

GEORGE SLOSSON A QUE KING.

BEATS SCHAFFER IN DECIDING GAME OF TOURNEY.

By a score of 500 to 390, the Student becomes champion at the 11th annual line ball tournament...

George Slosson defeated his long-time rival, Jacob Schaefer, last night in the final game of the regular season in the ball tournament...

He fell short on drives several times and at times dropped the ball for 25 points, but he began to gain the speed of the ball better and went very rapidly up to the 50 mark...

He landed the ball inside the upper balk line and with vapor took he ticked off a dozen points with but one drive to the end rail...

He made 18 points in all, missing a mass, and was in the lead, which he did not go further ahead. He tried to make a mass with the cue ball in the other two...

He played over the red ball and followed it with his cue.

Slosson beat the Wizard to the 100 mark. His seventh inning was good for 116 points. It contained some neat work, due to careful coaching back and forth on the lower rail...

When they ventured beyond the netes and bounds of the three lower staves, they spread widely on drives once or twice, but were in satisfactory relative position, and the edges were kept in line and maintained an effective average of position.

The student stopped once because a nearby spectator's remarks were too loud. On nearly one and two cushion drives he did not work in bringing the object ball right to the cue ball. Under his direction the two object balls revealed the inseparability of Damon and Pythias. They were in that condition when he made the 100th point in his run.

The 100th shot was a cue ball chase along the front end rail, the cue ball and the second ball meeting with a hard, solid kiss, according to specifications. Slosson's total was 500 and Schaefer's 390.

Then Slosson took the chair for a 100 run. He proceeded straightway to reduce Slosson's lead by 21. He carried the balls down the centre space to the rail and back, a spinning mass in the open attending by one the shot and the other by the cue ball.

After making 29 points in his eighth inning Schaefer finished his run with a 100 point run. He made a shot that involved a tortuous trip for the cue ball. He chose the latter, sent the cue ball to a far away corner, back for a count, but got bad position. The first object ball, not far from the cue ball, struck a short triangle trip, left a spread which was nursed.

Two innings after Slosson had completed his second hundred Schaefer did likewise. At the same time he went into the lead by one point. After the 100th point Schaefer was in the lead by 213 to 212 in his favor. Schaefer's tenure of the lead was very brief. He made a shot that involved a tortuous trip for the cue ball. He chose the latter, sent the cue ball to a far away corner, back for a count, but got bad position.

HORSE LEFT HIM UP A TREE.

Central Park Experience of Horace Maxwell, Who Went Driving.

Horace Maxwell of 7 East Seventy-fourth street went out for a drive yesterday afternoon in Central Park. He started out behind a fast trotter, and wound up in the branches of a tree at Madison avenue and Seventy-second street, fifteen feet from the ground.

The horse took fright on the East Drive and bolted out of the park at Seventy-second street. The runaway collided with a tree at Madison avenue and Maxwell was thrown into the branches.

The runaway was demolished and the horse broke away, going up Madison avenue, where it was caught by Policeman Ryan. He walked down the avenue and found Maxwell trying to get down from his perch. Maxwell was taken home in a cab, suffering from bruises and shock. The horse was uninjured.

STOLEN WALLET IN HIS SOCK.

Good Sprinter Picked the Right One of Three Car Crowders.

While riding on the rear platform of a northbound 24-cent car, last night, Charles Gunther of 113 East Eighty-fourth street, noticed that three young fellows were crowding him. He pushed his way through them and felt in his trousers pocket for his wallet. It was gone.

So were the three pickpockets, and Gunther jumped off after them. He followed one into a grocery store at Eighty-fourth street, where the fellow bought a pound of butter. Gunther accused him of robbing him, and the man dashed up Eighty-sixth street, where he boarded an omnibus car, followed closely by Gunther.

Gunther's outcry of having been robbed got the other passengers excited, and they laid rough hands on the alleged thief. The motorman's gang clanking brought Policeman Ahearn up on the run, and he placed the man under arrest on Gunther's complaint.

The prisoner gave his name as Joseph Goldberg, 24 years old. He strenuously denied having robbed Gunther and maintained that he was a respectable workman with a family.

When he was searched, Gunther's pocket-book containing a number of checks and \$20 in bills was found in Goldberg's left sock. He was locked up for the night.

