KAISERS PORTRAIT UNVEILED. Presentation Ceremony in the Brooklyn Institute of Arts and Sciences. A portrait of Emperor William, painted by Conrad, was unveiled in the main museum of the Brooklyn Institute of Arts and Sciences on Eastern Parkway yesterday afternoon. It is a feet by 9 feet and is hung on the north wall of the gallery. It was covered with the flags of the United States and Germany. Former Mayor Charles A. Schieren, the vice-president, occupied the chair. After the painting had been unveiled it was presented to the institute by acting Consul-General von Gneist, who said among other things: At the banquet held on the 11th under the auspices of the Brooklyn Institute of Arts and Sciences in honor of Prof. Dr. Wilhelm Oswald it was already announced that His Majesty the German Emperor, as a special mark of his graciousness, had donated his portrait, painted in oil, to this institute. The picture, at the time this announcement was made still in the hands of the artist, has now reached its final destination, and it becomes my happy lot at this gathering to present it to the institute as a devoted and loyal devotee to the high aims of promoting arts and sciences. In now presenting this portrait of his Majesty let me congratulate you, gentlemen, on this gift and express the hearty wish that for many years to come it may continue to be the good fortune of the institute to aid in fostering friendship between Germany and the United States and to contribute its share to the end that, corresponding with the progress of the two nations, their relations may grow in mutual understanding and good will toward each other. In accepting the portrait Mr. Schieren said in part: We shall ever appreciate it, not only as the portrait of the Emperor of a great nation but as the portrait of one of the foremost and distinguished rulers of the present time, a man who by his wise and energetic policy has developed the growth of German industries to such a degree that Germany ranks to-day as one of the foremost commercial nations of the world. It is quite a pleasant coincidence that the speaker, who is a native of Germany, should have the honor of accepting the portrait of the Emperor, although a resident of this country for over half a century and a loyal adopted citizen who has been greatly honored by the American people, he has never forgotten the land of his birth and takes a deep interest in its welfare, especially in its wonderful progress during the past few years of the present Emperor. Therefore this portrait of him will be of special interest and will no doubt also be greatly appreciated by the American people in general. The Rev. Dr. S. Parkes Cadman, pastor of the Central Protestant Church, presided. Following this there was a reception and the guests had an opportunity of inspecting the portrait.

ANNoyer OF J. P. MORGAN & CO. Mrs. Williams Found to Be Insane After All, But She Is Free Now. Another turn was given yesterday to the history of Mrs. Ellen B. Williams, the woman who was arrested for disturbing the office of J. P. Morgan & Co., and who was committed to Bellevue for examination as to her sanity. Supreme Court Justice Greenbaum handed down a decision declaring that after a review of the evidence taken before J. J. Nealis as referee he is convinced that the woman is insane and should either be sent to a sanitarium or committed to the care of some competent person. Meanwhile Mrs. Williams is enjoying her liberty obtained the other day from Justice Dugro on a writ of habeas corpus. When the woman was placed before him Justice Dugro found that she was in a sanitarium at Wilkesboro, through an arrangement between counsel, pending negotiations which were expected to result in her removal to England by her son. There being no judicial action for her confinement, Justice Dugro said that she was at liberty to go as she pleased and she promptly left the court room to go to the home of some friends. Justice Greenbaum says that the medical evidence is overwhelming that she is a paranoiac, and that therefore she should be placed in the hands of the supervision of some competent custodian. It is understood that Mrs. Williams's son will take her to England and so settle the matter. If the woman is insane and should be brought to court again, if she is in the jurisdiction, so that a final disposal of her case may be made.

THERE'S A REASON GRAPE-NUTS, the delicious breakfast food, needs no cooking. It is ready for instant use and is a crisp, toothsome dish of decidedly attractive flavor. It possesses high value as a strength-making food, welcome to athlete, brain worker and invalid. In place of any form of meat, try Grape-Nuts with good rich cream and some fruit for breakfast. The change has worked wonders in the way of health for many: it may suit you. Try it.

