LOOK FOR COPPER ADVANCE.
EFFECT OF THE CLOSING OF THE AMALGAMATED MINES.
The Suspicion That There Are Large Reserve Stocks of Copper is Unfounded—A New Era of Prosperity Expected in the Cripple Creek District.

HOUGHTON, Mich., Oct. 25.—The closing of the Amalgamated mines in Montana as a result of the litigation with F. A. Heinze has brought the general copper situation to focus. There has been more than one speculation in England, for some months past, that large stocks of copper have been accumulated again in this country, presumably by Amalgamated—United Metals Selling Company interests, and that the price of the metal would be due soon.

RENO, Oct. 26.—(Between Sept. 20 and Oct. 3 the Montana-Tonahop mine at Tonahop shipped 3,770 sacks or 290 tons of selected ore to the market. The ore was sold to the Morgan mill at Empire, making a test run on some of the ore. The Tonahop Gold Mining Company has been making a test run on some of the ore at the Morgan mill, southwest of Tonahop. At the Morgan mill the ore is being crushed and the gold is being extracted from the waste.

SEATTLE, Wash., Oct. 26.—A great deal of attention is being paid to the bench claims, half a mile from Belting Sea, paralleling the shore of Port Gardner. It is expected that the depth of the mine to fifteen feet will be encountered, giving three cents to \$3 to the ton. Work will be carried on all winter.

PHOENIX, Ariz., Oct. 26.—Four of the ring-leaders of the big labor strike last June have been arrested in Phoenix. They are Fred W. Brown, James P. Brown, James P. Brown, and James P. Brown. They are charged with conspiracy to defraud the United States.

RISE OF SHORT IN LOUISIANA AND TEXAS.
NEW ORLEANS, Nov. 1.—Returns from the rice district of Louisiana and Texas indicate a smaller yield than was first estimated, a total of 600,000 bags, as compared with the first estimate of 800,000 bags, the finest quality ever grown. The shortage of the crop is attributed to the fact that rice was nearly a month late this season.