TO INDICT 100 LYNCHERS.

Grand Jury Expected to Find Against Those Concerned in Springfield Killings.

SPRINGFIELD, Mo., April 21.—The special Grand Jury empaneled Monday by Judge Lincoln to fix the blame for last Sunday's triple lynching has adjourned until next Monday. Assistant Attorney-General Keniah, who has been present all week assisting Prosecuting Attorney Patterson, has advised that all true bills found by the jury be returned in one batch.

It is expected that the inquisitorial body will be in session all of next week. About fifty witnesses have been examined and subpoenas have been issued for many more. It is common rumor that the Grand Jury will return about 100 indictments.

The State returns are still here and will remain over Sunday. The jury have more to do than to get ashore, because the State returns are still here and will remain over Sunday. The jury have more to do than to get ashore, because the State returns are still here and will remain over Sunday.

BOMB FOUND IN VESTIBULE.

Otto Adams, Who, It is Said, Had Trouble in His House, Arrested.

Otto Adams, 55 years old, of 359 Van Siclen avenue, Brooklyn, was arrested last night on a charge of placing an explosive bomb made out of a piece of brass tubing filled with powder in the vestibule of the Lafayette Hotel, corner of Crescent and Fulton streets, East New York. The bomb was accidentally discovered by one of the guests of the hotel yesterday morning as he was leaving the hotel.

Another bomb of similar design mysteriously found its way into the building a week ago.

The bomb discovered yesterday was in a corner of the vestibule under a covering of newspaper, which was partly burned. Some of the woodwork nearby was slightly scorched, but the flames from the burning paper, investigation showed, had failed to set off a fuse connected with one end of the tube, which was plugged with wood.

A man named Leonard dropped the device into a pail of water pending the arrival of Policeman Doherty from the Liberty avenue station. Learning that a man answering Adams's description had been seen walking away from the hotel shortly before the bomb was found, the police decided to look him up. They learned, too, that Adams, who had formerly lived in the place, had some trouble with Mrs. Koerner, who conducts the hotel.

One of the guests in the hotel had caused Adams's arrest at the time of the trouble in the hotel, alleging that he had assaulted her. What seemed strange to the police was the fact that Henry J. Carsons, who had been a witness in the assault case and had testified against Adams, a few weeks ago received through the mail an infernal machine contained in a tin box, which was delivered at his home in Glen street.

Detective Sergeant Barker, who is on duty at Adams's home in Van Siclen avenue, while Detective Stevens and Doherty, got sufficient evidence against him to warrant his arrest, which was made last night about 7 o'clock. Adams, who says he is an inventor, took his arrest very coolly. He told the police that they had absolutely no case against him, and he never used explosives in his life. The police later made a search of the prisoner's home, and they say they found some articles which would bear out the evidence against him. Adams says that he is the inventor of several novelties.

WORK PAUL KELLY'S PICTURE.

Michael Rice, an Italian, arrested in connection with a burglary.

Detective Sergeants McCloskey, Gray and Raleigh of the Central Office, Brooklyn, saw two men acting suspiciously near from a pawn shop on Atlantic avenue near Court street, that borough, yesterday morning. The men entered the pawn shop and the three detectives followed. The two men were trying to dispose of some silverware, including spoons, a milk pitcher and a loving cup, in value about \$100. They said they had found the silverware in the street.

The detectives arrested them and after some trouble ascertained that they were Edward Golden, 19 years old, and Emil Loesser, 21 years old, both of 376 Jay street. They also discovered that the property had been stolen from the house of William Prager at 129 East Seventy-fourth street, Manhattan, between midnight Friday and 6 o'clock yesterday morning.

From statements made by the men, Michael Rice, 22 years old, was also arrested. It is said he also participated in the robbery of Section 7 of Article VII. of the Constitution, so as to read:

"Section 7.—The lands of the State now owned or hereafter acquired constituting the forest preserve as now fixed by law, excepting such lands as the Legislature shall provide by law shall necessarily be used for the storage of water for public purposes and the construction of dams therefor, shall be forever kept as wild forest lands. They shall not be leased, sold or exchanged, or taken by any corporation, public or private, nor shall the right thereon be sold, removed or destroyed."

The words from "now fixed by law" to "dams therefor" constitute the amendment to the present section.