THE STREET NOT A PLAYGROUND. Children and Parents to Be Warned—Object to Prevent Accidents. Police Inspector Cross, under direction of Deputy Commissioner O'Keefe, sent out this order yesterday to all the Inspectors and Captains in the boroughs of Brooklyn and Queens. The reports received from commanding officers of precincts show that daily numbers of children are fatally or seriously injured by being run over on the public streets by trolley cars, automobiles, trucks and other vehicles. It is well known and therefore no exaggeration to state that these accidents are due mainly to culpable negligence of the parents or guardians of the children injured. The public streets and roadways are intended for vehicle traffic and not for playgrounds for the children. Notwithstanding this fact, children are permitted, through the neglect and indifference of their guardians or parents, to play in the streets and roadways, to cross and recross the same at will and unprotected. As a rule these children have not sufficient judgment or discretion to realize the danger they are in when they do so. In some instances they become recklessly daring and run in front of or against passing vehicles, with the result that they are seriously or fatally injured through no fault whatever of the drivers of the vehicles. One of the first and most important duties of the police is to protect life, and therefore it is incumbent upon them to use their best efforts to warn and prevent children from playing in the public streets. If this can be accomplished the number of accidents will be reduced to a minimum. You will send a copy of this communication to commanding officers of precincts within your district and see that positive instructions are given by them to the patroling officers of their respective commands not only to warn the children to stop playing on the streets and roadways, but also to notify the parents and guardians to prevent them from so doing. This is a very important matter, and many serious and perhaps fatal accidents can be averted if the parents and children and parents act conscientiously and intelligently in carrying out the orders herein contained.

A FISH OF LONG AGO. fossilized remains of what seems to be a large fish somewhat resembling a catfish. It is four feet long, a foot wide and five inches thick through the middle. Part of the head is missing, but the remainder is that of a fish. It is the largest fossil specimen of its kind ever found in the mines here. WILKESBARRE, Pa., June 16.—Richard Thomas, a miner in the Conyngham shaft at North Wilkesbarre, has discovered the

GREAT BUYING OF WHEAT.

Bullish Chicago Market—Prices Advance and Rise on Russian News.

CHICAGO, June 16.—Crop reports and a market in the outside and professional trade in all grades were the leading trade features of the grain market. The new interest taken by the public in coarse grains and the continued assertion of the deterioration in crop conditions have at last spread to wheat and the trade was the largest of this year. The volume of new buying was tremendous and was made a way of bullish enthusiasm.

Prices advanced sharply at one time on the report that Russia would suspend exports, but this was subsequently denied and prices broke sharply.

Sentiment with regard to corn was generally bullish until after midweek. There was an urgent need for cash grades from the East and little available with which to meet that demand. This helped to keep the small traders on the buying side. Later, however, the big orders started to unload and took the edge off this cereal.

CITY'S LAND SOLD FOR TAXES

And Unless It Pays Putnam County \$30,000. It Will Lose the Lands.

Comptroller Metz received notice yesterday from the authorities of Putnam county that thirty-two pieces of property in that county owned by New York city were sold in 1904 at a tax sale and that unless the arrears, amounting to about \$30,000, were paid before September 19 Putnam county would give valid title to the persons who bought the property in the land in the area purchased for the uses of the Aqueduct Commission.

Mr. Metz has found that no comprehensive records are kept of the city's holdings outside of the municipal boundaries and that no appearance is made when the local tax officials of other counties announce assessments on them. As a result the assessment is often above the market value. The Sinking Fund Commission will be asked to provide the money to redeem the Putnam county property.

UNINVITED GUEST WITH A GUN

Peppers Real Guests With Buckshot, Wounding Four—He Is Jailed.

WILKESBARRE, Pa., June 16.—Angry because he was not allowed to enter the house of John Davis, who was entertaining friends, Thomas Eddy of Hanover township at 1 o'clock this morning fired both barrels of a gun loaded with buckshot at a group of persons who were sitting in the parlor. Davis and his wife were severely wounded and Samuel Morgan and William Harvey were shot in the legs. Eddy was captured by Constable Clarke and taken before Justice Morris, who sent him to jail to await the result of the victims' injuries.

SUNDAY BASEBALL

Brooklyn Police Will Make Arrests Today at the Games for Money.

Former Police Commissioner Bernard J. York, counsel for the Brooklyn Baseball Club, announced yesterday that there would be a game this afternoon between the local club and the Cincinnati club at Washington Park. "The game will be played and the law will be tested," he remarked. Deputy Police Commissioner O'Keefe had this to say: "I understand the professional clubs will play to-morrow and test the law. The police will be on hand and will prevent any games for which money is charged, directly or indirectly." A delegation of amateur baseball magnates held a conference with Deputy Commissioner O'Keefe yesterday in reference to Sunday games. Mr. O'Keefe said that the law is against the kind of games they played, but that against games played for love of the sport. He said that policemen would be at every game played to-day, and if money was collected by any subscription before or after the game, arrests would be made.

BIG TIN PLANT SHUTS DOWN.

Workers Say It's Due to a Labor Fight and Not to Trade Conditions.

NEW CASTLE, Pa., June 16.—The Shenango Tin Plant, the largest in the country, closed to-day on orders posted last night. No time was allowed for resuming.

Tin workers say the tin trade was never in better condition and that the mill is away behind in its orders, so they are inclined to think the shutdown comes just now to prevent the kind of games they played, but that against games played for love of the sport. He said that policemen would be at every game played to-day, and if money was collected by any subscription before or after the game, arrests would be made.
