the night, a great noise was made at the outskirts of the little settlement and the occupants of the cottages rushed to the State or Federal troops. Immediately they were fired on by the attacking party, one hundred or more shots being fired. The men were scattered and their families and they retreated within doors. Burton fell dangerously wounded and was dragged into his cottage by a member of his family. He is one of the Empire company's most valuable men and has charge of the chief tipple. Miners and guards seized weapons and charged their assailants, who fell back.

JUMPED FROM FERRYBOAT.

Unidentified Man Plunged From the Southside—Not Seen Again.

An unidentified man committed suicide by jumping from the Staten Island ferryboat Southside early last evening. The boat was making a trip from New York to St. George and was off Robbins Reef light, about 4:45 o'clock, when passengers on the after lower deck saw a man climb quickly upon the rail and spring overboard. An alarm was immediately given, the ferryboat was stopped and the boat returned, but no trace of the man could be found. After ten minutes' delay the ferryboat continued on its trip, leaving the man's body to float in the water. It was not until the boat returned to New York that the man's body was found. The man jumped so quickly that in the twilight none of those who saw the man climb to the rail could give a description of him.

Run Down—Played Out

"I am all run down and played out. Nothing I take seems to do me any good. My food doesn't taste good, and I have no desire for it. I don't sleep well, and I get up every morning listless and weary."

This story is told in every physician's office in the country from one to twenty times a day by as many people. These same people not only tell this story to their physician, but they tell it to their friends and to their family.

Johann Hoff's Malt Extract is the thing such people haven't tried. If they had they would be different people, for nothing in the world changes such a condition so quickly as this great food assimilator which has come to us from the old world. Taken with meals

Johann Hoff's Malt Extract

becomes the perfect food digester, and within a very few days the sufferer begins to brighten up. His food is doing him good. It is being assimilated and digested. The stomach has received the required aid, and flesh and blood and nerve energy show it.

Energy is capital. It is good nature. It is usefulness. The half-starved man or woman cannot be expected to be energetic. Get the benefit of your food, and nature does the rest. Johann Hoff's Malt Extract helps nature by aiding the stomach. If you are played out and discouraged, try this delicious tonic a few times with your meals.

Dr. Daniel Thayer of Boston, writes: "I have tried Johann Hoff's Malt Extract, and believe it to be a valuable tonic. I recommend it to patients needing a valuable help when suffering from debility or overwork."

Refuse the cheap so-called Malt Extracts—they are absolutely worthless. Get the genuine Johann Hoff's and you will not be disappointed. EISNER & MENDELSON CO., Sole Agents, New York.

ADAM RICHMOND LOSER.

Court Orders Realty of John Stetson, Jr. Transferred to Mrs. Stokes.

BOSTON, Oct. 2.—Mrs. Adah Richmond Stetson was "defeated" in the Suffolk Superior Court by order of Judge Bishop to-day, thereby depriving her of an appeal which she had taken from the decision of the Court of Land Registration which registered the title to property in Hayward place, as belonging to Mrs. Ella Stokes the mother-in-law of the late John Stetson, Jr., and which found that Miss Richmond was not entitled to dower in it, as the widow of Stetson.

The default followed as the result of the failure to comply with an order of the Court, passed early in September, requiring her to file by Sept. 1
