

JUDGE O'BRIEN RENOMINATED.

DEMOCRATIC STATE COMMITTEE MAKES IT CANONICAL. Resolution Adopted Providing That Candidates for United States Senator Be Nominated by the State Committee—Party Reorganization Plan.

ALBANY, Sept. 5.—Few of the members of the Democratic State Committee, which met at noon today and renominated Denis O'Brien of Watertown, Associate Judge of the Court of Appeals, reached Albany until late in the morning. Charles F. Murphy, the leader of Tammany Hall, and James Shevlin, representing Hugh McCleughan, the veteran leader of the State Democracy, came down from Saratoga and reached the Hotel Ten Eyck shortly after it closed this morning.

The committee met at noon in the Democratic State headquarters, in the old Treadwell mission, in North Pearl street. Chairman Frank Campbell called the meeting to order. David B. Hill attended with the proxy of George B. Hill of Ogdensburg. Other proxies were Bernard J. York for Hugh McCleughan, John J. Delaney for Dan E. Finn, Representative Francis E. Burton for Thomas F. Carr, and James W. Gerard for Thomas McAvoy of New York City. "Big Tim" Sullivan was represented by Senator Thomas C. O'Sullivan, John J. Kennedy of Buffalo by Attorney-General Cullen, and Jacob Gerling of Buffalo by A. E. Hoyt of Albany. Senator P. H. McCarren did not attend the meeting, nor was any proxy for him announced.

The resignation of John F. Carroll as a member of the committee was read and accepted. Representative Francis Burton Harrison was elected in his place. The question of filling the vacancy caused by the resignation of Committee William B. Fitzpatrick of Buffalo was referred to the suggestion of David B. Hill, because there is some dispute over the filling of the vacancy and on account of the absence of Committee member John J. Kennedy of Buffalo. Mr. Hill said the State Committee might well let the Buffalo Democrats settle the controversy among themselves.

Chairman Campbell was presented with a gavel made from the wood of the flagpole of Rivet Savage, of Revolutionary fame. Then John N. Carlisle of Watertown, secretary of the State Committee, placed the name of Denis O'Brien in nomination for Associate Judge of the Court of Appeals. The nomination was seconded by Attorney-General Cullen, and by James W. Gerard and John J. Delaney on behalf of Tammany Hall. The nomination was unanimous.

STATE MAY IMPORT LABOR To Help Out Louisiana Oyster Cannery.

NEW ORLEANS, Sept. 5.—The State of Louisiana may come to the assistance of the Louisiana oyster cannery by bringing the necessary labor from abroad. The shrinkage and canning of oysters are done in this country almost exclusively by Bohemians, and the supply of labor is not equal to the demand.

The Louisiana cannery, especially Duke, Lopez and the Dunbars, have complained to the Louisiana Commission of the present condition, brought about by the new Louisiana Oyster law. The cannery was mainly situated along the Mississippi coast, but, as the Louisiana law prohibited any but Louisiana establishments from taking oysters from the Louisiana oyster beds, they have been compelled to move to this State and have erected large factories near New Orleans.

But the labor shortage is not the only one. The laborer's lack of skill, John Dymond, counsel for the commission, suggests that the labor be secured abroad, that in going so the Contract Labor law will not be violated. It prohibits persons or firms in this country from contracting with foreigners to come to the United States for labor, but the law, while rigid against individuals, does not, Mr. Dymond points out, prevent a State importing labor.

The State may cause it to be known in foreign countries that labor is in demand in this country and may indicate to those who seek to induce to come that places are waiting for them. In this way only, he says, can relief be found.

Mr. Dymond takes the view that as the State of Louisiana compelled these cannery to move their establishments to Louisiana, it ought to assist them in securing the necessary labor.

Big Combination of Bituminous Mines in the Pittsburgh District. Mr. Dymond takes the view that as the State of Louisiana compelled these cannery to move their establishments to Louisiana, it ought to assist them in securing the necessary labor.

THREATENED SECRETARY HAS POLICE GET MAN WHO WROTE MANY LETTERS TO HIM.

