

SOCIALISM'S FIGHT FOR LIFE

ENGLAND THE BATTLEGROUND: PORTENTS OF DEFEAT.

Struggle Prematurely Pushed by Hull Labor Conference—Means Ruin of Liberal Party—Hammerton Yell to Go to Council Meetings—Unionists' Chance.

Special Cable Despatch to The Sun. LONDON, Jan. 25.—The United States and the rest of the western world was as deeply concerned as Great Britain itself in the great campaign which opened in this country during the present week.

It is a good thing that the issue has been forced upon the British people this prematurely. No one regrets so much the vote of the labor party congress in favor of socialism and the subsequent withdrawal of the Socialist leaders themselves.

The conference which voted this programme represented ostensibly a membership of about 1,000,000 voters. They expect to add another half million next month, when the Miners' Union will vote on the question of joining the labor party.

Socialism has become, however, a great power in the land and it dominates the present Government. It is not a case of the tail wagging the dog, but it means the death of the dog. The liberal party can no longer exist as at present constituted.

The great middle class, which when it unites controls this and most other countries, has not become dangerously infected with the political poison which thus far has had for its victims certain so-called intellectuals and the great body of the less educated masses.

It was also said in court that documents found at Miss Robinson's lodgings included agreements with the New Druce-Portland Company, Limited, whereby she was to receive a portion of any money obtained through a settlement of the case.

Another argument which appeals to many workmen, and especially to the members of the Miners' Federation, so that they may hesitate long before throwing in their lot with the new programme of the labor party, is that the unions have large funds which according to Socialist principles they would be expected to throw into the common cause.

The demoralization of the liberals is, of course, widespread. It was announced to-night that Premier Campbell-Bannerman, who has just returned after his holiday, was ill and was unable to attend the meeting of the Privy Council at Windsor.

The Socialist leaders themselves are apprehensive, because they hoped that their sympathizers in America might take the field first in making socialism a national issue.

NEW DRUCE CASE TANGLE.

New American Woman Witness With Story of Purloined Letters. Special Cable Despatch to The Sun. LONDON, Jan. 25.—Mr. Kimber, attorney for the claimants in the Druce case, which was recently withdrawn from court after the opening of the Druce grave and the finding of a body which identified the story that Druce was in reality the fifth Duke of Portland, has asked the Public Prosecutor to investigate the alleged theft of important documents supporting the claimant's case.

The attorney also gave a new twist to the case by announcing that a Miss Mary Patterson had written from New York offering to use in the case love letters which Druce sent her mother in which he acknowledged that he was the fifth Duke of Portland.

Miss Mary Robinson, who testified that she acted as T. C. Druce's outside secretary and who was arrested on January 17 on a charge of perjury, was brought up in the police court today and was again remanded to jail.

It was also said in court that documents found at Miss Robinson's lodgings included agreements with the New Druce-Portland Company, Limited, whereby she was to receive a portion of any money obtained through a settlement of the case.

WHOLE ARMY TO HOLD INDIA

ENGLAND, ALARMED, HAS AN EMERGENCY PLAN.

Reserve Forces May Have to Guard Rest of the Empire—Hint at Deep Border Plot—Easy Money Starts Building—Severity for Suffragettes—Gossip of London.

Special Cable Despatch to The Sun. LONDON, Jan. 25.—It is by roundabout means that Englishmen usually learn of grave crises within the empire. Such a warning comes now in the shape of orders from the War Office to the officers of the auxiliary forces throughout Great Britain asking that they state whether mobilization is immediately possible.

The recipients are instructed to be prepared to join the forces on receipt of telegraphic orders. They must keep their adjutants informed of their movements and must not go beyond the reach of telegrams.

The danger of an uprising in India, which has been promoted by the Government's treatment of its Indian residents, has been fully described in these despatches. It has been growing with alarming rapidity, as was inevitable, and the Government is now compelled to prepare for any eventuality.

A minister turn has been given to the situation by certain home comments. It has been hinted during the past few days that the action of the Boer majority in the Transvaal has been acted by a desire to embroil the home Government in India, with what ultimate object is not suggested.

POPE SUFFERS FROM COLD.

His Doctors Divided on Question of Warm Rooms—He Has Cough and a Cough.

Special Cable Despatch to The Sun. ROME, Jan. 25.—Despite reports to the contrary the Pope has not entirely recovered from his last illness. Gout in itself is a passing ailment. In a few days the pain in the knee subsides and the patient may be said to have recovered, but upon a man of seventy-three, who lives a life of hard work and continual anxiety, even slight idleness leaves a trace.