The association asked for a public hearing on the bill, but it has been refused. It holds that the proposed amendment is merely a covert attempt to promote the general interests of the State enterprises by diminishing the Adirondack river.

"This proposition is so obviously detrimental to the people's interests in the Adirondack region that we earnestly request your influence to secure its defeat."

William G. Rockefeller, Harry Payne Whitney, Alfred W. Vanderbilt, John Morgan and Bishop Potter are among the trustees of the association.

CHILDREN USED FOR THEFT.

Mother and Two Little Girls Arrested in a Bunch—Woman Carried a Baby.

Detective Itzel, employed in a Fourteenth street department store, saw a girl about 12 years old pick up a child's dress from a counter yesterday afternoon and hurry to the street, where she handed it to another little girl, who stuffed it under her coat. Then she came back into the store where she joined her mother, who was carrying an infant in her arms.

The store detective arrested all hands. The woman said that she was Mrs. Alice Rand of 448 East Tenth street. The child who picked up the dress from the counter said she was Alice Rand, 12 years old, and that the little girl she gave the dress to the sidewalk was her nine-year-old sister, Fannie.

Fannie was found to have stuffed many things under her coat. She had a feather box, a woman's suit, a pair of baby's shoes, a man's suit, a boy's suit, a box of cigars and two pipes. The woman who was arrested said that she had been taken from half a dozen stores in the neighborhood.

Mrs. Rand was locked up in the Mercer street station, where she was held until she could be taken home. Her mother, who is a little over a year old, was left in the cell with her. The two other children were sent to the rooms of the Gerry school.

DELATED WEDDING NEWS.

Mr. and Mrs. Reginald P. Sherman Were Married on March 3.

RYE, N. Y., April 21.—There was much singing in Rye to-day when it became known that Reginald P. Sherman, real estate operator and a widower, had been married to Miss Elizabeth Sherman, daughter of the late John Sherman, in a wedding ceremony which was held at the home of the bride's parents, on March 3.

Mr. Sherman was not told why he had kept the marriage a secret, but he is believed to be due to the death of John Sherman a few weeks ago, who was the father of his first wife. Mr. Sherman and Miss Warby were married at the death of the late John Sherman, at the close of the Lenten service in the evening. Mr. Sherman is a member of the Apawamis Golf Club and the American Yacht Club of Rye.

B. & A. TO CUT RATES.

Springfield Hears the New Haven's Reduction to Two Cents Will Be Met.

SPRINGFIELD, Mass., April 21.—The Boston and Albany Railroad, it is learned here, will probably meet the two cents a mile rate which the New Haven road plans to put into effect in October. It may be expected on the Boston and Albany at that time.

The Boston-New York run would in this way be reduced to nearly the same rate by the Springfield as the Short Line. In the meantime another concession will make the 50-mile mileage books on the Boston and Albany good over the whole New York Central roads in New York State as well as in Massachusetts.

MACKEREL SCHOONER ON ROMER.

Cruising Police Officers Discover Her Crew Safe, Boat Sunk.

The mackerel schooner Cynthia of Gloucester, bound in with fish, went on the Romer Shoals on Friday night in the fog. Capt. Smith and the crew abandoned her in their boat. Police Commissioner Bingham and Deputy Commissioner Walsh discovered her yesterday while cruising in a police launch and notified the Merritt Wrecking Company, which had already been notified from Cape Cod by the Howland stricken. The schooner was in a bad way when she was discovered. She was totally submerged last night.

OUT OF THE WINDOW TO DEATH.

Husband Tells Two Stories of Woman's Fall—Wedding Party Spoiled.

Niels Nielsen, 25 years old, of Columbus avenue, told two different stories of a woman's fall from her room on the fourth floor last night. She struck the pavement in the street and was instantly killed. Charles Nielsen, the woman's husband, was the only witness of the affair. He told conflicting stories, and was detained by the police of the West Sixty-eighth street station to await an investigation by the Coroner.

Nielsen admitted that he had quarreled with his wife during the day. He told the police when first questioned that he had been dining with her, while they were preparing for a wedding party to be given in their room to some friends, and that his wife accidentally fell out of the window. The story didn't hold, however, for the coroner's inquest. A policeman looked out of the window and saw a fire escape, and concluded that the story was impossible.
