LEONIA

THIS PICTURESQUE SUBURB
ON THE WESTERN SLOPE OF THE PALISADES
15 Minutes from 130th Street Ferry

is not a visionary land-promoting proposition of inflated values and glittering promises.

It is designed for the homes of those who want to live within easy access of the city, and of those who place some importance upon the character of their neighbors.

The above picture is an exact representation of one of the street scenes in Leonia. The glorious panoramic view from these houses cannot be portrayed in a newspaper picture. This view alone is worth coming to Leonia to see.

We are making additional street and landscape improvements and building more houses as rapidly as possible, carrying out the promises made in these columns last winter to the effect that by this coming summer Leonia will be a model suburban town.

On completion of the four North River Tunnels LEONIA will be within 25 minutes' ride of any part of Manhattan south of 34th Street.

What effect these new transportation facilities will have on the value of this property we leave to your own judgment.

At present we offer a few more lots at original development prices. These afford a splendid investment, as values are necessarily advancing with the growth of the place.

As our improvements progress, we propose to increase the prices of lots.

Houses and Lots Sold on the Monthly Payment Plan

Come out and see the place to-morrow. Take a car marked "Via Broad Ave." after crossing the ferry at 130th Street. You will enjoy the ride up the steep cliffs of the Palisades and down into the picturesque valley on the other side of these cliffs.

You can also go by the Erie R. R. from 23d or Chambers Street.
