

SHOT BY DRUNKEN POLICEMAN

SALOONKEEPER FATALLY HURT BY HIS COMPANION.

Diefenbacher, who accompanied two cops to get "one more drink," is hit when the latter draw revolvers to scare a clerk who had returned to serve.

Otto Diefenbacher, a saloonkeeper at Twenty-seventh street and Seventh avenue, was shot by policeman Daniel J. Mulcahy of the Tenderloin station in a wholesale liquor store in Carmine street at daylight yesterday morning.

It had not been that the three men wanted "just one more drink," after a night of carousing, Diefenbacher would not have been shot.

Diefenbacher will probably die and Mulcahy is held without bail to await the result of his countryman at Bogart Heights.

The policemen, after doing patrol duty through the early part of the night, left the Tenderloin station at midnight, presumably to go to their homes.

Mulcahy knew the saloonkeeper, and also his wife. The three went into the back room, accompanied by Hunter.

The quartet rode downtown together in a Sixth avenue car, and were very jolly. Diefenbacher and his wife were on their way to their home at 42 Carmine street.

The saloonkeeper and his wife left the two policemen and went home to bed. Suddenly Diefenbacher jumped up and began to put on his clothes again.

"I've got some important business to do," he said. "I've got to go out." She tried to stop him, but he stubbornly refused to stay.

"Give us a drink," said one of the cops. "Can't," replied the clerk. "We don't do any bar business here."

"Damn you, we must have a drink!" insisted Hunter. At the same moment he pulled his revolver from his pocket and pointed it at Martino's head.

"I'll blow your head off," said Hunter, holding the pistol close to Martino's forehead. "If you don't give us a drink."

According to Martino's first story, Hunter lowered the revolver and fired two shots at his feet, but this he denied later. The sight of the revolver was enough to inflame Mulcahy, and he had his revolver out in a jiffy.

"That's not loaded," he shouted, "but this," and he pointed it at Martino's head. The clerk, who was badly scared, edged off, and Mulcahy grabbed for him with his left hand.

"I'll blow your head off," said Hunter, holding the pistol close to Martino's forehead. "If you don't give us a drink."

According to Martino's first story, Hunter lowered the revolver and fired two shots at his feet, but this he denied later. The sight of the revolver was enough to inflame Mulcahy, and he had his revolver out in a jiffy.

"That's not loaded," he shouted, "but this," and he pointed it at Martino's head. The clerk, who was badly scared, edged off, and Mulcahy grabbed for him with his left hand.

"I'll blow your head off," said Hunter, holding the pistol close to Martino's forehead. "If you don't give us a drink."

MURDERED MAN'S MILLIONS.

W. M. Rice's Estate \$4,481,000—Most of It Goes to Rice Institute.

The executors under the will of William M. Rice, the octogenarian of whose murder Albert T. Patrick was convicted, will submit a report to Surrogate Fitzgerald some day this week, showing that the property in their hands amounts to \$4,481,000, the bulk of which goes to found the Rice Institute at Houston, Tex.

Of the estate \$3,415,800 is in this State and \$1,065,200 is the value of certain real estate in Texas. There is also a \$12,000 piece of ground at Plainfield, N. J.

William M. Rice died of chloroform poisoning on Sept. 23, 1900. He had made several wills, but only two of them came into the subsequent litigation, one dated Sept. 26, 1896, founding the Rice Institute, and the other, dated June 30, 1900, leaving the bulk of the estate to Patrick.

The testator's nearest relatives were two sisters, Mrs. Charlotte S. McKee of Springfield, Mass., and Mrs. Minerva R. Olds of Palmer, Mass. They and a number of nephews and nieces were remaindermen in the will to the extent of about \$400,000 altogether.

SINGER ESTATE STOCKS.

Not Worth So Much Now as They Were When He Died.

The appraisal of the estate of Isaac A. Singer, who died on Sept. 25, 1902, shows that he left personal property worth \$1,255,796 et. of which \$139,854 was in this State. It consisted of 400 shares of Metropolitan Street Railway Company stock worth \$56,500, and a number of bank deposits, in addition to a promissory note for \$14,893 signed by D. M. Brady.

The property outside the State, aggregating \$1,075,942 gross, consisted in part of 150 shares of Peoples Gas, put in at \$15,780; 400 United States Steel preferred, put in at \$36,000; 725 United States Steel common, put in at \$70,725 (41); 1,220 shares of American Sugar Refining, worth \$154,160; 1,290 shares of Amalgamated Copper, put in at \$85,140 (66); and 4,833 shares of Singer Manufacturing Company, valued at \$48 a share or \$1,184,085.

Mr. Singer's total assets came to \$1,443,949 but the deductions for debts and commissions, including \$288,666 due to W. B. Lawson & Co., brokers, aggregated \$388,153.

Under Mr. Singer's will, his widow, Sarah Jane Singer, has a life interest in his entire estate, with remainder to the four children, Charles A., Josephine and Mortimer Singer, and Sadie V. Brady. The widow and Charles A. Singer are executors.

TO SELL KEMP ESTATE REALTY.

Valuable Fifth Avenue Properties Seen to Go Under the Hammer.

The Buckingham Hotel and the Belgravia apartment house will be put up at auction next month, together with a lot of other valuable Fifth avenue property belonging to the estate of George Kemp. Announcement was made yesterday that the partition sale of the estate's realty will be held in the Real Estate Salesroom, 101 Broadway, on May 17. This includes the house occupied by Edwin Gould at the northwest corner of Fifth avenue and Fifty-sixth street and the Edward Kemp residence at 22 Fifth avenue, next door to old buildings at the southwest corner of Fifth avenue and Forty-seventh street also will go under the hammer.