"When I Take Action There Will Be Something Serious," He Declared—Wanted the Government to Press His Claim Against German—Sent to Bellevue.

Francis W. Beque, a photographer, 44 years old, who lived in a furnished room at 155 East Fifty-third street, was taken to the Yorkville police court yesterday because of a letter he wrote to Secretary of State John Hay, at Washington, and was committed to Bellevue Hospital for examination as to his sanity. The letter contained what was thought to be a threat to do bodily harm to the Secretary.

Beque had written a number of letters previously to the Secretary of State demanding that the United States Government compel the German Government to pay him \$41,000 on an alleged claim. The State Department officials long ago ceased to answer the photographer's letters, and last Tuesday a letter was received from him declaring that he would give the Secretary three days in which to say whether he was going to do anything about pressing his claim. The writer added that if the Secretary did not take up the matter he would do something himself.

"When I take action," he wrote, "there will be something serious, and I am sure the public will believe that I was justified and did it in self-defense." It was thought that the man had brooded so long over his supposed claim that his mind had become deranged, and it was decided that some action should be taken. Detective Muller of the Washington police was sent to this city on Friday with a copy of the letter, and went to Police Headquarters. The photographer had given his address, and Detective Sergeant Jackson and Muller went to the Yorkville police court and showed the copy of the letter to Magistrate Connelley.

Jackson made a complaint as the basis for a warrant. He declared that on Sept. 1, Beque wrote incoherent and unreasonable letters to public officials, and ordered in his names and not to be at large. The photographer lived in a furnished room on the top floor of a four-story tenement. He had been living there since last March, and had a quiet, peaceable man, who had little to say to the other tenants.

The detectives went to his room yesterday morning. They had been ordered to get him to do some photographic work, and, after talking for a time, they asked him about the letter he had written to the Secretary of State. He said that he had sent the letter, and his visitors asked him if he would mind going around to the court to explain the matter. He replied that he had no objection to putting on his hat and accompanying the detectives.

He was neatly dressed and had the appearance of a man of intelligence. The Magistrate asked him if he had anything to say about writing letters to the Government officials at Washington.

"Yes, I have been asking them to assist me in getting justice from the German Government," he said. "I read the letter, and I believe the writer was not of sound mind. I will commit you to Bellevue Hospital for examination, as to your sanity, and your letter to the Government, as he had a commitment to Jackson. The photographer made no protest and quietly walked downstairs with the detectives.

Beque was born in this city of German parents, and when he was very young, his family went to Hamburg, Germany. He started a photographic business there, and when he had prospered, he returned to this country about fourteen years ago and wrote to Secretary of State James Blaine that he had a claim against the German Government. He said that the Government had persecuted him because he refused to become a German subject, and in consequence he was obliged to sell out his business at a great loss. It was worth \$33,000, he said, and he sold it for \$3,000.

The State Department investigated his claim and wrote to him that his grievance against the German Government was a matter to be settled by the civil courts. He did not accept that view, and he said that he had been pressing his claim before every Secretary of State since then. He also wrote to each President and asked that the Secretary be required to attend to his matter. No serious attention was paid to his letters, as he was considered a harmless crank, until he wrote the one which contained the supposed threat.

FINANCIAL AND COMMERCIAL. SATURDAY, Sept. 5.

The New York Stock Exchange and stock exchanges the country over were closed today. They were the New York Produce and the New York Cotton exchanges and the Chicago Board of Trade. These institutions will be closed again on Monday-Labor Day. The London Stock Exchange also was closed yesterday. Banks and financial institutions were open as usual.

The weekly bank statement practically met the forecasts made of it, and in this way, at least, was not disappointing. There was an increase of \$1,304,300 in loans, a decrease of \$1,000,000 in deposits, and a decrease of \$3,875,100 in cash holdings. Reserve on all deposits decreased \$3,300,000. The total in cash holdings was due in part to shipments to Boston, where a sale of Lake Superior copper properties was effected during the week, and to demands for cash to meet "out-of-town" holiday expenditures.

The following shows the principal changes in the more active stocks:
