The Wanamaker Store Annual Sale of Watches and Clocks

We announce today a movement that will make a greater sensation in the trade than it will to the public. Watch manufacturers simply can't supply the demand for movements. Retailers who formerly got discounts from the lists of movements are today offering a premium on list prices to get movements to fill the cases they have obtained from the manufacturers, and yet cannot secure them.

An Average of a Quarter Under-Price

While some are only twenty per cent under-price, others are reduced fully forty per cent. The occasion is the result of trade efforts reaching back almost a year, in the accumulation of the movements for this annual event.