The Buckingham and the Belgravia take up the block front on the east side of Fifth avenue, between Forty-ninth and Fiftieth streets, just south of St. Patrick's Cathedral. In a number of recent instances important land owning estates have formed themselves into joint stock companies, with a view to convenience in the management of property and its distribution among interested parties. Where such corporations are formed the realty is generally put up at auction, in order to fix its market value and to satisfy legal technicalities. Efforts to learn whether an incorporation of the Kemp estate is contemplated were unsuccessful yesterday.

WOODCHOPPER FOUND DYING.

Had Been Missing for Three Days—Brought Home Injured Badly.

PITTSFIELD, Mass., April 16.—Mystery surrounds the cause of the death, at the House of Mercy in this city yesterday afternoon, of Archie Delisle, a woodchopper, 40 years old, who had been working for Harrison L. Pease, a lumber dealer and farmer in the town on the road to Otis.

On last Sunday night Delisle left the Pease home, and that was the last seen of him until about midnight on Wednesday, when two strangers brought him back in a buggy. He was in a serious condition. His left arm was broken, his right ear was torn off, he was bruised from head to foot, as if some one knuckled and kicked him. He was also suffering from a hemorrhage, apparently by a heavy team passing over him.

The man was dazed, and could give no story of where he had been. On Wednesday morning he was removed to the House of Mercy in Pittsfield, where he gradually grew worse and died yesterday afternoon.

Delisle was invited to go on a spree once in awhile, but the police think there is far more back of his death.

RAILROAD MERGER PLANNED.

Hollanders Control Chicago Great Western and Kansas City Southern.

CHICAGO, April 16.—A merger of the Chicago Great Western and the Kansas City Southern Railroads is planned, it is said, by the Holland capitalists, who are now the heaviest stockholders in both of these roads. Not until the recent meetings of the directors of the Kansas City Southern did it develop that Holland capitalists had quietly added large blocks of stock to their holdings, until they had more than Harriman and his associates. The latter had planned to issue additional bonds of the company to the extent of \$5,000,000, but on account of the opposition of the Holland stockholders this was abandoned.

At a later meeting of the directors to elect officers, the Holland interests demanded that Herman N. Siskel be elected vice-president, and that George J. Gould and John Lambert be deposed as vice-presidents and Max Fern as counsel of the company. But then precipitate a fight which might sever all the relations with his system, Harriman agreed to the demand of the Dutch stockholders.

Happy Up-Stater Discharged in Court.

The man who registered at the Hotel Normandie as "C. A. Kellogg of Ogdensburg, N. Y.," had a jovial time on Friday night, attempting to smash up the hotel furniture, was apparently feeling contrite in the Jefferson Market police court yesterday morning. He was discharged.

Cost Conductor \$10 to Slap Woman's Face.

Mrs. Matilda Hen of 43 East Forty-first street, Bayonne, appeared in the First Criminal Court, Jersey City, yesterday, against John Hohnholt, a trolley car conductor, whom she accused of slapping her face on his car two weeks ago. He was fined \$10.

MARCH FROST IN APRIL AIR.

BITTER 74-MILE ZEPHYRUS MAKES A MOCK OF SPRING.

Snow Alarm From Up the State Rung in the Street Cleaning Department—It Won't Show, for the Air Is Too Dry, but It Promises to Freeze Up To-day.

Blossoms that came out prematurely with the bamboozled groundhog shut up shop yesterday to wait for spring to come back. The fiercest wind of fitful March was not much more frosty than the blast that the Weather Bureau found winding up its anemometer at 7:30 o'clock this morning.

For five minutes below 13 degrees, never received a modest screecher from the West had been doing a forty-eight-mile stunt, with suggestions of frigidity on the side. Then the real thing in April zephyrus came along, whistling a crystalline tune, out of places in the Northwest where the mercury had dropped below 13 degrees.

For five minutes below 13 degrees, never received a modest screecher from the West had been doing a forty-eight-mile stunt, with suggestions of frigidity on the side. Then the real thing in April zephyrus came along, whistling a crystalline tune, out of places in the Northwest where the mercury had dropped below 13 degrees.

GRAPENUTS.

FEED WITH CERTAIN ELEMENTS REQUIRED IN THE GRAPE-NUZ.

Poor memory means an ill nourished brain. The proper food to help and nourish the brain will thus help the memory, as in the following case:

"I have not known what it is to enjoy real good health, not having seen a well day in over 20 years and taking medicine most of the time until about a year ago.

"At that time I was suffering greatly from nervous prostration and general debility, the result of several severe illnesses from which I never expected to fully recover.

"My memory was also so poor that it caused me much chagrin at times.

"I had often heard how Grape-Nuts had helped other people's memory and that it was a brain food. Finally I was put on Grape-Nuts for my meals.

"It was so pleasing to the taste I enjoyed eating it, and after a time I saw such an improvement in my health generally that I gave up medicine altogether.

"Am not even using laxatives now that I had been unable to do without for years. Grape-Nuts helped my nerves, gave me strength, increased my weight ten pounds, and I can now work and walk better and enjoy life as I never expected to again.

"When my friends remark how well I look and act I tell them it is all due to Grape-Nuts. My doctor never sees me but he smiles with genuine pleasure and congratulates me on my improvement, for he is an old friend and would like to see me perfectly well, knowing how long and how much I have suffered." Name given by Postum Co., Battle Creek, Mich.
