TRAP SHOOTING.

A. Tilt High Gun at Travers Island With Three Wins and a Tie for First.

The New York A. C. trap experts had a big day at Travers Island yesterday. Eight events were run off, and with the exception of the first two, which were lost early for the laggards, there were lively fields contending. A. Tilt was the high gun of the day.

He retired with three firsts and tied his brother, W. A. Tilt, for the fourth. Darkeness prevented the shooting, which will take place on Lincoln's Birthday.

For the high score trophy and the handicap cup, both of which he won, Tilt had an allowance of two targets, but he was breaking with such success that the handicap was reduced to one. This seemingly did not alter his luck, for he tied with his brother, who had five targets allowed, the total being 23.

In the shoot-off, A. Tilt repeated the score and won. In his four targets he shot from scratch and tied again with his brother, both setting up totals of 23.

As far as the handicap trophy and the honors of the day were concerned, Fred Hodgman, who in the first round had a score of 14, was the victor from scratch. It was a picturesque piece of shooting, especially as the wind drove the birds in all directions.

The February cup was keenly contested between W. J. Elias and G. Fred Pelham, whose handicaps were 8 and 9, respectively. Elias had a fifty target race, and nearing the end Elias had more accuracy, and he won by two targets.

Pelham did a nice piece of shooting for the State trophy and shot the first target that had been hung the result was never in doubt. He had a handicap of 2 and made a total of 24. Elias being next with 23, his handicap being 3.

SPORTING TALK OF INTEREST

WHY THE POOLROOMS WANT THE RACETRACKS CLOSED.

Jonett Shouse Charges De-Lacy and Others With Seditious Motives—Eras's Babe Wins Burn-Palmer Fight Should Be 3 to 1.

Jonett Shouse, editor of the Kentucky Farmer and Breeder, who recently delivered an address defending racing before the American Breeders Association at Washington, after a short visit to this city, has this to say about the anti-racetrack crusade in New York State.

"The whole poolroom element in the East is combined in carrying on this fight," he says. "The poolroom element in the East is combined in carrying on this fight, and who has just returned to Lexington after a short visit to this city, has this to say about the anti-racetrack crusade in New York State."

"The poolrooms in New York do not want racing in New York, but they want racing outside of the State, upon the results of which they will be able to reap a harvest, taken from sources which can least afford to gamble. The poolroom men are thoroughly selfish in this matter and should not be encouraged."

WORLD'S RECORD BOWLING

SMITHSON WINS 90 YARD HURDLE IN 3 1-5 SECONDS.

Taylor Easily Takes 900 Yard Race in the Absence of His Rival, Hillman—One Irish Relay Team Wins and One Loses—Walkers Amuse the Garden Crowd.

The most popular event at the annual games of the Irish A. A. C. at Madison Square Garden last night was the mile walk, and it was quite a feature of the carnival.

A crowd of about thirty feet and the aspirants turned out to try one another's speed and every kind of muscular action was exhibited. The grimaces and angry contortions of the competitors kept the crowd in roars, and the merriest did not peter out for the remainder of the evening.

Some of the styles were doubtful, while others were so slow and out of the way they were allowed to lapse alone, and only a few who wanted to do high stepping were pulled off. The first prize finally went to G. Bartholomew, unattached, who pegged around with only the use of one hand, the other being ornamented with a plaster.

The special 900 yard run attracted half a dozen entries, but J. B. Taylor, the colored boy from the University of Pennsylvania, was the only one to start. Harry L. Millman of the New York A. C. was on the programme but did not start, as it was said he had water on the knee.

When it was seen that Hillman did not go to the post the crowd began to yell, asking what became of him. The starters were Taylor, Bacon of the Irish A. A. C. and Harry Haywood, New York A. C. Taylor walked off the post and made a good race of it, winning by a few feet from Bacon, Haywood bringing up the rear.

The big men who tossed the fifty-five pound weight on the floor created a loud rumble as they did so, and the crowd was up on its feet. The winner turned up in the full moon, and the crowd was up on its feet. The winner turned up in the full moon, and the crowd was up on its feet.

The match relay between the Boston A. A. C. and the New York A. C. was a close one. The Boston team was led by Taylor, who was a fine runner. The New York team was led by Bacon, who was also a fine runner.

BEATS YANKEE GIRL IN RACING FINISH FOR ST. CHARLES HANDICAP.

NEW ORLEANS, La., Feb. 8.—Before probably the largest crowd that has witnessed any race in New Orleans this season Old Honey, a 13 to 1 chance, ridden by W. J. Lee, the negro jockey, won the St. Charles Handicap from Yankee Girl, the 4 to 5 favorite, and the heavily weighted Juggler at the Fair Grounds to-day.

Old Honey was rushed to the front at the start and Lee kept him there until the last quarter, where Yankee Girl and Juggler challenged. Lee's strong finish landed Old Honey in front. The race was a three horse race from start to finish, the other two starters being beaten off after the first half mile.

A disqualification followed the victory of Old Honey, who had been out of his field at the start, and leading by a wide margin until twenty yards from the wire, when he was brought back to the starting line. The race was a three horse race from start to finish, the other two starters being beaten off after the first half mile.

The Washington Jockey Club has announced its list of stakes for the meeting which will open at Benning on March 23. The stakes are practically the same as last year, and the entries are being steadily received from the horsemen who usually begin the Eastern campaign at that track.

Burlew & O'Neill have decided to sell all of their horses now at New Orleans with the exception of Chapultepec and Angelus. The young turfmen believe that Chapultepec will win the Derby at the Crescent City and will later demonstrate his worth by winning the Kentucky Derby.
