

JUMPING RACES LAST SEASON.

RECORDS OF 1901 AND THOSE OF OTHER YEARS COMPARED.

History appears to repeat itself in cross-country and hurdle racing. That is to say, the sport rises and falls in point of excitement, from various causes, while still racing runs along the more even tenor of its way.

For some years past the jumping races around the metropolis have been exceedingly popular and certainly strong features as regards racing sports.

This applies not only to the immediate past, but also to the far-away days of Jerome Park, and the later days of 1894-5, when the present association and its predecessors took the matter in hand.

It is interesting to note that the public form was indorsed to such an extent that favorites won 60 to 70 per cent. of the races at fair and remunerative prices, and those who for years had steadily abstained from speculating on such races, turned around and declared that form was straighter than on the flat.

At the close of 1900 the records, as regards winning favorites and also as regards distances covered, were away ahead of anything previously seen in this country.

That year was apparently the turning point, and in 1900 there was a steady decline in the number of horses to a race, and in the price offered against the winner, while the quality of the animals engaged declined very considerably, as is shown by the increase of over 25 per cent. in the number of falls during the season.

With the fall of 1900 there came quite a revival of new recruits to the cross-country division and among them were such horses as Redpath, Fulminate, Eophon, and J. W. thought that again the tide had turned and that another phenomenal year was in front of the jumping enthusiast.

It proved the reverse. The record of cross-country performers depreciated right along the line except in the number of horses to a race, which kept up very well among the hurdlers, but among the steeplechasers fell off materially.

A glance at the following table will make this clear. It gives the date of the race, the number of starters, the number of winners, whether the first, second or third favorite won. The hurdle races are marked with an asterisk, the others being steeplechases over varying distances.

Table with columns: Date, Starters, Falls, 1st Fav, 2nd Fav, 3rd Fav, 1st Fav Won, 2nd Fav Won, 3rd Fav Won.

It will be seen that during the season of 1901, from the first day of Morris Park to the last day of the full meeting at this course, there were fifty-nine races over obstacles, and in these 59 races went to the post, or an average of about seven to a race. This is practically a trifling advance on the two preceding years.

The first thing to show the quality of the animals engaged in the fact that of 404 horses forty per cent. of the only seven being hurdlers; Hamble, Heron and Charango threw their riders; Leon, Cook Robin and Selman rode, and Hopeful, King T and Jessie B. were down, all at the fall and end of the season.

Taking the fifty-nine races there were twenty-one first favorites to win, or 35 per cent. as against the 48 per cent. of 1900 and the 61 per cent. of 1899, and the total of the first three choices to win was only 46, or 77 per cent., just about equal to the records of 1900. This is a very serious falling off from the high standard in other years.

The average price against the winning choice was \$105, both steeplechases and hurdles. This is what was paid in other years, with a much greater percentage of winners, and thus this is the only phase of racing in which a decrease in the number of favorites to win does not advance the price of the leading winner.

Of the 404 races forty were cross-country with slightly over six horses to a race and twenty-four were hurdle races, with an average of about seven horses to a race, and also winners or 48 per cent. of favorites to win. This is clear that while the hurdlers have lived up to their average, the cross-country runners have fallen away behind, almost 70 per cent. since 1900.

It is interesting to note that the average price against the winning choice is not other than \$105. This is a very serious falling off from the high standard in other years.

At the time under during the past year look by steeplechasers and hurdlers. It is interesting to note that the average price against the winning choice is not other than \$105.

The world's time was 1:20.25, 2 1/2 miles.

PRINCE BLAZES WINS STAKE.

DEFEATS JESSIE JARBOE IN MERCHANTS HANDICAP.

Races Run in the Main Prove Easy for Mudraks—Lennep Stumble, but Wins at Six Furlongs—Dark Planet Beat of Two-Year-Olds—Jockeys Suspended.

New Orleans, Feb. 1.—Although the weather conditions were decidedly unfavorable, one of the best crowds of the meeting turned out to-day to see a card of six well-filled races run off. It was raining hard when the field in the Merchants' Handicap at a mile and a sixteenth went to the post. The track, which received the most thorough drizzling of the season during the past week, was a canal of mud and slush.

The stake race was captured by George Duke's great mudraker Prince Blaze, who got up in time to win from Jessie Jarboe by a narrow margin. Prince Blaze was rated behind the bunch at the sixteenth pole. Nutt then out loosed with the son of Blaine who had to come through on an extreme outside. He finished under the judges' stand, while Jessie Jarboe and Henry of Framstamer were fighting it out for the place on the rail. Pet Matre died in the closing strides.

Jockeys Howell, Lyne and Rhinehards were taxed 100 and suspended for a week for their bungling work in the two-year-old race. Jockey Wilkerson was set down for a week for disobedience at the post in the race. The stewards were not satisfied with the running of Handooper in the fifth race and de. J. refused his entry in the future. Dr. Carrick proved to be a surprise in an opening event by winning in a hard drive from St. David, the odd-on favorite.

A neat bunch of two-year-olds went to the post in the second, Julia Lileem, Offset and Fairly like in one of the breakaway races at full distance. Dark Planet won the race galloping. The six-furlong handicap proved a close finish between Lennep and Pigeon Post. Soon after the start Lennep stumbled and jockey Gormley had a very narrow escape. Jerry Hunt at 7 to 1 took the fifth race in a gallop from the rest, showing a great deal of ability. Sullivan's Sandiford, who stood a hard drive all down the stretch and won by a head from Provi. Nutt was the runner-up.

First Race—One mile—Dr. Carrick, 101 (Time, 1:15.1) and 1 to 1, won; Dark Planet, 102 (Time, 1:15.2); second, Carlotta, 95 (Time, 1:15.3); third, 100. Pigeon Post, 103 (Time, 1:15.4); fourth, 104.
